RFB Reference No.: KE-ICTA-486639-GO-RFB

Loan No./Credit No./Grant No.: IDA 7289-KE and 7290-KE

Country: Kenya Date: 28<sup>th</sup> July 2025

To All Interested Bidders

## RE: CLARIFICATION OF RFB DOCUMENT THROUGH CLARIFICATION NO. 1

In accordance with the Instructions to Bidders ITB 7 [Amendment of Bidding Document], the Client has amended Section VII - Schedule of Requirements

ltem	Requirements	Clarification Sought	Response
24 Port 10G	Minimum of 24 No. ports of	It is our understanding that the core switch will downlink to 10 G port edge switches.  The general industry practice for layer 3 fixed core switches is to support 1/10G and not 25G.	There is no change on the technical requirement for "24 Port 10G SFP+ Layer 3 Core Switch" as stipulated in
		e.g.,25/40/100G on switches, it is recommended to deploy modular switches. Kindly confirm that 10G downlink core switch is sufficient for this requirement?	
Warranty and support	Three-year (3) warranty and support	The industry practice is to provide warranty for a limited duration (usually 1year). Support on the other hand can be over a longer period and may include technical assistance, trouble shooting, firmware upgrades among others. It is important to separate warranty period (1 year) and support period (2 years).  Could this be clarified?	and support.

This clarification no. 1 forms part of the issued RFB document. All other terms and conditions of the issued RFB document remain unchanged.

Zilpher Owiti, OGW Ag. Chief Executive Officer ICT Authority
