ICT Authority**

PART 1 - TENDERING PROCEDURES

SECTION I - INSTRUCTIONS TO TENDERERS (ITT)

Section I - Instructions to Tenderers

A. **GENERAL**

1. **Scope of Tender**

- 1.1 The Procuring Entity, as indicated **in the TDS**, issues this tendering document for the supply and installation of the Information System as specified in Section V, Procuring Entity's Requirements. The name, identification and number of lots (contracts) of this ITT are specified **in the TDS**.

2. **Definitions**

- 2.1 Unless otherwise stated, throughout this tendering document definitions and interpretations shall be as prescribed in the Section VI, General Conditions of Contract.
- 2.3 Throughout this tendering document:
- a) The term "in writing" means communicated in written form (e.g., by mail, e-mail, fax, including if specified in the TDS, distributed or received through the electronic-procurement system used by the Procuring Entity) with proof of receipt;
 - b) If the context so requires, "singular" means "plural" and vice versa; and
 - c) "Day" means calendar day, unless otherwise specified as "Business Day". A Business Day is any day that is an official working day of the Procuring Entity. It excludes the Procuring Entity's official public holidays.
 - d) "Information System" shall carry the same meaning as "Information Technology".

3. **Fraud and Corruption**

- 3.1 The Procuring Entity requires compliance with the provisions of the Public Procurement and Asset Disposal Act, 2015, Section 62 "Declaration not to engage in corruption". The tender submitted by a person shall include a declaration that the person shall not engage in any corrupt or fraudulent practice and a declaration that the person or his or her sub-contractors are not debarred from participating in public procurement proceedings.
- 3.2 The Procuring Entity requires compliance with the provisions of the Competition Act 2010, regarding collusive practices in contracting. Any tenderer found to have engaged in collusive conduct shall be disqualified and criminal and/ or civil sanctions may be imposed. To this effect, Tenderers shall be required to complete and sign the "Certificate of Independent Tender Determination" annexed to the Form of Tender.
- 3.2.1 Unfair Competitive Advantage -Fairness and transparency in the tender process require that the Firms or their Affiliates competing for a specific assignment do not derive a competitive advantage from having provided consulting services related to this tender. The Procuring Entity shall indicate in the **TDS** firms (if any) that provided consulting services for the contract being tendered for. The Procuring Entity shall check whether the owners or controllers of the Tenderer are same as those that provided consulting services. The Procuring Entity shall, upon request, make available to any tenderer information that would give such firm unfair competitive advantage over competing firms.
- 3.2.2 Tenderers shall permit and shall cause their agents (whether declared or not), subcontractors, sub-consultants, service providers, suppliers, and their personnel, to permit the Procuring Entity to inspect all accounts, records and other documents relating to any initial selection process, pre-qualification process, tender submission, proposal submission, and contract performance (in the case of award), and to have them audited by auditors appointed by the Procuring Entity.

4. **Eligible Tenderers**

- 4.1 A Tenderer may be a firm that is a private entity, a state-owned enterprise or institution subject to ITT 4.6, or any combination of such entities in the form of a joint venture (JV) under an existing agreement or with the intent to enter in to such an agreement supported by a Form of Intent. Public employees and their close relatives (*spouses, children, brothers, sisters and uncles and aunts*) are not eligible to participate in the tender. In the case of a joint venture, all members shall be jointly and severally liable for the execution of the contract in accordance with the Contract terms. The JV shall nominate a Representative who shall have the

authority to conduct all business for and on behalf of any and all the members of the JV during the Tendering process and, in the event the JV is awarded the contract, during contract execution. Members of a joint venture may not also make an individual tender, be a subcontractor in a separate tender or be part of another joint venture for the purposes of the same Tender. The maximum number of JV members shall be specified in the **TDS**.

- 4.1.1 Public Officers of the Procuring Entity, their Spouses, Child, Parent, Brothers or Sister. Child, Parent, Brother or Sister of a Spouse, their business associates or agents and firms / organizations in which they have a substantial or controlling interest shall not be eligible to tender or be awarded a contract. Public Officers are also not allowed to participate in any procurement proceedings.
- 4.1.2 A Tenderer shall not have a conflict of interest. Any Tenderer found to have a conflict of interest shall be disqualified. A Tenderer may be considered to have a conflict of interest for the purpose of this Tendering process, if the Tenderer:
- a. Directly or indirectly controls, is controlled by or is under common control with another Tenderer; or
 - b. Receives or has received any direct or indirect subsidy from another Tenderer; or
 - c. Has the same legal representative as another Tenderer; or
 - d. Has a relationship with another Tenderer, directly or through common third parties, that puts it in a position to influence the Tender of another Tenderer, or influence the decisions of the Procuring Entity regarding this Tendering process; or
 - e. Any of its affiliates participates as a consultant in the preparation of the design or technical specifications of the Information System that are the subject of the Tender; or
 - f. Or any of its affiliates has been hired (or is proposed to be hired) by the Procuring Entity or Procuring Entity as Project Manager for the Contract implementation; or
 - g. Would be providing goods, works, or non-consulting services resulting from or directly related to consulting services for the preparation or implementation of the project specified in the TDSITT2.1 that it provided or were provided by any affiliate that directly or indirectly controls, is controlled by, or is under common control with that firm; or
 - h. Has a close business or family relationship with a professional staff of the Procuring Entity who: -
 - i. Are directly or indirectly involved in the preparation of the tendering document or specifications of the Contract, and/ or the Tender evaluation process of such Contract. or
 - ii. Would be involved in the implementation or supervision of such Contract unless the conflict stemming from such relationship has been resolved in a manner acceptable to the Procuring Entity throughout the Tendering process and execution of the Contract.
- 4.1.3 A firm that is a Tenderer (either individually or as a JV member) shall not participate as a Tenderer or as JV member in more than one Tender except for permitted alternative Tenders. Such participation shall result in the disqualification of all Tenders in which the firm is involved. However, this does not limit the participation of a Tenderer as subcontractor in another Tender or of a firm as a subcontractor in more than one Tender.
- 4.1.4 A Tenderer may have the nationality of any country, subject to the restrictions pursuant to ITT4.9. A Tenderer shall be deemed to have the nationality of a country if the Tenderer is constituted, incorporated or registered in and operates in conformity with the provisions of the laws of that country, as evidenced by its articles of incorporation (or equivalent documents of constitution or association) and its registration documents, as the case maybe. This criterion also shall apply to the determination of the nationality of proposed sub-contractors or sub- consultants for any part of the Contract including related Services.
- 4.1.5 A Tenderer that has been debarred from participating in public procurement shall be ineligible to tender or be awarded a contract. The list of debarred firms and individuals is available from the website of PPRA www.ppra.go.ke.
- 4.1.6 Tenderers that are state-owned enterprises or institutions in Kenya may be eligible to compete and be awarded a Contract(s) only if they can establish that they (i) are legally and financially autonomous (ii) operate under commercial law, and (iii) are not under supervision of the Procuring Entity.
- 4.1.7 Firms and individuals may be ineligible if (a) as a matter of law or official regulations, Kenya prohibits commercial relations with that country, or (b) by an act of compliance with a decision of the United Nations Security Council taken under Chapter VII of the Charter of the United Nations, Kenya prohibits any import of goods or contracting of works or services from that country, or any payments to any country, person, or entity in that country.

- 4.1.8 The Procuring Entity may require tenderers to be registered with certain authorities in Kenya. Such registration shall be defined in the **TDS**, but care must be taken to ensure such registration requirement does not discourage competition, nor exclude competent tenderers. Registration shall not be a condition for tender, but where a selected tenderer is not so registered, the tenderer shall be given opportunity to register before signing of the contract.
- 4.1.9 Foreign tenderers are required to source at least forty (40%) percent of their contract inputs (in supplies, 4.1.10 Subcontracts and labor) from national suppliers and contractors. To this end, a foreign tenderer shall provide in its tender documentary evidence that this requirement is met. Foreign tenderers not meeting this criterion will be automatically disqualified. Information required to enable the Procuring Entity determine if this condition is met shall be provided in for this purpose is be provided in “*SECTION III- EVALUATION AND QUALIFICATION CRITERIA, Item 9*”.
- 4.1.11 Pursuant to the eligibility requirements of ITT 4.11, a tenderer is considered a foreign tenderer, if it is registered in Kenya, has less than 51 percent ownership by nationals of Kenya and if it does not subcontract foreign contractors more than 10 percent of the contract price, excluding provisional sums. JVs are considered as foreign tenderers if the individual member firms are registered in Kenya have less than 51 percent ownership by nationals of Kenya. The JV shall not subcontract to foreign firms more than 10 percent of the contract price, excluding provisional sums.
- 4.1.12 The Competition Act of Kenya requires that firms wishing to tender as Joint Venture undertakings which may prevent, distort or lessen competition in provision of services are prohibited unless they are exempt in accordance with the provisions of Section 25 of the Competition Act, 2010. JVs will be required to seek for exemption from the Competition Authority. Exemption shall not be a condition for tender, but it shall be a condition of contract award and signature. A JV tenderer shall be given opportunity to seek such exemption as a condition of award and signature of contract. Application for exemption from the Competition Authority of Kenya may be accessed from the website www.cak.go.ke
- 4.1.13 Tenderers shall be considered ineligible for procurement if they offer goods, works and production processes with characteristics that have been declared by the relevant national environmental protection agency or by other competent authority as harmful to human beings and to the environment.
- 4.1.14 A Kenyan tenderer shall be eligible to tender if it provides evidence of having fulfilled his/her tax obligations by producing a valid tax compliance certificate or tax exemption certificate issued by the Kenya Revenue Authority.

5 Eligible Goods and Services

- 5.1 The Information Systems to be supplied under the Contract may have their origin in any eligible country.
- 5.2 For the purposes of this tendering document, the term “Information System” means all:
- i. the required information technologies, including all information processing and communications-related hardware, software, supplies, and consumable items that the Supplier is required to supply and install under the Contract, plus all associated documentation, and all other materials and goods to be supplied, installed, integrated, and made operational; and
 - ii. the related software development, transportation, insurance, installation, customization, integration, commissioning, training, technical support, maintenance, repair, and other services necessary for proper operation of the Information System to be provided by the selected Tenderer and as specified in the Contract.
- 5.3 For purposes of ITT 5.1 above, “origin” means the place where the goods and services making the Information System are produced in or supplied from. An Information System is deemed to be produced in a certain country when, in the territory of that country, through software development, manufacturing, or substantial and major assembly or integration of components, a commercially recognized product results that is substantially different in basic characteristics or in purpose or utility from its components.
- 5.4 Any goods, works and production processes with characteristics that have been declared by the relevant national environmental protection agency or by other competent authority as harmful to human beings and to the environment shall not be eligible for procurement under this Act.

B. CONTENTS OF TENDERING DOCUMENT

Sections of Tendering Document

PART 1 - Tendering Procedures

Section I - Instructions to Tenderers (ITT)

Section II - Tender Data Sheet (TDS)

Section III - Evaluation and Qualification Criteria

Section IV - Tendering Forms

PART 2 - Procuring Entity's Requirements

Section V - Requirements of the Information Systems

Section VI - Technical Requirements

Section VII - Implementation Schedule

Section VIII - System Inventory Tables

Section IX - Background and Informational Materials

PART 3 - Contract

Section X - General Conditions of Contract

Section XII - Special Conditions of Contract

Section XIII - Contract Forms

- 5.5 The Invitation to Tender Notice issued by the Procuring Entity is not part of this tendering document.
- 5.6 Unless obtained directly from the Procuring Entity, the Procuring Entity is not responsible for the completeness of the document, responses to requests for clarification, the Minutes of the pre-Tender meeting (if any), or Addenda to the tendering document in accordance with ITT 10. In case of any contradiction, documents obtained directly from the Procuring Entity shall prevail.
- 5.7 The Tenderer is expected to examine all instructions, forms, terms, and specifications in the tendering document and to furnish with its Tender all information or documentation as is required by the tendering document.
- 6 Site Visit**
- 6.1 The Tenderer, at the Tenderer's own responsibility and risk, is encouraged to visit and examine the Site of the Required Services and its surroundings and obtain all information that may be necessary for preparing the Tender and entering in to a contract for the Services. The costs of visiting the Site shall be the Tenderer's own expense.
- 7 Pre-Tender Meeting and a pre- arranged pretender visit of the site of the works**
- 7.1 The Procuring Entity shall specify in the **TDS** if a pre-tender conference will be held, when and where. The Procuring Entity shall also specify in the **TDS** if a pre-arranged pretender visit of the site of the works will be held and when. The Tenderer's designated representative is invited to attend a pre-arranged pretender visit of the site of the works. The purpose of the meeting will be to clarify issues and to answer questions on any matter that may be raised at that stage.
- 7.2 The Tenderer is requested to submit any questions in writing, to reach the Procuring Entity not later than the period specified in the **TDS** before the meeting.
- 7.3 Minutes of the pre-Tender meeting and the pre-arranged pre-tender visit of the site of the works, if applicable, including the text of the questions asked by Tenderers and the responses given, together with any responses prepared after the meeting, will be transmitted promptly to all Tenderers who have acquired the Tender Documents in accordance with ITT 6.3. Minutes shall not identify the source of the questions asked.
- 7.4 The Procuring Entity shall also promptly publish anonymized (*no names*) Minutes of the pre-Tender meeting and the pre-arranged pre-tender visit of the site of the works at the web page identified **in the TDS**. Any modification to the Tender Documents that may become necessary as a result of the pre-Tender meeting shall be made by the Procuring Entity exclusively through the issue of an Addendum pursuant to ITT 10 and not through the minutes of the pre-Tender meeting. Nonattendance at the pre-Tender meeting will not be a cause for disqualification of a Tenderer.

8 Clarification of Tender Documents

- 8.1 A Tenderer requiring any clarification of the Tender Document shall contact the Procuring Entity in writing at the Procuring Entity's address specified in the TDS or raise its enquiries during the pre-Tender meeting and the pre- arranged pretender visit of the site of the works if provided for in accordance with ITT 8.4. The Procuring Entity will respond in writing to any request for clarification, provided that such request is received no later than the period specified in the TDS prior to the deadline for submission of tenders. The

Procuring Entity shall forward copies of its response to all tenderers who have acquired the Tender Documents in accordance with ITT 6.3, including a description of the inquiry but without identifying its source. If so specified in the **TDS**, the Procuring Entity shall also promptly publish its response at the web page identified in the **TDS**. Should the clarification resulting changes to the essential elements of the Tender Documents, the Procuring Entity shall amend the Tender Documents appropriately following the procedure under ITT 10.

9 Amendment of Tendering Document

- 9.1 At any time prior to the deadline for submission of Tenders, the Procuring Entity may amend the Tendering document by issuing addenda.
- 9.2 Any addendum issued shall be part of the tendering document and shall be communicated in writing to all who have obtained the tendering document from the Procuring Entity in accordance with ITT 6.3. The Procuring Entity shall also promptly publish the addendum on the Procuring Entity's webpage in accordance with ITT 8.1.
- 9.3 To give prospective Tenderers reasonable time in which to take an addendum into account in preparing their Tenders, the Procuring Entity shall extend, as necessary, the deadline for submission of Tenders, in accordance with ITT 24.2 below.

C. PREPARATION OF TENDERS

10 Cost of Tendering

- 10.1 The Tenderer shall bear all costs associated with the preparation and submission of its Tender, and the Procuring Entity shall not be responsible or liable for those costs, regardless of the conduct or outcome of the Tendering process.

11 Language of Tender

- 11.1 The Tender, as well as all correspondence and documents relating to the tender exchanged by the Tenderer and the Procuring Entity, shall be written in the English language. Supporting documents and printed literature that are part of the Tender may be in another language provided they are accompanied by an accurate translation of the relevant passages in the English language, in which case, for purposes of interpretation of the Tender, such translation shall govern.

12 Documents Comprising the Tender

- 13.1 The Tender submitted by the Tenderer shall comprise the following:
- a. **Form of Tender** prepared in accordance with ITT 14;
 - b. **Price Schedules** completed in accordance with ITT 14 and ITT 16;
 - c. **Tender Security or Tender-Securing Declaration** in accordance with ITT 22;
 - d. **Alternative Tender:** if permissible, in accordance with ITT 15;
 - e. **Authorization:** written confirmation authorizing the signatory of the Tender to commit the Tenderer, in accordance with ITT 23.3;
 - f. **Eligibility of Information System:** documentary evidence established in accordance with ITT 16.1 that the Information System offered by the Tenderer in its Tender or in any alternative Tender, if permitted, are eligible;
 - g. **Tenderer's Eligibility:** documentary evidence in accordance with ITT 17 establishing the Tenderer's eligibility and qualifications to perform the contract if its Tender is accepted;

- h. **Conformity:** documentary evidence established in accordance with ITT 18 that the Information System offered by the Tenderer conform to the tendering document;
- i. **Subcontractors:** list of subcontractors, in accordance with ITT 18.4;
- j. **Intellectual Property:** a list of: Intellectual Property as defined in GCC Clause 15;
 - i) All Software included in the Tender, assigning each item to one of the software categories defined in GCC Clause 1.1(C):
 - a. System, General Purpose, and Application Software; or
 - b. Standard and Custom Software;

- iii. All Custom Materials, as defined in GCC Clause 1.1(c), included in the Tender;

All Materials not identified as Custom Materials shall be deemed Standard Materials, as defined in GCC Clause 1.1 (c); Re-assignments among the Software and Materials categories, if necessary, will be made during the implementation of the Contract according to GCC Clause 39 (Changes to the Information System); and

- k. Any other document required in the TDS.

13.2 In addition to the requirements under ITT 13.1, Tenders submitted by a JV shall include a copy of the Joint Venture Agreement entered into by all members indicating at least the parts of the Information System to be executed by the respective members. Alternatively, a Form of intent to execute a Joint Venture Agreement in the information System to be executed by the respective members.

13.1 The Tenderer shall furnish in the Form of Tender information on commissions and gratuities, if any, paid or to be paid to agents or any other party relating to this Tender. The Tenderer shall serialize page so fall tender documents submitted.

14 Form of Tender and Price Schedules

14.1 The Tenderer shall complete the Form of Tender, including the appropriate Price Schedules, using the relevant forms furnished in Section IV, Tendering Forms. The forms must be completed without any alterations to the text, and no substitutes shall be accepted except as provided under ITT 21.3. All blank spaces shall be filled in with the information requested. The Tenderer shall chronologically serialize all pages of the tender documents submitted.

15 Alternative Tenders

15.1 The TDS indicates whether alternative Tenders are allowed. If they are allowed, the **TDS** will also indicate whether they are permitted in accordance with ITT 13.3, or invited in accordance with ITT 13.2 and/or ITT 13.4.

15.2 When alternatives to the Time Schedule are explicitly invited, a statement to that effect will be included **in the TDS**, and the method of evaluating different time schedules will be described in Section III, Evaluation and Qualification Criteria.

15.1 Except as provided under ITT 15.4 below, Tenderers wishing to offer technical alternatives to the Procuring Entity's requirements as described in the tendering document must also provide: (i) a price at which they are prepared to offer an Information System meeting the Procuring Entity's requirements; and (ii) all information necessary for a complete evaluation of the alternatives by the Procuring Entity, including drawings, design calculations, technical specifications, breakdown of prices, and proposed installation methodology and other relevant details. Only the technical alternatives, if any, of the Tenderer with the Best Evaluated Tender conforming to the basic technical requirements shall be considered by the Procuring Entity.

15.4 When Tenderers are invited **in the TDS** to submit alternative technical solutions for specified parts of the system, such parts shall be described in Section V, Procuring Entity's Requirements. Technical alternatives that comply with the performance and technical criteria specified for the Information System shall be considered by the Procuring Entity on their own merits, pursuant to ITT 35.

16 Documents Establishing the Eligibility of the Information System

16.1 To establish the eligibility of the Information System in accordance with ITT 5, Tenderers shall complete the country-of-origin declarations in the Price Schedule Forms, included in Section IV, Tendering Forms.

17 Documents Establishing the Eligibility and Qualifications of the Tenderer

- 17.1 To establish its eligibility and qualifications to perform the Contracting accordance with Section III, Evaluation and Qualification Criteria, the Tenderer shall provide the information requested in the corresponding information sheets included in Section IV, Tendering Forms.
- 17.1 In the event that pre-qualification of potential Tenderers has been undertaken as stated **in the TDS**, only Tenders from pre-qualified Tenderers shall be considered for award of Contract. These qualified Tenderers should submit with their Tenders any information updating their original pre-qualification applications or, alternatively, confirm in their Tenders that the originally submitted pre-qualification information remains essentially correct as of the date of Tender submission.
- 17.2 Tenderers shall be asked to provide, as part of the data for qualification, such information, including details of ownership, as shall be required to determine whether, according to the classification established by the Procuring Entity, a particular contractor or group of contractors qualifies for a margin of preference. Further the information will enable the Procuring Entity identify any actual or potential conflict of interest in relation to the procurement and/or contract management processes, or a possibility of collusion between tenderers, and thereby help to prevent any corrupt influence in relation to the procurement process or contract management.
- 17.3 The purpose of the information described in ITT 15.1 above overrides any claims to confidentiality which a tenderer may have. There can be no circumstances in which it would be justified for a tenderer to keep information relating to its ownership and control confidential where it is tendering to undertake public sector work and receive public sector funds. Thus, confidentiality will not be accepted by the Procuring Entity as a justification for a Tenderer's failure to disclose, or failure to provide required information on its ownership and control.
- 17.4 The Tenderer shall provide further documentary proof, information or authorizations that the Procuring Entity may request in relation to ownership and control, any changes to the information which was provided by the tenderer under ITT 6.3. The obligations to require this information shall continue for the duration of the procurement process and contract performance and after completion of the contract, if any change to the information previously provided may reveal a conflict of interest in relation to the award or management of the contract.
- 17.5 All information provided by the tenderer pursuant to these requirements must be complete, current and accurate as at the date of provision to the Procuring Entity. In submitting the information required pursuant to these requirements, the Tenderer shall warrant that the information submitted is complete, current and accurate as at the date of submission to the Procuring Entity.
- 17.6 If a tenderer fails to submit the information required by these requirements, its tenderer will be rejected. Similarly, if the Procuring Entity is unable, after taking reasonable steps, to verify to a reasonable degree the information submitted by a tenderer pursuant to these requirements, then the tender will be rejected.
- 17.7 If information submitted by a tenderer pursuant to these requirements, or obtained by the Procuring Entity (whether through its own enquiries, through notification by the public or otherwise), shows any conflict of interest which could materially and improperly benefit the tenderer in relation to the procurement or contract management process, then:
- If the procurement process is still ongoing, the tenderer will be disqualified from the procurement process,
 - If the contract has been awarded to that tenderer, the contract award will be set aside,
 - the tenderer will be referred to the relevant law enforcement authorities for investigation of whether the tenderer or any other persons have committed any criminal offence.
- 17.8 If a tenderer submits information pursuant to these requirements that is in complete, inaccurate or out-of-date, or attempts to obstruct the verification process, then the consequences ITT 6.7 will ensue unless the tenderer can show to the reasonable satisfaction of the Procuring Entity that any such act was not material, or was due to genuine error which was not attributable to the intentional act, negligence or recklessness of the tenderer.

18 Documents Establishing Conformity of the Information System

- 18.1 Pursuant to ITT 11.1(h), the Tenderer shall furnish, as part of its Tender documents establishing the conformity to the tendering documents of the Information System that the Tenderer proposes to design, supply and install under the Contract.

- 18.2 The documentary evidence of conformity of the Information System to the tendering documents including:
- a) Preliminary Project Plan describing, among other things, the methods by which the Tenderer will carry out its overall management and coordination responsibilities if awarded the Contract, and the human and other resources the Tenderer proposes to use. The Preliminary Project Plan must also address any other topics **specified in the TDS**. In addition, the Preliminary Project Plan should state the Tenderer's assessment of what it expects the Procuring Entity and any other party involved in the implementation of the Information System to provide during implementation and how the Tenderer proposes to coordinate the activities of all involved parties;
 - b) Written confirmation that the Tenderer accepts responsibility for the successful integration and interoperability of all components of the Information System as required by the tendering documents;
 - c) An item-by-item commentary on the Procuring Entity's Technical Requirements, demonstrating the substantial responsiveness of the Information System offered to those requirements. In demonstrating responsiveness, the Tenderer is encouraged to use the Technical Responsiveness Checklist (or Checklist Format) in the Sample Tendering Forms (Section IV). The commentary shall include explicit cross-references to the relevant pages in the supporting materials included in the tender. Whenever a discrepancy arises between the item-by-item commentary and any catalogs, technical specifications, or other preprinted materials submitted with the tender, the item-by-item commentary shall prevail;
 - d) Support material (e.g., product literature, white papers, narrative descriptions of technologies and/or technical approaches), as required and appropriate; and
 - e) Any separate and enforceable contract(s) for Recurrent Cost items which the TDS ITT 17.2 required Tenderers to tender.
- 18.3 References to brand names or model numbers or national or proprietary standards designated by the Procuring Entity in the tendering documents are intended to be descriptive and not restrictive. Except where explicitly prohibited in the **TDS** for specific items or standards, the Tenderer may substitute alternative brand /model names or standards in its tender, provided that it demonstrates to the Procuring Entity's satisfaction that the use of the substitute(s) will result in the Information System being able to perform substantially equivalent to or better than that specified in the Technical Requirements.
- 18.4 For major items of the Information System as listed by the Procuring Entity in Section III, Evaluation and Qualification Criteria, which the Tenderer intends to purchase or subcontract, the Tenderer shall give details of the name and nationality of the proposed subcontractors, including manufacturers, for each of those items. In addition, the Tenderer shall include in its Tender information establishing compliance with the requirements specified by the Procuring Entity for these items. Quoted rates and prices will be deemed to apply to whichever subcontractor is appointed, and no adjustment of the rates and prices will be permitted.
- 18.5 The Tenderer shall be responsible for ensuring that any subcontractor proposed complies with the requirements of ITT 4, and that any goods or services to be provided by the subcontractor comply with the requirements of ITT 5 and ITT 16.1.

19 Tender Prices

- 19.1 All Goods and Services identified in the Supply and Installation Cost Sub-Tables in System Inventory Tables in Section VII, and all other Goods and Services proposed by the Tenderer to fulfill the requirements of the Information System, must be priced separately and summarized in the corresponding cost tables in the Sample Tendering Forms (Section IV), in accordance with the instructions provided in the tables and in the manner specified below.
- 19.2 **Unless otherwise specified in the TDS**, the Tenderer must also tender Recurrent Cost Items specified in the Technical Requirements, Recurrent Cost Sub-Table of the System Inventory Tables in Section VII (if any). These must be priced separately and summarized in the corresponding cost table in the Sample Tendering Forms (Section IV), in accordance with the instructions provided in the tables and in the manner specified below:
- a) **If specified in the TDS**, the Tenderer must also tender separate enforceable contracts for the Recurrent Cost Items not included in the main Contract;
 - b) prices for Recurrent Costs are all-inclusive of the costs of necessary Goods such as spare parts, software license renewals, labor, etc., needed for the continued and proper operation of the Information System and, if appropriate, of the Tenderer's own allowance for price increases;
 - c) prices for Recurrent Costs beyond the scope of warranty services to be incurred during the Warranty Period, defined in GCC Clause 29.4 and prices for Recurrent Costs to be incurred during the Post-Warranty Period, defined in SCC Clause 1.1. (e) (xiii), shall be quoted as Service prices on the Recurrent Cost Sub-Table in detail, and on the Recurrent Cost Summary Table in currency totals.

- 19.3 Unit prices must be quoted at a level of detail appropriate for calculation of any partial deliveries or partial payments under the contract, in accordance with the Implementation Schedule in Section VII), and with GCC and SCC Clause 12 – Terms of Payment. Tenderers may be required to provide a breakdown of any composite or lump-sum items included in the Cost Tables
- 19.4 The price of items that the Tenderer has left blank in the cost tables provided in the Sample Tender Forms (Section IV) shall be assumed to be included in the price of other items. Items omitted altogether from the cost tables shall be assumed to be omitted from the tender and, provided that the tender is substantially responsive, an adjustment to the tender price will be made during tender evaluation in accordance with ITT 31.3.
- 19.5 The prices for Goods components of the Information System are to be expressed and shall be defined and governed in accordance with the rules prescribed in the edition of incoterms **specified in the TDS**, as follows:
- a) Goods supplied from outside Kenya:
Unless otherwise specified in the TDS, the prices shall be quoted on a CIP (named place of destination) basis, exclusive of all taxes, stamps, duties, levies, and fees imposed in Kenya. The named place of destination and special instructions for the contract of carriage are as specified in the SCC for GCC 1.1(e) (iii). In quoting the price, the Tenderer shall be free to use transportation through carriers registered in any eligible countries. Similarly, the Tenderer may obtain insurance services from any eligible source country;
 - b) Locally supplied Goods: Unit prices of Goods offered from within Kenya, shall be quoted on an EXW (ex- factory, ex works, ex ware house or off- the-shelf, as applicable) basis, including all customs duties, levies, fees, sales and other taxes incurred until delivery of the Goods, but excluding all VAT or sales and other taxes and duties/fees incurred for the Goods at the time of invoicing or sales transaction, if the Contract is awarded; and
 - c) Inland transportation.
- 19.6 Unless otherwise stated in the **TDS**, inland transportation, insurance and related local costs incidental to the delivery of the Goods to the designated Project Sites must be quoted separately as a Service item in accordance with ITT 17.5, whether the Goods are to be supplied locally or from outside Kenya, except when these costs are already included in the price of the Goods, as is, e.g., the case, when ITT 17.5 (a) specifies CIP, and the named places of destination are the Project Sites.
- 19.7 The price of Services shall be separated into their local and foreign currency components and where appropriate, broken down into unit prices. Prices must include all taxes, duties, levies and fees whatsoever, except only VAT or other indirect taxes, or stamp duties, that may be assessed and/ or apply in Kenyan /to the price of the Services invoiced to the Procuring Entity, if the Contract is awarded.
- 19.8 Unless otherwise specified in the **TDS**, the prices must include all costs incidental to the performance of the Services, as incurred by the Supplier, such as travel, subsistence, office support, communications, translation, printing of materials, etc. Costs incidental to the delivery of the Services but incurred by the Procuring Entity or its staff, or by third parties, must be included in the price only to the extent such obligations are made explicit in these tendering documents (as, e.g., a requirement for the Tenderer to include the travel and subsistence costs of trainees).
- 19.9 Unless otherwise specified in the **TDS**, prices quoted by the Tenderer shall be fixed during the Tenderer's performance of the Contract and not subject to increases on any account. Tenders submitted that are subject to price adjustment will be rejected.

20 Currencies of Tender and Payment

- 20.1 The currency(ies) of the Tender and currencies of payment shall be the same. The Tenderer shall quote in Kenya shillings the portion of the Tender price that corresponds to expenditures incurred in Kenya currency, unless otherwise specified **in the TDS**.
- 20.2 The Tenderer may express the Tender price in any currency. If the Tenderer wishes to be paid in a combination of amounts in different currencies, it may quote its price accordingly but shall use no more than **two foreign currencies** in addition to Kenyan currency

21 Period of Validity of Tenders

- 21.1 Tenders shall remain valid for the period specified **in the TDS** after the Tender submission deadline date prescribed by the Procuring Entity in accordance with ITT 23.1. A Tender valid for a shorter period shall be rejected by the Procuring Entity as non-responsive.
- 21.2 Exceptional circumstances, prior to the expiration of the Tender validity period, the Procuring Entity may request Tenderers to extend the period of validity of their Tenders. The request and the responses shall be made in writing. If a Tender Security is requested in accordance with ITT 20.1, it shall also be extended for thirty days (30) beyond the deadline of the extended validity period. A Tenderer may refuse the request without forfeiting its Tender Security. A Tenderer granting the request shall not be required or permitted to modify its Tender, except as provided in ITT 19.3.

22 Tender Security

- 22.1 The Tenderer shall furnish as part of its Tender, either a Tender-Securing Declaration or a Tender Security as specified **in the TDS**, in original form and, in the case of a Tender Security, in the amount and currency specified **in the TDS**.
- 22.2 A Tender-Securing Declaration shall use the form included in Section IV, Tendering Forms.
- 22.3 If a Tender Security is specified pursuant to ITT 20.1, the tender security shall be a demand guarantee in any of the following forms at the Tenderer's option:
- cash;
 - a bank guarantee;
 - a guarantee by an insurance company registered and licensed by the Insurance Regulatory Authority listed by the Authority; or
 - a guarantee issued by a financial institution approved and licensed by the Central Bank of Kenya,
 - any other form specified in the **TDS**.

If an unconditional guarantee is issued by a non-bank financial institution located outside Kenya, the issuing non-bank financial institution shall have a correspondent financial institution located in Kenya to make it enforceable unless the Procuring Entity has agreed in writing, prior to Tender submission, that a correspondent financial institution is not required.

- 22.4 In the case of a bank guarantee, the Tender Security shall be submitted either using the Tender Security Form included in Section IV, Tendering Forms or in another substantially similar format approved by the Procuring Entity prior to Tender submission. In neither case, the form must include the complete name of the Tenderer. The Tender Security shall be valid for thirty days (30) beyond the original validity period of the Tender, or beyond any period of extension if requested under ITT 19.2.
- 22.5 If a Tender Security or a Tender-Securing Declaration is specified pursuant to ITT 20.1, any Tender not accompanied by a substantially responsive Tender Security or Tender-Securing Declaration shall be rejected by the Procuring Entity as non-responsive.
- 22.6 The Tender Security shall be returned/release as promptly as possible
- The procurement proceedings are terminated;
 - The procuring entity determines that none of the submitted tenders is responsive;
 - A bidder declines to extend the tender validity.
 - Once the successful Tenderer has signed the Contract and furnished the required Performance Security.
- 22.7 The Tender Security may be forfeited or the Tender-Securing Declaration executed:
- if a Tenderer withdraws its Tender during the period of Tender validity specified by the Tenderer on the Form of Tender; or
 - if the successful Tenderer fails to:
 - sign the Contract in accordance with ITT 47; or
 - furnish a performance security in accordance with ITT 48.
- 22.8 Where the Tender-Securing Declaration is executed the Procuring Entity will recommend to the PPRA to debar the Tenderer from participating in public procurement as provided in the law.

- 22.9 The Tender Security or the Tender-Securing Declaration of a JV shall be in the name of the JV that submits the tender. If the JV has not been legally constituted in to a legally enforceable JV at the time of Tendering, the Tender Security or the Tender-Securing Declaration shall be in the names of all future members as named in the Form of intent referred to in ITT 4.1 and ITT 11.2.
- 22.10 A tenderer shall not issue a tender security to guarantee itself.

23 Format and Signing of Tender

- 23.1 The Tenderer shall prepare one original of the documents comprising the Tender as described in ITT 11 and clearly mark it "ORIGINAL." Alternative Tenders, if permitted in accordance with ITT 13, shall be clearly marked "ALTERNATIVE". In addition, the Tenderer shall submit copies of the Tender, in the number specified **in the TDS** and clearly mark them "COPY." In the event of any discrepancy between the original and the copies, the original shall prevail.
- 23.2 Tenderers shall mark as "CONFIDENTIAL" information in their Tenders which is confidential to their business. This may include proprietary information, trade secrets, or commercial or financially sensitive information.
- 23.3 The original and all copies of the Tender shall be typed or written in indelible ink and shall be signed by a person duly authorized to sign on behalf of the Tenderer. This authorization shall consist of a written confirmation as specified **in the TDS** and shall be attached to the Tender. The name and position held by each person signing the authorization must be typed or printed below the signature. All pages of the Tender where entries or amendments have been made shall be signed or initialed by the person signing the Tender.
- 23.4 In case the Tenderer is a JV, the Tender shall be signed by an authorized representative of the JV on behalf of the JV, and so as to be legally binding on all the members as evidenced by a power of attorney signed by their legally authorized representatives.
- 23.5 Any interlineations, erasures, or overwriting shall be valid only if they are signed or initialed by the person signing the Tender.

D. SUBMISSION AND OPENING OF TENDERS

24 Submission, Sealing and Marking of Tenders

- 24.1 The Tenderer shall deliver the Tender in a single, sealed envelope (one (1) envelope process). Within the single envelope the Tenderer shall place the following separate, sealed envelopes:
- a) In an envelope marked "ORIGINAL", all documents comprising the Tender, as described in ITT 11; and
 - b) In an envelope marked "COPIES", all required copies of the Tender; and,
 - c) If alternative Tenders are permitted in accordance with ITT 13, and if relevant:
 - i) In an envelope marked "ORIGINAL-ALTERNATIVE TENDER", the alternative Tender; and
 - ii) in the envelope marked "COPIES – ALTERNATIVE TENDER" all required copies of the alternative Tender.
- 24.2 The inner envelopes shall:
- a) Bear the name and address of the Tenderer;
 - b) Be addressed to the Procuring Entity/ Employer in accordance with ITT 23.1;
 - c) Bear the specific identification of this Tendering process specified in accordance with ITT 1.1; and
 - d) Bear a warning not to open before the time and date for Tender opening.

The outer envelopes shall:

- e) Be addressed to the Procuring Entity/ Employer in accordance with ITT 23.1;
 - f) Bear the specific identification of this Tendering process specified in accordance with ITT 1.1; and bear a warning not to open before the time and date for Tender opening.
- 24.3 If all envelopes are not sealed and marked as required, the Procuring Entity will assume no responsibility for the misplacement or premature opening of the Tender. Tenders that are misplaced or opened prematurely will not be accepted.

25 Deadline for Submission of Tenders

- 25.1 Tenders must be received by the Procuring Entity at the address and no later than the date and time indicated **in the TDS**. When so specified **in the TDS**, Tenderers shall have the option of submitting their Tenders electronically. Tenderers submitting Tenders electronically shall follow the electronic Tender submission procedures specified **in the TDS**.
- 25.2 The Procuring Entity may, at its discretion, extend this deadline for submission of Tenders by amending the tendering documents in accordance with ITT 8, in which case all rights and obligations of the Procuring Entity and Tenderers will thereafter be subject to the deadline as extended.

26 Late Tenders

- 26.1 The Procuring Entity shall not consider any Tender that arrives after the deadline for submission of Tenders, in accordance with ITT 23. Any Tender received by the Procuring Entity after the deadline for submission of Tenders shall be declared late, rejected, and returned unopened to the Tenderer.

27 Withdrawal, Substitution, and Modification of Tenders

- 27.1 A Tenderer may withdraw, substitute, or modify its Tender after it has been submitted by sending a written notice, duly signed by an authorized representative, and shall include a copy of the authorization in accordance with ITT 21.3, (except that withdrawal notices do not require copies). The corresponding substitution or modification of the Tender must accompany the respective written notice. All notices must be:
- a) prepared and submitted in accordance with ITT 21 and ITT 22 (except that withdrawals notices do not require copies), and in addition, the respective envelopes shall be clearly marked “WITHDRAWAL,” “SUBSTITUTION,” “MODIFICATION;” and
 - b) received by the Procuring Entity prior to the deadline prescribed for submission of Tenders, in accordance with ITT23.
- 27.2 Tenders requested to be withdrawn in accordance with ITT 25.1 shall be returned unopened to the Tenderers.
- 27.3 No Tender may be withdrawn, substituted, or modified in the interval between the deadline for submission of Tender and the expiration of the period of Tender validity specified by the Tenderer on the Form of Tender or any extension thereof.

28 Tender Opening

- 28.1 Except as in the cases specified in ITT 24 and ITT 25.2, the Procuring Entity shall conduct the Tender opening in public, in the presence of Tenderers’ designated representatives who chooses to attend, and at the address, date and time specified **in the TDS**. Any specific electronic Tender opening procedures required if electronic tendering is permitted in accordance with ITT 23.1, shall be as specified **in the TDS**.
- 28.2 First, envelopes marked “WITHDRAWAL” shall be opened and read out and the envelopes with the corresponding Tender shall not be opened but returned to the Tenderer. No Tender withdrawal shall be permitted unless the corresponding withdrawal notice contains a valid authorization to request the withdrawal and is read out at Tender opening.
- 28.3 Next, envelopes marked “SUBSTITUTION” shall be opened and read out and exchanged with the corresponding Tender being substituted, and the substituted Tender shall not be opened, but returned to the Tenderer. No Tender substitution shall be permitted unless the corresponding substitution notice contains a valid authorization to request the substitution and is read out at Tender opening.
- 28.4 Envelopes marked “Modification” shall be opened and read out with the corresponding Tender. No Tender modification shall be permitted unless the corresponding modification notice contains a valid authorization to request the modification and is read out at Tender opening. Only Tenders that are opened and read out at Tender opening shall be considered further.
- 28.5 Next, all remaining envelopes shall be opened one at a time, reading out: the name of the Tenderer and the Tender Price(s), including any discounts and alternative Tenders, and indicating whether there is a modification; the presence or absence of a Tender Security or Tender-Securing Declaration; and any other details as the Procuring Entity may consider appropriate.

- 28.6 Only Tenders, alternative Tenders and discounts that are opened and read out at Tender opening shall be considered further in the evaluation. The Form of Tender and the Price Schedules are to be initialed by representatives of the Procuring Entity attending Tender opening in the manner specified in the TDS.
- 28.7 The Procuring Entity shall neither discuss the merits of any Tender nor reject any Tender (except for late Tenders, in accordance with ITT 24.1).
- 28.8 The Procuring Entity shall prepare a record of the Tender opening that shall include, as a minimum:
- a) The name of the Tenderer and whether there is a withdrawal, substitution, or modification;
 - b) The Tender Price, per lot if applicable, including any discounts;
 - c) Any alternative Tenders; and
 - d) The presence or absence of a Tender Security or a Tender-Securing Declaration.
- 28.9 The Tenderers' representatives who are present shall be requested to sign the minutes. The omission of a Tenderer's signature on the minutes shall not invalidate the contents and effect of the minutes. A copy of the tender opening register shall be distributed to all Tenderers upon request.

E. Evaluation and Comparison of Tenders

29 Confidentiality

- 29.1 Information relating to the evaluation of Tenders and recommendation of contract award, shall not be disclosed to Tenderers or any other persons not officially concerned with the Tendering process until the Notification of Intention to Award the Contract is transmitted to all Tenderers in accordance with ITT 42.
- 29.2 Any effort by a Tenderer to influence the Procuring Entity in the evaluation of the Tenders or Contract award decisions may result in the rejection of its Tender.
- 29.3 Notwithstanding ITT 27.2, from the time of Tender opening to the time of Contract award, if any Tenderer wishes to contact the Procuring Entity on any matter related to the Tendering process, it should do so in writing.

30 Clarification of Tenders

- 30.1 To assist in the examination, evaluation, and comparison of the Tenders, and qualification of the Tenderers, the Procuring Entity may, at its discretion, ask any Tenderer for a clarification of its Tender. Any clarification submitted by a Tenderer that is not in response to a request by the Procuring Entity shall not be considered. The Procuring Entity's request for clarification and the response shall be in writing. No change in the prices or substance of the Tender shall be sought, offered, or permitted, except to confirm the correction of arithmetic errors discovered by the Procuring Entity in the evaluation of the Tenders, in accordance with ITT 32.
- 30.2 If a Tenderer does not provide clarifications of its Tender by the date and time set in the Procuring Entity's request for clarification, its Tender may be rejected.

31 Deviations, Reservations, and Omissions

- 31.1 During the evaluation of Tenders, the following definitions apply:
- a) "Deviation" is a departure from the requirements specified in the tendering document;
 - b) "Reservation" is the setting of limiting conditions or withholding from complete acceptance of the requirements specified in the tendering document; and
 - c) "Omission" is the failure to submit part or all of the information or documentation required in the tendering document.

32 Determination of Responsiveness

- 32.1 The Procuring Entity's determination of a Tender's responsiveness is to be based on the contents of the Tender itself, as defined in ITT 11.
- 32.2 A substantially responsive Tender is one that meets the requirements of the tendering document without

material deviation, reservation, or omission. A material deviation, reservation, or omission is one that;

- a) If accepted, would:
 - i) Affect in any substantial way the scope, quality, or performance of the Information System specified in the Contract; or
 - ii) Limit in any substantial way, in consistent with the tendering document, the Procuring Entity's rights or the Tenderer's obligations under the proposed Contract; or
- b) if rectified, would unfairly affect the competitive position of other Tenderers presenting substantially responsive Tenders.

32.3 The Procuring Entity shall examine the technical aspects of the Tender in particular, to confirm that all requirements of Section V, Procuring Entity's Requirements have been met without any material deviation, reservation, or omission.

32.4 To be considered for Contract award, Tenderers must have submitted Tenders:

- a) for which detailed Tender evaluation using the same standards for compliance determination as listed in
- b) ITT 29 and ITT 30.3 confirms that the Tenders are commercially and technically responsive, and include the hardware, Software, related equipment, products, Materials, and other Goods and Services components of the Information System in substantially the full required quantities for the entire Information System or, if allowed in the TDS ITT 35.8, the individual Subsystem, lot or slice Tender on; and are deemed by the Procuring Entity as commercially and technically responsive; and
- c) that offer Information Technologies that are proven to perform up to the standards promised in the tender by having successfully passed the performance, benchmark, and/or functionality tests the Procuring Entity may require, pursuant to ITT 39.3.

33 Non-material Non-conformities

33.1 Provided that a Tender is substantially responsive, the Procuring Entity may waive any nonconformity in the Tender that does not constitute a material deviation, reservation or omission.

33.2 Provided that a Tender is substantially responsive, the Procuring Entity may request that the Tenderer submit the necessary information or documentation, within a reasonable period of time, to rectify nonmaterial non-conformities in the Tender related to documentation requirements. Requesting information or documentation on such non-conformities shall not be related to any aspect of the price of the Tender. Failure of the Tenderer to comply with the request may result in the rejection of its Tender.

33.3 Provided that a Tender is substantially responsive, the Procuring Entity shall rectify quantifiable nonmaterial non-conformities related to the Tender Price. To this effect, the Tender Price shall be adjusted, for comparison purposes only, to reflect the price of a missing or non-conforming item or component in the manner specified **in the TDS**.

34 Correction of Arithmetical Errors

34.1 The tender sum as submitted and read out during the tender opening shall be absolute and final and shall not be the subject of correction, adjustment or amendment in anyway by any person or entity.

34.2 Provided that the Tender is substantially responsive, the Procuring Entity shall handle errors on the following basis:

- a) Any error detected if considered a major deviation that affects the substance of the tender, shall lead to disqualification of the tender as non-responsive.
- b) Any errors in the submitted tender arising from a miscalculation of unit price, quantity, sub-total and total bid price shall be considered as a major deviation that affects the substance of the tender and shall lead to disqualification of the tender as non-responsive. and
- c) If there is a discrepancy between words and figures, the amount in words shall prevail, unless the amount expressed in words is related to an arithmetic error, in which case the amount in figures shall prevail.

35 Conversion to Single Currency

- 35.1 For evaluation and comparison purposes, the currency (ies) of the Tender shall be converted into a single currency as specified **in the TDS**.

36 Margin of Preference and Reservations

- 36.1 A margin of preference on local contractors may be allowed only when the contract is open to international competitive tendering where foreign contractors are expected to participate in the tendering process and where the contract exceeds the value/ threshold specified in the Regulations.
- 36.2 A margin of preference shall not be allowed unless it is specified so in the **TDS**.
- 36.3 Contracts procured on basis of international competitive tendering shall not be subject to reservations exclusive to specific groups as provided in ITT 34.4.
- 36.4 Where it is intended to reserve a contract to a specific group of businesses (these groups are Small and Medium Enterprises, Women Enterprises, Youth Enterprises and Enterprises of persons living with disability, as the case maybe), and who are appropriately registered as such by the authority to be specified in the **TDS**, a procuring entity shall ensure that the invitation to tender specifically indicates in the **TDS** that only businesses or firms belonging to the specified group are eligible to tender.
- 36.5 No tender shall be reserved to more than one group. If not so stated in the Invitation to Tender and in the Tender documents, the invitation to tender will be open to all interested tenderers.

37 Evaluation of Tenders

- 37.1 The Procuring Entity shall use the criteria and methodologies listed in this ITT and Section III, Evaluation and Qualification criteria. No other evaluation criteria or methodologies shall be permitted. By applying the criteria and methodologies the Procuring Entity shall determine the Best Evaluated Tender.
- 37.2 To evaluate a Tender, the Procuring Entity shall consider the following:
- a) Price adjustment due to discounts offered in accordance with ITT 14.4;
 - b) converting the amount resulting from applying (a) and (b) above, if relevant, to a single currency in accordance with ITT 33;
 - c) price adjustment due to quantifiable non material non-conformities in accordance with ITT 31.3; and
 - d) any additional evaluation factors specified **in the TDS** and Section III, Evaluation and Qualification Criteria.

38 Preliminary Examination

- 38.1 The Procuring Entity will examine the tenders, to determine whether they have been properly signed, whether required sureties have been furnished, whether any computational errors have been made, whether required sure ties have been furnished and are substantially complete (e.g., not missing key parts of the tender or silent on excessively large portions of the Technical Requirements). In the case where a pre-qualification process was undertaken for the Contract (s) for which these tendering documents have been issued, the Procuring Entity will ensure that each tender is from a pre-qualified Tenderer and, in the case of a Joint Venture, that partners and structure of the Joint Venture are unchanged from those in the pre-qualification.

39 Technical Evaluation

- 39.1 The Procuring Entity will examine the information supplied by the Tenderers Pursuant to ITT 11 and ITT 16, and in response to other requirements in the Tendering document, considering the following factors:
- a) Overall completeness and compliance with the Technical Requirements; and deviations from the Technical Requirements;
 - b) suitability of the Information System offered in relation to the conditions prevailing at the site; and the suitability of the implementation and other services proposed, as described in the Preliminary Project Plan included in the tender;
 - c) achievement of specified performance criteria by the Information System;

- d) compliance with the time schedule called for by the Implementation Schedule and any alternative time schedules offered by Tenderers, as evidenced by a milestone schedule provided in the Preliminary Project Plan included in the tender;
- e) type, quantity, quality, and long-term availability of maintenance services and of any critical consumable items necessary for the operation of the Information System;
- f) any other relevant technical factors that the Procuring Entity deems necessary or prudent to take into consideration;
- g) any proposed deviations in the tender to the contractual and technical provisions stipulated in the tendering documents.

39.2 The Procuring Entity's evaluation of tenders will consider technical factors, in addition to cost factors. The Technical Evaluation will be conducted following the Criteria specified in Section III, Evaluation and Qualification Criteria, which permits a comprehensive assessment of the technical merits of each Tender. All tenders that fail to pass this evaluation will be considered non-responsive and will not be evaluated further.

39.3 Where alternative technical solutions have been allowed in accordance with ITT 13, and offered by the Tenderer, the Procuring Entity will make a similar evaluation of the alternatives. Where alternatives have not been allowed but have been offered, they shall be ignored.

39.4 Where the tender involves multiple lots or contracts, the tenderer will be allowed to tender for one or more lots (contracts). Each lot or contract will be evaluated in accordance with ITT 35.2. The methodology to

39.5 determine the lowest evaluated tenderer or tenderers based one lot (contract) or based on a combination of lots (contracts), will be specified in Section III, Evaluation and Qualification Criteria. In the case of multiple lots or contracts, tenderer will be will be required to prepare the Eligibility and Qualification Criteria Form for each Lot.

40 Financial/ Economic Evaluation

40.1 To evaluate a Tender, the Procuring Entity shall consider the following:

- a) price adjustment due to unconditional discounts offered in accordance with ITT 26.8; excluding provisional sums and contingencies, if any, but including Day work items, where priced competitively.
- b) Price adjustment due to quantifiable non material non-conformities in accordance with ITT 31.3;
- c) converting the amount resulting from applying (a) to (c) above, if relevant, to a single currency in accordance with ITT 33; and
- d) the evaluation factors indicated in Section III, Evaluation and Qualification Criteria.

If price adjustment is allowed in accordance with ITT 17.9, the estimated effect of the price adjustment provisions of the Conditions of Contract, applied over the period of execution of the Contract, shall not be considered in Tender evaluation.

40.2 The Procuring Entity will evaluate and compare the Tenders that have been determined to be substantially responsive, pursuant to ITT 35.4. The evaluation will be performed assuming either that:

- a) The Contract will be awarded to the Lowest Evaluated Tender for the entire Information System; or
- b) if specified **in the TDS**, Contracts will be awarded to the Tenderers for each individual Subsystem, lot, or slice if so defined in the Technical Requirements whose Tenders result in the Lowest Evaluated Tender/ Tenders for the entire System.

In the latter case, discounts that are conditional on the award of more than one Subsystem, lot, or slice may be offered in Tenders. Such discounts will be considered in the evaluation of tenders as specified **in the TDS**.

40 Comparison of Tenders

40.1 The Procuring Entity shall compare all substantially responsive Tenders in accordance with ITT 35.6 to determine the lowest evaluated cost.

41 Abnormally Low Tenders and Abnormally High Tenders

41.1 An Abnormally Low Tender is one where the Tender price in combination with other constituent elements of the Tender appears unreasonably low to the extent that the Tender price raises material concerns as to the capability of the Tenderer to perform the Contract for the offered Tender Price or that genuine competition between Tenderers is compromised.

- 41.2 In the event of identification of a potentially Abnormally Low Tender, the Procuring Entity shall seek written clarifications from the Tenderer, including detailed price analyses of its Tender price in relation to the subject matter of the contract, scope, proposed methodology, schedule, allocation of risks and responsibilities and any other requirements of the tendering document.
- 41.3 After evaluation of the price analyses, in the event that the Procuring Entity determines that the Tenderer has failed to demonstrate its capability to perform the Contract for the offered Tender Price, the Procuring Entity shall reject the Tender.

Abnormally High Tenders

- 41.4 An abnormally high tender price is one where the tender price, in combination with other constituent elements of the Tender, appears unreasonably too high to the extent that the Procuring Entity is concerned that it (the Procuring Entity) may not be getting value for money or it may be paying too high a price for the contract compared with market prices or that genuine competition between Tenderers is compromised.
- 41.5 In case of an abnormally high price, the Procuring Entity shall make a survey of the market prices, check if the estimated cost of the contract is correct and review the Tender Documents to check if the specifications, scope of work and conditions of contract are contributory to the abnormally high tenders. The Procuring Entity may also seek written clarification from the tenderer on the reason for the high tender price. The Procuring Entity shall proceed as follows:
- a. If the tender price is abnormally high based on wrong estimated cost of the contract, the Procuring Entity may accept or not accept the tender depending on the Procuring Entity's budget considerations.
 - b. If specifications, scope of work and/ or conditions of contract are contributory to the abnormally high tender prices, the Procuring Entity shall reject all tenders and may retender for the contract based on revised estimates, specifications, scope of work and conditions of contract, as the case may be.
- 41.6 If the Procuring Entity determines that the Tender Price is abnormally too high because genuine competition between tenderers is compromised (*often due to collusion, corruption or other manipulations*), the Procuring Entity shall reject all Tenders and shall institute or cause competent Government Agencies to institute an investigation on the cause of the compromise, before retendering.

42 Unbalanced or Front-Loaded Tenders

- 42.1 If the Tender that is evaluated as the lowest evaluated cost is, in the Procuring Entity's opinion, seriously unbalanced or front loaded the Procuring Entity may require the Tenderer to provide written clarifications. Clarifications may include detailed price analyses to demonstrate the consistency of the Tender prices with the scope of information systems, installations, proposed methodology, schedule and any other requirements of the tendering document.
- 42.2 After the evaluation of the information and detailed price analyses presented by the Tenderer, the Procuring Entity may: -
- a) Accept the Tender; or
 - b) If appropriate, require that the total amount of the Performance Security be increased, at the expense of the Tenderer, to a level not exceeding twenty percent (20%) of the Contract Price; or
 - c) Reject the Tender.

43 Eligibility and Qualification of the Tenderer

- 43.1 The Procuring Entity shall determine to its satisfaction whether the Tenderer that is selected as having submitted the lowest evaluated and substantially responsive Tender is eligible and meets the qualifying criteria specified in Section III, Evaluation and Qualification Criteria.
- 43.2 The determination shall be based upon an examination of the documentary evidence of the Tenderer's qualifications submitted by the Tenderer, pursuant to ITT 15.
- 43.3 Unless otherwise specified in the **TDS**, the Procuring Entity will NOT carry out tests at the time of post-qualification, to determine that the performance or functionality of the Information System offered meets those stated in the Technical Requirements. However, if so specified in the **TDS** the Procuring Entity may carry out such tests as detailed in the **TDS**.

- 43.4 An affirmative determination shall be a prerequisite for award of the Contract to the Tenderer. A negative determination shall result in disqualification of the Tender, in which event the Procuring Entity shall proceed to the next lowest evaluated cost or best evaluated Tender, as the case may be, to make a similar determination of that Tenderer's qualifications to perform satisfactorily.
- 43.5 The capabilities of the manufacturers and subcontractors proposed by the Tenderer that is determined to have offered the Best Evaluated Tender for identified major items of supply or services will also be evaluated for acceptability in accordance with Section III, Evaluation and Qualification Criteria. Their participation should be confirmed with a Form of intent between the parties, as needed. Should a manufacturer or subcontractor be determined to be unacceptable, the Tender will not be rejected, but the Tenderer will be required to substitute an acceptable manufacturer or subcontractor without any change to the Tender price. Prior to signing the Contract, the corresponding Appendix to the Contract Agreement shall be completed, listing the approved manufacturers or subcontractors for each item concerned.
- 43.6 Foreign tenderers are required to source at least forty (40%) percent of their contract inputs (in supplies, subcontracts and labor) from national suppliers and contractors. To this end, a foreign tenderer shall provide in its tender documentary evidence that this requirement is met. Foreign tenderers not meeting this criterion will be automatically disqualified. Information required to enable the Procuring Entity determine if this condition is met shall be provided in for this purpose is be provided in *"SECTION III- EVALUATION AND QUALIFICATION CRITERIA*.

44 Procuring Entity's Right to Accept Any Tender, and to Reject Any or All Tenders

- 44.1 The Procuring Entity reserves the right to accept or reject any tender, and to annul the Tendering process and reject all Tenders at any time prior to contract award, without there by incurring any liability to Tenderers. In case of annulment, all Tenders submitted and specifically, Tender securities, shall be promptly returned to the Tenderers.

F. AWARD OF CONTRACT

45 Award Criteria

- 45.1 Subject to ITT 40, the Procuring Entity shall award the Contract to the successful tenderer whose tender has been determined to be the Lowest/ best Evaluated Tender. The determination of the lowest/ Best Evaluated Tender will be made in accordance to one of the two options as defined in the **TDS**. The methodology options are:

The Procuring Entity shall award the Contract to the successful tenderer whose tender has been determined to be the Lowest Evaluated Tender

- a) When **rated criteria are used**: The Tenderer that meets the qualification criteria and whose Tender:
 - i) Is substantially responsive; and
 - ii) Is the Best Evaluated Tender (i.e. the Tender with the highest combined technical/ quality/ price score); or
- b) When **rated criteria are not used**: The Tenderer that meets the qualification criteria and whose Tender has been determined to be:
 - i) Most responsive to the tendering document; and
 - ii) The lowest evaluated cost.

46 Procuring Entity's Right to Vary Quantities at Time of Award

- 46.1 The Procuring Entity reserves the right at the time of Contract award to increase or decrease, by the percentage (s) for items as indicated **in the TDS**.

47 Notice of Intention to enter into a Contract/ Notification of award

- 47.1 Upon award of the contract and Prior to the expiry of the Tender Validity Period the Procuring Entity shall issue a Notification of Intention to Enter into a Contract/ Notification of award to all tenderers which shall contain, at a minimum, the following information:
- a) The name and address of the Tenderer submitting the successful tender;
 - b) The Contract price of the successful tender;
 - c) a statement of the reason(s) the tender of the unsuccessful tenderer to whom the letter is addressed was unsuccessful, unless the price information in (c) above already reveals the reason;

- d) the expiry date of the Standstill Period; and
- e) instructions on how to request a debriefing and/ or submit a complaint during the standstill period;

48 Standstill Period

- 48.1 The Contract shall not be signed earlier than the expiry of a Standstill Period of 14 days to allow any dissatisfied tender to launch a complaint. Where only one Tender is submitted, the Standstill Period shall not apply.
- 48.2 Where a Standstill Period applies, it shall commence when the Procuring Entity has transmitted to each Tenderer the Notification of Intention to Enter in to a Contract with the successful Tenderer.

49 Debriefing by the Procuring Entity

- 49.1 On receipt of the Procuring Entity's Notification of Intention to Enter into a Contract referred to in ITT 43, an unsuccessful tenderer may make a written request to the Procuring Entity for a debriefing on specific issues or concerns regarding their tender. The Procuring Entity shall provide the debriefing within five days of receipt of the request.
- 49.2 Debriefings of unsuccessful Tenderers may be done in writing or verbally. The Tenderer shall bear its own costs of attending such a debriefing meeting.

50 Letter of Award

- 50.1 Prior to the expiry of the Tender Validity Period and upon expiry of the Standstill Period specified in ITT44.1, upon addressing a complaint that has been filed within the Standstill Period, the Procuring Entity shall transmit the Letter of Award to the successful Tenderer. The letter of award shall request the successful tenderer to furnish the Performance Security within 21days of the date of the letter.

51 Signing of Contract

- 51.1 Upon the expiry of the fourteen days of the Notification of Intention to enter in to contract and upon the parties meeting their respective statutory requirements, the Procuring Entity shall send the successful Tenderer the Contract Agreement.
- 51.2 Within fourteen (14) days of receipt of the Contract Agreement, the successful Tenderer shall sign, date, and return it to the Procuring Entity.
- 51.3 The written contract shall be entered into within the period specified in the notification of award and before expiry of the tender validity period.
- 51.4 Notwithstanding ITT 47.2 above, in case signing of the Contract Agreement is prevented by any export restrictions attributable to the Procuring Entity, to Kenya, or to the use of the Information System to be supplied, where such export restrictions arise from trade regulations from a country supplying those Information System, the Tenderer shall not be bound by its Tender, provided that the Tenderer can demonstrate that signing of the Contract Agreement has not been prevented by any lack of diligence on the part of the Tenderer in completing any formalities, including applying for permits, authorizations and licenses necessary for the export of the Information System under the terms of the Contract.

52 Performance Security

- 52.1 Within twenty-one (21) days of the receipt of the Form of Acceptance from the Procuring Entity, the successful Tenderer shall furnish the performance security in accordance with the General Conditions, subject to ITT38.2 (b), using for that purpose the Performance Security Form included in Section X, Contract Forms, or another form acceptable to the Procuring Entity. If the Performance Security furnished by the successful Tenderer is in the form of a bond, it shall be issued by a bonding or insurance company that has been determined by the successful Tenderer to be acceptable to the Procuring Entity. A foreign institution providing a Performance Security shall have a correspondent financial institution located in Kenya.
- 52.2 Failure of the successful Tenderer to submit the above-mentioned Performance Security or sign the Contract shall constitute sufficient grounds for the annulment of the award and forfeiture of the Tender Security. In that event the Procuring Entity may award the Contract to the Tenderer offering the next Best Evaluated Tender.

54 Publication of Procurement Contract

Within fourteen days after signing the contract, the Procuring Entity shall publish the awarded contract at its notice boards and websites; and on the Website of the Authority. At the minimum, the notice shall contain the following information:

- a) Name and address of the Procuring Entity;
- b) Name and reference number of the contract being awarded, a summary of its scope and the selection method used;
- c) The name of the successful Tenderer, the final total contract price, the contract duration.
- d) Dates of signature, commencement and completion of contract;
- e) Names of all Tenderers that submitted Tenders, and their Tender prices as read out at Tender opening.

55. Adjudicator

- 55.1. Unless **the TDS** states otherwise, the Procuring Entity proposes that the person named **in the TDS** be appointed as Adjudicator under the Contract to assume the role of informal Contract dispute mediator, as described in GCC Clause 43.1. In this case, a résumé of the named person is attached to the TDS. The proposed hourly fee for the Adjudicator is specified in the TDS. The expenses that would be considered reimbursable to the Adjudicator are also specified **in the TDS**. If a Tenderer does not accept the Adjudicator proposed by the Procuring Entity, it should state its non-acceptance in its Tender Form and make a counter proposal of an Adjudicator and an hourly fee, attaching résumé of the alternative. If the successful Tenderer and the Adjudicator nominated **in the TDS** happen to be from the same country, and this is not Kenya too, the Procuring Entity reserves the right to cancel the Adjudicator nominated **in the TDS** and propose a new one. If by the day the Contract is signed, the Procuring Entity and the successful Tenderer have not agreed on the appointment of the Adjudicator, the Adjudicator shall be appointed, at the request of either party, by the Appointing Authority specified in the SCC clause relating to GCC Clause 43.1.4, or if no Appointing Authority is specified there, the Contract will be implemented without an Adjudicator.

56. Procurement Related Complaints

- 56.1 The procedures for making a Procurement-related Complaint are as specified in the **TDS**.

SECTION II - TENDER DATA SHEET (TDS)

The following specific data for the Information System to be procured shall complement, supplement, or amend the provisions in the Instructions to Tenderers (ITT). Whenever there is a conflict, the provisions here in shall prevail over those in ITT.

A. GENERAL	
ITT 1.1	The reference number of the Contract is: ICTA/OT/21/2021-2022 The Procuring Entity is: ICT AUTHORITY The name of the ITT is: SUPPLY, DELIVERY, INSTALLATION, TESTING AND COMMISSIONING OF AN ELECTRONIC DOCUMENT AND RECORD MANAGEMENT SYSTEM- READVERTISEMENT
ITT 3.2.1	The firms (if any) that provided consulting services for the contract being tendered for are: Not Applicable
ITT 4.1	Maximum number of members in the JV shall be: NOT APPLICABLE
ITT 4.1.8	The Procuring Entity may require tenderers to be registered with relevant authorities listed in the preliminary evaluation
B. CONTENTS OF TENDER DOCUMENT	
ITT 8.1	Pre-Tender meeting SHALL take place at the following date, time and place: N/A Date: N/A Time: N/A Place: N/A
ITT 8.2	Any questions in writing, to reach the Procuring Entity not later than 28th April. 2022
ITT 9.1	For Clarification of Tender purposes only, the Procuring Entity's address is: ICT Authority Att : Head, Supply Chain Management Telposta Towers, 12th Floor Kenyatta Avenue P.O Box 27150-00100 Nairobi, Kenya. Email: <u>procurement@ict.go.ke</u> Requests for clarification should be received by the Procuring Entity no later than: Wednesday 11th May 2022
ITT 9.1	The Procuring Entity shall publish its response at the website, web page: www.icta.go.ke and www.tenders.go.ke
C. Preparation of Tenders	
ITT 11.1 (k)	The Tenderer shall submit with its Tender the following additional documents: As provided in the preliminary evaluation criteria
ITT 15.1	Alternative Tenders ARE NOT permitted
ITT 13.2	Alternatives to the time schedule ARE NOT permitted.
ITT 13.4	Alternative technical solutions shall be permitted for the following parts of the Information System: NOT APPLICABLE
ITT 15.2	Prequalification has not been undertaken
ITT 18.2 (a)	In addition to the topics described in ITT Clause 18.2 (a), the Preliminary Project Plan must address the following topics: (i) Project Organization and Management Sub-plan, including management authorities, responsibilities and contacts as well as task, time and resource-bound schedules (in GANTT format); (ii) Implementation Sub-Plan (iii) Training Sub-Plan (iv) Testing and Quality Assurance Sub-Plan

	(v) Warranty Defect Repair and Technical Support Service Sub-Plan
ITT 18.3	In the interest of effective integration, cost-effective technical support and reduced re-training and staffing costs, Tenderers are required to offer specific brand names and models for the following limited number of specific items: Not Applicable
ITT 19.2	The Tenderer MUST tender for Recurrent Cost Items
ITT 19.2 (a)	The Tenderer MUST tender for contracts of Recurrent Cost Items not included in the main Contract
ITT 19.5	The Incoterms edition is: Not Applicable
ITT 19.6	Named place of final destination (or Project site) is: ICT AUTHORITY
ITT 19.8	There is no modification to ITT 19.8. All costs provided in this ITT must be quoted
ITT 19.9	The prices quoted by the Tenderer shall not be subject to adjustment during the performance of the Contract
ITT 20.1	The Tenderer is required to quote in the currency of Kenya the portion of the Tender price that corresponds to expenditures incurred in that currency
ITT 20.2	Tenderers shall quote in Kenya Shillings (KES)
ITT 21.1	The Tender validity period shall be 126 days
ITT 22.1	A Tender Security SHALL BE required The amount and currency of the Tender Security shall be Kenya Shillings Four Hundred Thousands, i.e. KES 400,000 in form a guarantee from an insurance company licensed by the Insurance Regulatory Authority and listed by the Public Procurement Regulatory Authority (PPRA) or bank licensed by the Central Bank of Kenya. The tender security shall be valid for 30 days beyond the tender validity period provided in this TDS
ITT 22.3 (v)	Other types of acceptable securities are Not Applicable
ITT 22.7	If the Tenderer incurs any of the actions prescribed in subparagraphs (a) or (b) of this provision, the Procuring Entity will declare the Tenderer ineligible to be awarded contracts by the Procuring Entity for a period as per the Public Procurement and Asset Disposal Act (PPADA 2015)
ITT 23.1	In addition to the original of the Tender, the number of copies is: one (1) hard & one(1) soft copy
ITT 23.3	The written confirmation of authorization to sign on behalf of the Tenderer shall consist of: Power of Attorney
D. Submission and Opening of Tenders	
ITT 24.1	(A) For <u>Tender submission purposes</u> only, the Procuring Entity's address is: The CEO,ICT Authority Telposta Towers, 12th Floor Boardroom Kenyatta Avenue Nairobi, Kenya Tenderers shall not submit tenders electronically. The Tender opening shall take place at the time and the address for Opening of Tenders Provided below: ICT Authority Telposta Towers, 12th Floor Boardroom Kenyatta Avenue Nairobi, Kenya. State date and time of tender opening. Wednesday 11th May, 2022 at 10.00 a.m. (East Africa Time)
ITT 25.1	Tenderers SHALL NOT have the option of submitting their Tenders electronically.
ITT 25.1	The Tender opening shall take place at the time and the address for Opening of Tenders Provided below: ICT Authority Telposta Towers, 12th Floor Boardroom Kenyatta Avenue P.O Box 27150-00100

	<p>Nairobi, Kenya.</p> <p>Date: Wednesday 11th May, 2022 at 10.00 a.m. (East Africa Time)</p>
ITT 28.1	The electronic tendering submission procedures have been specified below: NOT APPLICABLE
ITT 28.6	The Form of Tender and Price Schedules shall be initialed by at least three (3) representatives of the Procuring Entity conducting Tender opening
E. Evaluation and Comparison of tenders	
ITT 33.3	The adjustment shall be based on the average price of the item or component as quoted in other substantially responsive Tenders. If the price of the item or component cannot be derived from the price of other substantially responsive Tenders, the Procuring Entity shall use its best estimate. If the missing Goods and Services are a scored technical feature, the relevant score will be set at zero. This will apply for comparison purposes only.
ITT 35.1	The currency(ies) of the Tender shall be converted into a single currency as follows: Not Applicable
ITT 36.2	A margin of preference SHALL NOT apply.
ITT 36.4	Not Applicable
ITT 37.2 (a)	<p>Tenderers shall not be allowed to quote separate prices for different lots (contracts for subsystems, lots or slices of the overall Information system) and the methodology to determine the lowest tenderer is specified in Section III, Evaluation and Qualification Criteria. Discount that are conditional on the award of more than one Subsystem, lot or slice may be offered in Tenders and such discounts shall not be considered in the price evaluation</p> <p>ITT 37.2 above is NOT APPLICABLE</p>
ITT 39.2	<p>As additional qualification measures, the Information System (or components/parts of it) offered by the Tenderer with the Best Evaluated Tender may be subjected to the following tests and performance benchmarks prior to Contract award:</p> <p>a. Demonstration tests (as per the technical requirements)</p> <p>b Performance bench marks (as per the technical requirements)</p> <p>c Reference site visits (as per the technical requirements)</p>
ITT 40.2 (a)	The award will be made on the basis of rated criteria pursuant to ITT 40.2 in accordance with Section III, Evaluation and Qualification Criteria
ITT 46.1	ICTA may implement a change of scope if the successful bid is above the budget available taking into account the effect of the scope of change to the entire evaluation of the tender - Reg. 78 (4) (f) of the PPADR 2020
ITT 47.1	<p>The maximum percentage by which quantities may be increased is: 20% (for licenses)</p> <p>The maximum percentage by which quantities may be decreased is: 20% (for licenses)</p>
ITT 52.1	The performance security shall be denominated in Kenya Shillings or equivalent in a freely convertible currency for an amount equal to 10% of the contract price in form of a bank guarantee from a bank licensed by the Central Bank of Kenya
ITT 55.1	<p>The proposed Adjudicator is: There will be an Adjudicator that will be agreed upon by the Parties under this Contract.</p> <p>The proposed hourly fee is [to be agreed upon once an Adjudicator is selected]</p>
ITT 56.1	<p>The procedures for making a Procurement-related Complaint are detailed in the "Notice of Intention to Award the Contract" herein and are also available from the PPRA Website www.ppra.go.ke or email complaints@ppra.go.ke.</p> <p>If a Tenderer wishes to make a Procurement-related Complaint, the Tenderer should submit its complaint following these procedures, in writing (by the quickest means available, that is either by hand delivery or email to:</p> <p style="text-align: center;">The CEO, ICT Authority Telposta Towers, 12th Floor Boardroom Kenyatta Avenue</p> <p>In summary, a Procurement-related Complaint may challenge any of the following (among others):</p> <ul style="list-style-type: none"> (i) the terms of the Tender Documents; (ii) and the Procuring Entity's decision to award the contract.

SECTION III - EVALUATION AND QUALIFICATION CRITERIA

1. General Provision

- 1.1 Wherever a Tenderer is required to state a monetary amount, Tenderers should indicate the Kenya Shilling equivalent using the rate of exchange determined as follows:
- For construction turnover or financial data required for each year- Exchange rate prevailing on the last day of the respective calendar year (in which the amounts for that year are to be converted) was originally established.
 - Value of single contract- Exchange rate prevailing on the date of the contract signature.
 - Exchange rates shall be taken from the publicly available source identified in the ITT. Any error in determining the exchange rates in the Tender may be corrected by the Procuring Entity.
- 1.2 This Section contains all the criteria that the Procuring Entity shall use to evaluate Tenders and qualify Tenderers. No other factors, methods or criteria shall be used. The Tenderer shall provide all the information requested in the forms included in Section IV, Tendering Forms. The Procuring Entity should use **the Standard Tender Evaluation Report for Goods and Works** for evaluating Tenders.
- 1.3 Multiple Contracts; multiple contracts will be permitted in accordance with ITT35.6. Tenderers are evaluated on basis of Lots and the lowest evaluated tenderer identified for each Lot. The Procuring Entity will select one Option of the two Options listed below for award of Contracts.

OPTION 1

- If a tenderer wins only one Lot, the tenderer will be awarded a contract for that Lot, provided the tenderer meets the Eligibility and Qualification Criteria for that Lot.
- If a tenderer wins more than one Lot, the tender will be awarded contracts for all won Lots, provided the tenderer meets the aggregate Eligibility and Qualification Criteria for all the Lots. The tenderer will be awarded the combination of Lots for which the tenderer qualifies and the others will be considered for award to second lowest the tenderers.

OPTION 2

The Procuring Entity will consider all possible combinations of won Lots [contract(s)] and determine the combinations with the lowest evaluated price. Tenders will then be awarded to the Tenderer or Tenderers in the combinations provided the tenderer meets the aggregate Eligibility and Qualification Criteria for all the won Lots.

2. Evaluation and contract award Criteria

The Procuring Entity shall use the criteria and methodologies listed in this Section to evaluate tenders and arrive at the Lowest Evaluated Tender. The tender that (i) meets the qualification criteria, (ii) has been determined to be substantially responsive to the Tender Documents, and (iii) is determined to have the Lowest Evaluated Tender price shall be selected for award of contract.

3. Preliminary examination for Determination of Responsiveness

The Procuring Entity will start by examining all tenders to ensure they meet in all respects the eligibility criteria and other mandatory requirements in the ITT, and that the tender is complete in all aspects in meeting the requirements provided for in the preliminary evaluation criteria outlined below. The Standard Tender Evaluation Report Document for Goods and Works for evaluating Tenders provides very clear guide on how to deal with review of these requirements. Tenders that do not pass the Preliminary Examination will be considered non- responsive and will not be considered further.

Evaluation shall be undertaken in 3 stages

Stage 1: Compliance with mandatory/preliminary requirements

Stage 2: Technical Evaluation (Capacity to Deliver the Service)

- **Section I: Mandatory Technical requirement and Implementation experience**
- **Section II: Detailed technical requirement, Technical staff competencies, Project implementation Methodology**
- **Section III: Demo Scorings**

Stage 3: Financial Evaluation

Stage 4: Due Diligence/Post Qualification Exercise

STAGE 1: Preliminary Mandatory Requirements (MR)

The following mandatory requirements must be met notwithstanding other requirements in the documents:

No.	Requirements	Bidder's Response (Attach documents) Yes/No
MR 1	Tenderers must provide a Copy of Certificate of Registration/Incorporation	
MR 2	Tenderers must provide a copy of Valid Tax Compliance certificate. The tax compliance certificate must be valid as at the date of tender opening	
MR 3	Tenderers must provide a copy of CR12 from issued by the Registrar of companies.	
MR 4	Tenderers must duly fill sign and stamp the Form of tender provided in the Tender document	
MR 5	Tenderers must duly fill, sign and stamp the Confidential Business questionnaire provided in the Tender Document	
MR 6	Tenderers must duly fill, sign and stamp the Certificate of Independent Tender Determination provided in the Tender document.	
MR 7	Tenderers must duly fill, sign and stamp the Price schedules provided in the tender document	
MR 8	If it is a consortium, tenderers must sign a Joint venture agreement clearly indicating who is the lead partner and responsibility matrix for joint bids must be submitted. Provide copy of valid tax compliance of all the parties Must produce "Detailed Responsibility Matrix", duly signed, demarcating the roles of the vendors implementing EDRMS	
MR 9	Tenderers must provide copies of audited financial accounts for the company for the last three accounting years–2018, 2019 and 2020. The bidder's annual turnover in the sale, supplies & installation of IT systems should be at least Ksh 50,000,000 for the last 3 Financial years (i.e. 2018, 2019 and 2020.), to be supported by authentic documentary evidence (audited balance sheet) and confirmation regarding turnover.	
MR 10	Tenderers must provide a Power of attorney/ Authorization Letter giving the name of the person who has been authorized to submit/execute this agreement as a binding document and this person should sign all the documents related to this tender.	
MR 11	Tenderers must duly fill, sign and stamp the self-declaration that the firm and the bidder is not debarred in the matter of Public Procurement and Asset Disposal Act 2015-FORM SD 1	
MR 12	Tenderers must duly fill, sign and stamp the self-declaration that firm and the bidder have never and will not engage in any corrupt or fraudulent practice –FORM SD 2	
MR 13	Tenderers must duly fill, sign and stamp the Declaration and Commitment to the code of Conduct.	

No.	Requirements	Bidder's Response (Attach documents) Yes/No
MR 14	Tenderers must provide a copy of Valid trade license from any County for local (Kenyan Bidders)	
MR 15	Tenderers must serialize all pages for each bid submitted from the first to the last Page including any annexes.	
MR 16	Tenderers must properly bind the Tender document without use of spirals. All pages of the tender document should be serialized or serially numbered and completed Tender document Provided in 1 Original 1 copy and 1soft copy in a flash disk.	
MR 17	Tenders must provide an Original Tender Security of Kenya Shillings F Thousands, i.e. KES 400,000 in form a guarantee from an insurance comp by the Insurance Regulatory Authority and listed by the Public Procurement Authority (PPRA) or bank licensed by the Central Bank of Kenya. The te shall be valid for 156 days as provided in this TDS	
MR 18	<p>Tenderers must provide valid Manufacturer Authorization letters, from the proposed OEM's/manufacture of the solution or any software to be used as part of the solution confirming and authorizing the bidder to submit a bid for this tender and commitment to offer Guarantee and Warranty as per the format provided.</p> <p>If the tenderer is the Original Equipment Manufacturer, of the proposed solution and its related components, the tenderer shall provide a letter signed by Authorized Signatory stating the same and that they are giving warranty and guarantee of the solution. The tenderer can also attach any document that shows the ownership i.e copyright/intellectual property</p> <p>Note: The MAFs MUST be for this specific tender</p>	
<p>AT THIS STAGE, TENDERERS SUBMISSION WILL EITHER BE RESPONSIVE OR NON-RESPONSIVE. THE NON- RESPONSIVE SUBMISSIONS WILL BE ELIMINATED FROM THE ENTIRE EVALUATION PROCESS AND WILL NOT BE CONSIDERED FURTHER. TENDERS WILL THEREFORE PROCEED TO THE TECHNICAL EVALUATION STAGE ONLY IF THEY QUALIFY IN COMPLIANCE AT THIS STAGE</p>		

STAGE 2: TECHNICAL EVALUATION

The Information and Communication Technology Authority (ICTA) is a State Corporation under the Ministry of Information Communication and Technology, Innovation and Youth Affairs established in August 2013. The Authority is tasked with rationalizing and streamlining the management of all Government of Kenya ICT functions with the broad mandate of enforcing ICT standards in Government, provide E-Government services to Government and enhance the supervision of its electronic communication, as well as promote ICT literacy, capacity, innovation and enterprise.

2.6.1.1 STAGE 2: CAPACITY TO DELIVER THE SERVICE

Section I: Mandatory system requirements (YES/NO)

Section II: Capacity to deliver (scoring): detailed system requirements (system requirements not considered in the Mandatory system requirements), Technical staff competencies, Project implementation Methodology

Section III: Demo Scoring

Weightage: The pass mark shall be 70% to qualify for financial Evaluation.

Evaluation Attribute	Weighting Score	Total Score
STAGE 2:-SECTION I: Mandatory Technical requirement (YES/NO)		
<p>1. The bidder's should have been carrying out EDRMS implementation and should furnish/provide evidence/Proof of completion of at least 5 projects for corporate clients which have been done at least during the last 5 Years. Enclose relevant Documentary proof.</p> <p>For each of the five (5) projects, Indicate the Organization, Address (physical & Telephone), key contact person, email, Implementation scope and costing.</p> <p>Provide copies of the following evidence for each of the five reference sites:</p> <ul style="list-style-type: none"> i. evidence of award in form of LPO/ Work Order/ Contract ii. evidence of full implementation in form of completion/GO LIVE certificate iii. proof of ongoing support in form of recommendation letter from the client <p>Incomplete contact details, lacking evidence of contract information shall invalidate the reference site.</p> <p>However, ICTA reserves the right to seek additional supporting documents for the above projects.</p>	YES/NO	YES/NO
2. The solution will be evaluated on meeting the identified mandatory system requirement as outlined in this document- clause 6.6.8.1	YES/NO	YES/NO
<p>AT THIS STAGE, TENDERERS SUBMISSION WILL EITHER BE RESPONSIVE OR NON-RESPONSIVE. THE NON- RESPONSIVE SUBMISSIONS WILL BE ELIMINATED FROM THE ENTIRE EVALUATION PROCESS AND WILL NOT BE CONSIDERED FURTHER. TENDERS WILL THEREFORE PROCEED TO THE STAGE 2:SECTION II ONLY IF THEY QUALIFY IN COMPLIANCE AT THIS SECTION</p>		
<p>STAGE 2:-SECTION II: Weighting: The total technical score will carry 100% of overall evaluation score and bidders will be required to score 70% out of 100% to be technically responsive.</p>		

TECHNICAL SPECIFICATIONS: <u>Technical Evaluation Based on the System/Product Functional Requirements</u> The solution will be evaluated on meeting the detailed terms of reference (requirements in all the sections of the bid) as outlined in this document. Reference to Clause 6.6.8.2 and any other that is not in mandatory section	Full compliance 45	45
3. TECHNICAL STAFF COMPETENCES (TOTAL SCORE=15%) Attach the CVs accompanied by copies of Academic and specialization certificates for key personnel proposed for administration and execution of the contract		
Project Manager <ol style="list-style-type: none"> 1. Masters in Computer Science, Engineering, IT or related degree (S)He should have a minimum of 10 years' experience in IT systems a minimum of 6 years' experience in Project Management 2. Professional experience in developing and implementing and managing scalable systems with competencies in EDRMS systems and IT in general. Give a minimum of five projects. 3. ICT related certification , PRINCE2/PMI or other equivalent project management certifications and Certified EDMS 	4	15
Security expert <ol style="list-style-type: none"> 1. B.SC/ in Computer Science, Engineering or related degree 2. Have relevant certifications in the area of system security. 3. 4+ years of experience in ICT security field and should have experience in ICT systems security and design, development, Implementation of security solutions. Give reference a minimum of four projects 	3	
System designer and developer/System Engineer <ol style="list-style-type: none"> 1. B.SC/ in Computer Science, Engineering or related degree 2. Have relevant certifications in systems development e.g. expert system engineering professional (ESEP), certified system engineering professional (CSEP) etc. and have relevant certification in the area of web-based systems and certification in various Programming software e.g. C, C++, ORACLE, MYSQL, the area. 3. 4+ years of experience in ICT system design, development and implementation with a bias on EDRMS systems implementation. Give a minimum of four projects. 	4	
Expert in EDRMS <ol style="list-style-type: none"> 1. B. Sc or Diploma in computer science/IT or relevant field and have relevant certifications in the area of ICT infrastructure (e.g. networks. Hardware etc.) 2. (4+ Years) experience in EDRMS system deployment. Experience in installing, maintaining and upgrading IT systems, Give reference of 3 projects 3. Have relevant certifications in systems Integration, Records Management and Certified Workflow designer 	4	
Implementation Methodology (20 points)		
Provide a detailed implementation methodology indicating the following, as a minimum: <ol style="list-style-type: none"> 1. Tentative project plan 2. Project organization 3. Test plan 4. Training plan 5. Integration strategy 6. cut-over strategy 7. post GO-LIVE support strategy clearly indicating what is in scope and what shall be out of scope and how out of scope items shall be handled 8. Project Management Methodology 	20	20

Only Bids that score 70% out of 80 Marks in the Technical evaluation Stage 2 section II will proceed to stage 2 Section III of Technical evaluation. Bids that score less than 70% shall be treated as non-responsive and will not be evaluated further.		
STAGE 2:SECTION III Demo – Product Demo/ Visits (20marks) system Only bidders who achieve 70% and above in stage 2 section II shall get to this stage. The qualified tenderers at this stage shall be evaluated for their capability to deliver, implement and support the proposed solution. The demo shall be to validate the information supplied in the checklists above. This will account for 20% of the total technical score.	20	20
Bids that score equal to or above 80% in the Technical evaluation stage will proceed to stage III of financial evaluation. Bids that score less than 80% shall be treated as non-responsive and will not be evaluated further.		

STAGE 3: THE FINANCIAL EVALUATION (QUOTED PRICES)

Only bidders who meet all the requirements in the technical evaluation criteria and has the lowest evaluated price will be recommended for award and if they decline the 2nd lowest will be recommended.

STAGE 4: POST QUALIFICATION DUE DILIGENCE

ICT Authority shall conduct post qualification due diligence to determine to its satisfaction whether the tenderer that is selected as having submitted the lowest evaluated responsive tender is qualified to perform the contract satisfactorily. If the bidder is found to have given false information in the tender hence not meeting the requirements shall be disqualified from this tender.

AWARD

The bidder who has the lowest evaluated price and passes the due diligence exercise will be recommended for award and if they decline, the 2nd lowest will be recommended.

4 Tender Evaluation

Price evaluation: in addition to the criteria listed in ITT 35.5 (a)–(e) the following criteria shall apply:

- i) **Time Schedule:** time to complete the Information System from the effective date specified in Article 3 of the Contract Agreement for determining time for completion of pre-commissioning activities is: No credit will be given for earlier completion. Tenders offering a completion date beyond the maximum designated period shall be rejected.
- ii) **Alternative Technical Solutions for specified parts of the Works, if permitted** under ITT 13.4, will be evaluated as follows: **Not Applicable**
- iii) **Other specific additional criteria-** if permitted under ITT 36.5 (f) the relevant evaluation method, if any, shall be as follows: **Not Applicable**
- iv) **Recurrent Costs** - since the operation and maintenance of the system being procured form a major part of the implementation, the resulting recurrent costs will be evaluated according to the principles given here after, including the cost of recurrent cost items for the initial period of operation stated below, based on prices furnished by each Tenderer in Price Schedule Nos. 3.3 and 3.5. The recurrent cost factors for calculation of the implementation schedule are:
 - i) *Number of years for implementation*
 - ii) *Hardware maintenance*
 - iii) *Software licenses and updates*
 - iv) *Technical services*
 - v) *Telecommunication services,*
- v) **Recurrent cost items for post- warranty service period** if subject to evaluation shall be included in the main contractor a separate contract signed together with the main contract. Such costs shall be added to the Tender price for evaluation.

5 Alternative Tenders (ITT13.1) – NOT APPLICABLE

An alternative if permitted under ITT 13.1, will be evaluated as follows:

The Procuring Entity shall consider Tenders offered for alternatives as specified in Part 2- Procuring Entity's requirements. Only the technical alternatives, if any, of the Tenderer with the Best Evaluated Tender conforming to the basic technical requirements shall be considered by the Procuring Entity.

6 Apply Margin of Preference – NOT APPLICABLE

- 6.1 If the TDS so specifies, the Procuring Entity will grant a margin of preference of fifteen percent (15%) to be loaded on evaluated prices of the foreign tenderers, where the percentage of shareholding of Kenyan citizens is less than fifty-one percent (51%).
- 6.2 Contractors for such preference shall be asked to provide, as part of the data for qualification, such information, including details of ownership, as shall be required to determine whether, according to the classification established by the Procuring Entity, a particular contractor or group of contractors qualifies for a margin of preference.
- 6.3 After Tenders have been received and reviewed by the Procuring Entity, responsive Tenders shall be assessed to ascertain their percentage of shareholding of Kenyan citizens. Responsive tenders shall be classified into the following groups:
 - i) Group A: tenders offered by Kenyan Contractors and other Tenderers where Kenyan citizens hold shares of over fifty one percent (51%).
 - ii) Group B: tenders offered by foreign Contractors and other Tenderers where Kenyan citizens hold shares of less than fifty one percent (51%).
- 6.4 All evaluated tenders in each group shall, as a first evaluation step, be compared to determine the lowest tender, and the lowest evaluated tender in each group shall be further compared with each other. If, as a result of this comparison, at tender from Group A is the lowest, it shall be selected for the award. If a tender from Group B is the lowest, an amount equal to the percentage indicated in Item 3.1 of the respective tender price, including unconditional discounts and excluding provisional sums and the cost of day works, if any, shall be

added to the evaluated price offered in each tender from Group B. All tenders shall then be compared using new prices with added prices to Group Band the lowest evaluated tender from Group A. If the tender from Group A is still the lowest tender, it shall be selected for award. If not, the lowest evaluated tender from Group B based on the first evaluation price shall be selected.

7 Post qualification and Contract award (ITT 39), more specifically,

- a) In case the tender was not subject to post-qualification, the tender that has been determined to be the lowest evaluated tenderer shall be considered for contract award, subject to meeting each of the following conditions.
- b) In case the tender was not subject to post-qualification, the tender that has been determined to be the lowest evaluated tenderer shall be considered for contract award, subject to meeting each of the following conditions.
 - i) The Tenderer shall demonstrate that it has access to, or has available, liquid assets, unencumbered real assets, lines of credit, and other financial means (independent of any contractual advance payment) sufficient to meet the construction cash flow of Kenya Shillings – **as defined in the technical evaluation**
 - ii) Minimum average annual turnover of Kenya Shillings **as defined in the technical evaluation** equivalent calculated as total certified payments received for contracts in progress and/ or completed within the last **as defined in the preliminary evaluation criteria**.
 - iii) At least **five (5) number** of contract(s) of a similar nature executed within Kenya, or the East African Community or abroad, that have been satisfactorily and substantially completed as a prime contractor, or joint venture member or sub-contractor each of minimum value Kenya shillings **as defined in the technical evaluation criteria**
 - iv) Contractor's Representative and Key Personnel, which are specified as **defined in the technical evaluation criteria**
 - v) Contractors' key equipment listed on the table "Contractor's Equipment" below and more specifically listed as *[specify requirements for each lot as applicable]* **Not Applicable**.
 - iv) Other conditions depending on their seriousness.
- a) **History of non-performing contracts:**

Tenderer and each member of JV in case the Tenderer is a JV, shall demonstrate that Non-performance of a contract did not occur because of the default of the Tenderer, or the member of a JV in the last **Three (3) years**. The required information shall be furnished in the appropriate form.
- b) **Pending Litigation**

Financial position and prospective long-term profitability of the Single Tenderer, and in the case the Tenderer is a JV, of each member of the JV, shall remain sound according to criteria established with respect to Financial Capability in the preliminary and technical evaluation criteria if all pending litigation will be resolved against the Tenderer. Tenderer shall provide information on pending litigations in the appropriate form.
- c) **Litigation History**

There shall be no consistent history of court/arbitral award decisions against the Tenderer, in the last **three (3) years**. The tenderer shall furnish the information in the appropriate form about any litigation or arbitration resulting from contracts completed or on going under its execution over the years specified. A consistent history of awards against the Tenderer or any member of a JV shall result in rejection of the tender.

QUALIFICATION FORM

1	2	3	4	5
Item No.	Qualification Subject	Qualification Requirement to be met	Document To be Completed by Tenderer	For Procuring Entity's Use (Qualification met or Not Met)

6	2.1.5 United Nations resolution of Kenya Law	Not having been excluded as a result of prohibition in Kenya laws or official regulations against commercial relations with the Tenderer's country, or by an act of compliance with UN Security Council resolution, both in accordance with ITT 4.8	Form of Tender	
7	History of Non Performing Contracts	Non-performance of a contract did not occur as a result of contractor default since 1 st January [.....].	Form CON-2	
8	Suspension Based on Execution of Tender/Proposal Securing Declaration by the Procuring Entity	Not under suspension based on-execution of a Tender/Proposal Securing Declaration pursuant to ITT 4.8 and ITT 20.10	Form of Tender	
9	Pending Litigation	Tender's financial position and prospective long-term profitability still sound according to criteria established in 2.3.1 and assuming that all pending litigation will NOT be resolved against the Tenderer.	Form CON-2	
10	2.3.1 Historical Financial Performance	Submission of audited balance sheets or if not required by the law of the Tenderer's country, other financial statements acceptable to the Procuring Entity, for the last [] years to demonstrate the current soundness of the Tenderers financial position and its prospective long-term profitability	Form FIN - 2.3.1 with attachments	

11	2.3.2 Average Annual Turnover	Minimum average annual turnover of Kenya Shillings [insert amount], equivalent calculated as total certified payments received for contracts in progress and/or completed within the last [insert of year] years,	Form FIN - 3.2	
12	2.3.3 Financial Resources	The Tenderer must demonstrate access to, or availability of financial resources such as liquid assets, unencumbered real assets, lines of credit, and other financial means, other than any contractual advance payments to meet the following cash-flow requirement: Minimum of _____ Kenya Shillings equivalent	Form FIN - 2.3.3	
13	2.4.1 General Experience	Experience under Information System contracts in the role of prime supplier, management contract, member or subcontractor for at least the last [] years prior to the applications submission deadline	Form EXP-2.4.1	
	2.4.2 Specific Experience	Participation as a prime supplier, management contractor, JV ² member, sub-contractor, in at least _____ [] contracts within the last _____ [] years, each with a value of at least _____ [], that have been successfully and substantially completed and that are similar to the proposed Information System <i>[Specify minimum key requirements in terms of physical size, complexity, methods, technology and/or other characteristics from those described in Section VII, Procuring Entity's Requirements]</i>	Form EXP 2.4.2	

¹Non-performance, as decided by the Procuring Entity, shall include all contracts where (a) nonperformance was not challenged by the contractor, including through referral to the dispute resolution mechanism under the respective contract, and (b) contracts that were so challenged but fully settled against the contractor. Non-performance shall not include contracts where Procuring Entity decision was overruled by the dispute resolution mechanism. Non-performance must be based on all information on fully settled disputes or litigation, i.e., dispute or litigation that has been resolved in accordance with the dispute resolution mechanism under the respective contract and where all appeal instances available to the applicant have been exhausted.

²For contracts under which the Tenderer participated as a joint venture member or sub-contractor, only the Tenderer's share, by value, and role and responsibilities shall be considered to meet this requirement.

8 Personnel

The Tenderer must demonstrate that it will have the personnel for the key positions that meet the following requirements:

No.	No. Position	Information System Experience <i>[Specify specific experience requirement for the key positions]</i>
1.		
2.		
3.		
.....		

The Tenderer shall provide details of the proposed personnel and their experience records in the relevant Forms included in Section IV, Tendering Forms.

9 Subcontractors/vendors/manufacturers

Subcontractors/vendors/manufacturers for the following major items of supply or services must meet the following minimum criteria, herein listed for that item:

Item No.	Description of Item	Minimum Criteria to be met
1.		
2.		
3.		
.....		

Failure to comply with this requirement will result in rejection of the subcontractor/vendor.

In the case of a Tenderer who offers to supply and install major items of supply under the contract that the Tenderer did not manufacture or otherwise produce, the Tenderer shall provide the manufacturer's authorization, using the form provided in Section IV, showing that the Tenderer has been duly authorized by the manufacturer or producer of the related subsystem or component to supply and install that item in Kenya. The Tenderer is responsible for ensuring that the manufacturer or producer complies with the requirements of ITT 4 and 5 and meets the minimum criteria listed above for that item.

SECTION IV - TENDERING FORMS

1. **FORM OF TENDER**

INSTRUCTIONS TO TENDERERS

- i) *The Tenderer must prepare this Form of Tender on stationery with its letter head clearly showing the Tenderer's complete name and business address.*
- ii) *All italicized text is to help Tenderer in preparing this form.*
- iii) *Tenderer must complete and sign TENDERER'S ELIGIBILITY- CONFIDENTIAL BUSINESS QUESTIONNAIRE, CERTIFICATE OF INDEPENDENT TENDER DETERMINATION and the SELF DECLARATION OF THE TENDERER, all attached to this Form of Tender*
- iv) *The Form of Tender shall include the following Forms duly completed and signed by the Tenderer.*
 - *Tenderer's Eligibility-Confidential Business Questionnaire*
 - *Certificate of Independent Tender Determination*
 - *Self-Declaration of the Tenderer*

Date of this Tender submission [insert date (as day, month and year) of Tender submission] **ITT No.** [insert number of ITT process]

Alternative No. [insert identification No if this is a Tender for an alternative]

To..... [insert complete name of Procuring Entity]

- a) **No reservations:** We have examined and have no reservations to the tendering document, including Addenda issued in accordance with Instructions to Tenderers (ITT 8);
- b) **Eligibility:** We meet the eligibility requirements and have no conflict of interest in accordance with ITT 4;
- c) **Tender-Securing Declaration:** We have not been debarred by the Authority based on execution of a Tender-Securing Declaration or Tender Securing Declaration in Kenya in accordance with ITT 4.8;
- d) **Conformity:** We offer to provide design, supply and installation services in conformity with the tendering document of the following: [insert a brief description of the IS Design, Supply and Installation Services];
- e) **Tender Price:** The total price of our Tender, excluding any discounts offered in item (f) below is: [Insert one of the options below as appropriate]
[Option 1, in case of one lot:] Total price is: [insert the total price of the Tender in words and figures, indicating the various amounts and the respective currencies];
Or
[Option 2, in case of multiple lots:] (a) Total price of each lot [insert the total price of each lot in words and figures, indicating the various amounts and the respective currencies]; and (b) Total price of all lots (sum of all lots) [insert the total price of all lots in words and figures, indicating the various amounts and the respective currencies];
- (f) **Discounts:** The discounts offered and the methodology for their application are:
 - i) The discounts offered are: [Specify in detail each discount offered.]
 - ii) The exact method of calculations to determine the net price after application of discounts is shown below: [Specify in detail the method that shall be used to apply the discounts];
- g) **Tender Validity Period:** Our Tender shall be valid for the period specified in TDS ITT 19.1 (as amended if applicable) from the date fixed for the Tender submission deadline (specified in TDS ITT 23.1 (as amended if applicable), and it shall remain binding upon us and may be accepted at any time before the expiration of that period;

- h) **Performance Security:** If our Tender is accepted, we commit to obtain a Performance Security in accordance with the tendering document;
- i) **One Tender per Tenderer:** We are not submitting any other Tender (s) as an individual Tenderer, and we are not participating in any other Tender (s) as a Joint Venture member, and meet the requirements of ITT 4.3, other than alternative Tenders submitted in accordance with ITT 13;
- j) **Suspension and Debarment:** We, along with any of our subcontractors, suppliers, consultants, manufacturers, or service providers for any part of the contract, are not subject to, and not controlled by any entity or individual that is subject to, a temporary suspension or a debarment imposed by the PPRA. 1) CERTIFICATE OF INDEPENDENT TENDER DETERMINATION

I, the undersigned, in submitting the accompanying Letter of Tender to the _____ [Name of Procuring Entity] for: _____ [Name and number of tenders] in response to the request for tenders made by: _____ [Name of Tenderer] do hereby make the following statements that I certify to be true and complete in every respect:

I certify, on behalf of _____ [Name of Tenderer] that:

- i). I have read and I understand the contents of this Certificate;
- ii). I understand that the Tender will be disqualified if this Certificate is found not to be true and complete in every respect;
- iii). I am the authorized representative of the Tenderer with authority to sign this Certificate, and to submit the Tender on behalf of the Tenderer;
- iv). For the purposes of this Certificate and the Tender, I understand that the word “competitor” shall include any individual or organization, other than the Tenderer, whether or not affiliated with the Tenderer, who:
 - a) Has been requested to submit a Tender in response to this request for tenders;
 - b) could potentially submit a tender in response to this request for tenders, based on their qualifications, abilities or experience;
- v). The Tenderer discloses that [check one of the following, as applicable]:
 - a) The Tenderer has arrived at the Tender independently from, and without consultation, communication, agreement or arrangement with, any competitor;
 - b) the Tenderer has entered into consultations, communications, agreements or arrangements with one or more competitors regarding this request for tenders, and the Tenderer discloses, in the attached document(s), complete details thereof, including the names of the competitors and the nature of, and reasons for, such consultations, communications, agreements or arrangements;
- vi). In particular, without limiting the generality of paragraphs (5) (a) or (5) (b) above, there has been no consultation, communication, agreement or arrangement with any competitor regarding:
 - a) prices;
 - b) methods, factors or formulas used to calculate prices;
 - c) the intention or decision to submit, or not to submit, a tender; or
 - d) the submission of a tender which does not meet the specifications of the request for Tenders; except as specifically disclosed pursuant to paragraph (5) (b) above;
- vii). In addition, there has been no consultation, communication, agreement or arrangement with any competitor regarding the quality, quantity, specifications or delivery particulars of the works or services to which this request for tenders relates, except as specifically authorized by the procuring authority or as specifically disclosed pursuant to paragraph (5) (b) above;
- viii). The terms of the Tender have not been, and will not be, knowingly disclosed by the Tenderer, directly or indirectly, to any competitor, prior to the date and time of the official tender opening, or of the awarding of the Contract, whichever comes first, unless otherwise required by law or as specifically disclosed pursuant to paragraph(5)(b) above.

4) **APPENDIX 1 - FRAUD AND CORRUPTION**

(Appendix 1 shall not be modified)

1. Purpose

- 1.1 The Government of Kenya's Anti-Corruption and Economic Crime laws and their sanction's policies and procedures, Public Procurement and Asset Disposal Act, 2015 (the Act) and the Public Procurement and Asset Regulations, 2020 (the Regulations) and any other relevant Kenya's Acts or Regulations related to Fraud and Corruption, and similar offences, shall apply with respect to Public Procurement Processes and Contracts that are governed by the laws of Kenya.

2. Requirements

- 2.1 The Government of Kenya requires that all parties including Procuring Entities, Tenderers, (applicants/proposers), Consultants, Contractors and Suppliers; any Sub-contractors, Sub-consultants, Service providers or Suppliers; any Agents (whether declared or not); and any of their Personnel, involved and engaged in procurement under Kenya's Laws and Regulation, observe the highest standard of ethics during the procurement process, selection and contract execution of all contracts, and refrain from Fraud and Corruption and fully comply with Kenya's laws and Regulations as per paragraphs 1.1 above.

- 2.2 Section 66 of the Act describes rules to be followed and actions to be taken in dealing with Corrupt, Coercive, Obstructive, Collusive or Fraudulent practices, and Conflicts of Interest in procurement including consequences for offences committed. A few of the provisions noted below high light Kenya's policy of no tolerance for such practices and behavior:

- i) A person to whom this Act applies shall not be involved in any corrupt, coercive, obstructive, collusive or fraudulent practice; or conflicts of interest in any procurement or asset disposal proceeding;
- ii) A person referred to under subsection (1) who contravenes the provisions of that sub-section commits an offence;
- iii) Without limiting the generality of the subsection (1) and (2), the person shall be: -
 - a) disqualified from entering into a contract for a procurement or asset disposal proceeding; or
 - b) if a contract has already been entered into with the person, the contract shall be voidable;
- iv) The voiding of a contract by the procuring entity under subsection (7) does not limit any legal remedy the procuring entity may have;
- v) An employee or agent of the procuring entity or a member of the Board or committee of the procuring entity who has a conflict of interest with respect to a procurement: -
 - a) Shall not take part in the procurement proceedings;
 - b) shall not, after a procurement contract has been entered into, take part in any decision relating to the procurement or contract; and
- c) shall not be a subcontractor for the tenderer to whom was awarded contract, or a member of the group of tenderers to whom the contract was awarded, but the subcontractor appointed shall meet all the requirements of this Act.
- vi) An employee, agent or member described in subsection (1) who refrains from doing anything prohibited under that subsection, but for that subsection, would have been within his or her duties shall disclose the conflict of interest to the procuring entity;
- vii) If a person contravenes sub section (1) with respect to a conflict of interest described in sub section (5) (a) and the contract is awarded to the person or his relative or to another person in whom one of them had a direct or indirect pecuniary interest, the contract shall be terminated and all costs incurred by the public entity shall be made good by the awarding officer. Etc.

- 2.2 In compliance with Kenya's laws, regulations and policies mentioned above, the Procuring Entity:

- a) Defines broadly, for the purposes of the above provisions, the terms:
 - i) "corrupt practice" is the offering, giving, receiving, or soliciting, directly or indirectly, of anything of value to influence improperly the actions of another party;

- ii) “fraudulent practice” is any act or omission, including misrepresentation, that knowingly or recklessly misleads, or attempts to mislead, a party to obtain financial or other benefit or to avoid an obligation;
- iii) “collusive practice” is an arrangement between two or more parties designed to achieve an improper purpose, including to influence improperly the actions of another party;
- iv) “coercive practice” is impairing or harming, or threatening to impair or harm, directly or indirectly, any party or the property of the party to influence improperly the actions of a party;
- v) “obstructive practice” is:
 - 1) Deliberately destroying, falsifying, altering, or concealing of evidence material to the investigation or making false statements to investigators in order to materially impede investigation by Public Procurement Regulatory Authority (PPRA) or any other appropriate authority appointed by Government of Kenya into allegations of a corrupt, fraudulent, coercive, or collusive practice; and/or threatening, harassing, or intimidating any party to prevent it from disclosing its knowledge of matters relevant to the investigation or from pursuing the investigation; or
 - 2) Acts intended to materially impede the exercise of the PPRA's or the appointed authority's inspection and audit rights provided for under paragraph 2.3e. below.
- b) Defines more specifically, in accordance with the Act, provisions set forth for fraudulent and collusive practices as follows:

"fraudulent practice" includes a misrepresentation of fact in order to influence a procurement or disposal processor the exercise of a contract to the detriment of the procuring entity or the tenderer or the contractor, and includes collusive practices amongst tenderers prior to or after tender submission designed to establish tender prices at artificial non-competitive levels and to deprive the procuring entity of the benefits of free and open competition.
- c) Rejects a proposal for award¹ of a contract if PPRA determines that the firm or individual recommended for award, any of its personnel, or its agents, or its sub-consultants, sub-contractors, service providers, suppliers and/ or their employees, has, directly or indirectly, engaged in corrupt, fraudulent, collusive, coercive, or obstructive practices in competing for the contract in question;
- d) Pursuant to the Act and the Regulations, the Procuring Entity may recommend to PPRA for sanctioning and debarment of a firm or individual, as applicable under the Act and the Regulations;
- e) Requires that a clause be included in the tender documents and Request for Proposal documents requiring (i) Tenderers (applicants/proposers), Consultants, Contractors, and Suppliers, and their Sub-contractors, Sub-consultants, Service providers, Suppliers, Agents personnel, permit the PPRA or any other appropriate authority appointed by Government of Kenya to inspect² all accounts, records and other documents relating to the procurement process, selection and/or contract execution, and to have them audited by auditors appointed by the PPRA or any other appropriate authority appointed by Government of Kenya; and
- f) Pursuant to Section 62 of the Act, requires Applicants/Tenderers to submit along with their Applications/Tenders/Proposals a “Self-Declaration Form” as included in the procurement document declaring that they and all parties involved in the procurement process and contract execution have not engaged/ will not engage in any corrupt or fraudulent practices.

¹For the avoidance of doubt, a party's ineligibility to be awarded a contract shall include, without limitation, (i) applying for pre-qualification, expressing interest in A consultancy, and tendering, either directly or as a nominated sub-contractor, nominated consultant, nominated manufacturer or supplier, or nominated service provider, in respect of such contract, and (ii) entering into an addendum or amendment introducing a material modification to any existing contract.

²Inspections in this context usually are investigative (i.e., forensic) in nature. They involve fact-finding activities undertaken by the Investigating Authority or persons appointed by the Procuring Entity to address specific matters related to investigations/ audits, such as evaluating the veracity of an allegation of possible Fraud and Corruption, through the appropriate mechanisms. Such activity includes but is not limited to: accessing and examining a firm's or individual's financial records and information, and making copies there of as relevant; accessing and examining any other documents, data and information (whether in hard copy or electronic format) deemed relevant for the investigation/ audit, and making copies there of as relevant; interviewing staff and other relevant individuals; performing physical inspections and site visits; and obtaining third party verification of information.

PRICE SCHEDULE FORMS

Notes to Tenderers on working with the Price Schedules

1.1 General

The Price Schedules are divided into separate Schedules as follows:

- a Grand Summary Cost Table
- b Supply and Installation Cost Summary Table
- c Recurrent Cost Summary Table
- d Supply and Installation Cost Sub-Table (s)
- e Recurrent Cost Sub-Tables (s)
- f Country of Origin Code Table

[insert:]

- 1.2 The Schedules do not generally give a full description of the information technologies to be supplied, installed, and operationally accepted, or the Services to be performed under each item. However, it is assumed that Tenderers shall have read the Technical Requirements and other sections of these tendering documents to ascertain the full scope of the requirements associated with each item prior to filling in the rates and prices. The quoted rates and prices shall be deemed to cover the full scope of these Technical Requirements, as well as overhead and profit.
- 1.3 If Tenderers are unclear or uncertain as to the scope of any item, they shall seek clarification in accordance with the Instructions to Tenderers in the tendering documents prior to submitting their tender.

2. Pricing

- 2.1 Prices shall be filled in indelible ink, and any alterations necessary due to errors, etc., shall be initialed by the Tenderer. As specified in the Tender Data Sheet, prices shall be fixed and firm for the duration of the Contract.
- 2.2 Tender prices shall be quoted in the manner indicated and, in the currencies, specified in ITT 18.1 and ITT 18.2. Prices must correspond to items of the scope and quality defined in the Technical Requirements or elsewhere in these tendering documents.
- 2.3 The Tenderer must exercise great care in preparing its calculations, since there is no opportunity to correct errors once the deadline for submission of tenders has passed. A single error in specifying a unit price can therefore change a Tenderer's overall total tender price substantially, make the tender noncompetitive, or subject the Tenderer to possible loss. The Procuring Entity will correct any arithmetic error in accordance with the provisions of ITT 32.
- 2.4 Payments will be made to the Supplier in the currency or currencies indicated under each respective item. As specified in ITT18.2, no more than two foreign currencies may be used.

14 Conformance of Information System Materials

I) Format of the Technical Tender

In accordance with ITT 16.2, the documentary evidence of conformity of the Information System to the tendering documents includes (but is not restricted to):

- a) The Tenderer's Preliminary Project Plan, including, but not restricted, to the topics specified in the TDS ITT 16.2. The Preliminary Project Plan should also state the Tenderer's assessment of the major responsibilities of the Procuring Entity and any other involved third parties in System supply and installation, as well as the Tenderer's proposed means for coordinating activities by each of the involved parties to avoid delays or interference.
- b) A written confirmation by the Tenderer that, if awarded the Contract, it shall accept responsibility for successful integration and interoperability of all the proposed Information Technologies included in the System, as further specified in the Technical Requirements.
- c) Item-by-Item Commentary on the Technical Requirements demonstrating the substantial responsiveness of the overall design of the System and the individual Information Technologies, Goods, and Services offered to those Technical Requirements.

In demonstrating the responsiveness of its tender, the Tenderer must use the Technical Responsiveness Checklist (Format). Failure to do so increases significantly the risk that the Tenderer's Technical Tender will be declared technically non-responsive. Among other things, the checklist should contain explicit cross-references to the relevant pages in supporting materials included the Tenderer's Technical Tender.

Note: The Technical Requirements are voiced as requirements of the *Supplier* and/or the *System*. The Tenderer's response must provide clear evidence for the evaluation team to assess the credibility of the response. A response of “yes” or “will do” is unlikely to convey the credibility of the response. The Tenderer should indicate *that*—and to the greatest extent practical—*how* the Tenderer would comply with the requirements if awarded the contract. Whenever the technical requirements relate to feature(s) of existing products (e.g., hardware or software), the features should be described and the relevant product literature referenced. When the technical requirements relate to professional services (e.g., analysis, configuration, integration, training, etc.) some effort should be expended to describe how they would be rendered – not just a commitment to perform the [cut-and-paste] requirement. Whenever a technical requirement is for the Supplier to provide certifications (e.g., ISO9001), copies of these certifications must be included in the Technical Tender.

Note: The Manufacturer's Authorizations (and any Subcontractor Agreements) are to be included in Attachment 2 (Tenderer Qualifications), in accordance with and ITT 15.

Note: As a matter of practice, the contract cannot be awarded to a Tenderer whose Technical Tender deviates (materially) from the Technical Requirements – *on any Technical Requirement*. Such deviations include omissions (e.g., non-responses) and responses that do not meet or exceed the requirement. Extreme care must be exercised in the preparation and presentation of the responses to all the Technical Requirements.

- d) Supporting materials to underpin the Item-by-item Commentary on the Technical Requirements (e.g., product literature, white-papers, narrative descriptions of technical approaches to be employed, etc.). In the interest of timely tender evaluation and contract award, Tenderers are encouraged not to overload the supporting materials with documents that do not directly address the Procuring Entity's requirements.
- e) Any separate and enforceable contract(s) for Recurrent Cost items which the TDSITT17.2 required Tenderers to tender.

Note: To facilitate tender evaluation and contract award, Tenderers encouraged to provide electronic copies of their Technical Tender—preferably in a format that the evaluation team can extract text from to facilitate the tender clarification process and to facilitate the preparation of the Tender Evaluation Report.

ii) Technical Responsiveness Checklist (Format)

Tech. Require. No.	

iii) Form of Tender Security-Option1–Demand Bank Guarantee

[The bank shall fill in this Bank Guarantee Form in accordance with the instructions indicated.]

*[Guarantor Form head or SWIFT identifier code]*_____ **Beneficiary:**

.....*[Procuring Entity to insert its name and address]*_____

_____ **ITT No.:**

.....*[Procuring Entity to insert reference number for the Invitation for Tenders]* **Alternative**

No*[Insert identification No if this is a Tender for an alternative]*

Date: *[Insert date of issue]*_____ **TENDER GUARANTEE No.:** _____

*[Insert guarantee reference number]*_____

We have been informed that_____*[insert name of the Tenderer, which in the case of a joint venture shall be the name of the joint venture (whether legally constituted or prospective) or the names of all members there of]*
_____ (here in after called “the Applicant”) has submitted or will submit the Beneficiary its tender
_____ (here in after called “the Tender”) for the execution of _____ under Request for Tenders
No. _____ (“the ITT”).

Furthermore, we understand that, according to the Beneficiary's, Tenders must be supported by a Tender guarantee. At the request of the Applicant, we as Guarantor, here by irrevocably undertake to pay the Beneficiary any sum or sums not exceeding in total an amount of _____ (_____) upon receipt by us of the Beneficiary's complying demand supported by the Beneficiary's statement, whether in the demand itself or a separate signed document accompanying the demand, stating that either the Applicant:

- has withdrawn its Tender during the period of tender validity set forth in the Applicant's Form of Tender (“the Tender Validity Period”), or any extension thereof provided by the Applicant; or
- having been notified of the acceptance of its Tender by the Beneficiary during the period of Tender validity or any extension thereof provided by the Applicant has failed to: (i) execute the Contract Agreement, if required, or (ii) furnish the performance security, in accordance with the Instructions to Tenderers (“ITT”) of the Beneficiary's tendering document.

This guarantee will expire: (a) if the Applicant is the successful Tenderer, upon our receipt of copies of the contract agreement signed by the Applicant and the Performance Security issued to the Beneficiary in relation to such Contract Agreement; or (b) if the Applicant is not the successful Tenderer, upon the earlier of (i) our receipt of a copy of the Beneficiary's notification to the Applicant of the results of the Tendering process; or (ii) twenty-eight days after the expiration of the Tenderer's Tender Validity Period.

Consequently, any demand for payment under this guarantee must be received by us at the office on or before that date. This guarantee is subject to the Uniform Rules for Demand Guarantees (URDG) 2010 Revision, ICC Publication No. 758.

[signature(s)]

iv) Form of Tender Security - Option 2 - Tender Bond

BOND NO. _____

BY THIS BOND _____ as Principal (here in after called “the Principal”), and _____, **authorized to transact business in** _____, as Surety (here in after called “the Surety”), are held and firmly bound unto _____ as Obligee (hereinafter called “the Procuring Entity”) in the sum of _____¹ (_____), for the payment of which sum, well and truly to be made, we, the said Principal and Surety, bind ourselves, our successors and assigns, jointly and severally, firmly by these presents.

WHEREAS the Principal has submitted or will submit a written Tender to the Procuring Entity dated the ____ day of _____, 20, for the supply of ____/[name of Contract] _____ (here in after called the “Tender”). NOW,

THEREFORE, THE CONDITION OF THIS OBLIGATION is such that if the Principal:

- a) Has withdrawn its Tender during the period of tender validity set forth in the Principal's Form of Tender (the Tender Validity Period), or any extension provided by the Principal; or
- b) Having been notified of the acceptance of its Tender by the Procuring Entity during the Tender Validity Period or any extension there to provide by the Applicant has failed to; (i) execute the Contract Agreement, or (ii) furnish the Performance Security in accordance with the Instructions to Tenderers (“ITT”) of the Procuring Entity's tendering document.

then the Surety undertakes to immediately pay to the Procuring Entity up to the above amount upon receipt of the Procuring Entity's first written demand, without the Procuring Entity having to substantiate its demand, provided that in its demand the Procuring Entity shall state that the demand arises from the occurrence of any of the above events, specifying which event (s) has occurred.

The Surety here by agrees that its obligation will remain in full force and effect up to and including the date 28days after the date of expiration of the Tender Validity Period set forth in the Principal's Form of Tender or extended there to provide by the Principal.

IN TESTIMONY WHERE OF, the Principal and the Surety have caused these presents to be executed in their respective names this _____ day of _____ 20_____.

Principal: _____
Corporate Seal (where appropriate)

Surety: _____

(Signature) (Signature)

(Printed name and title)

(Printed name and title)

v) TENDER - SECURING DECLARATION FORM {r 46 and 155(2)}

[The Bidder shall complete this Form in accordance with the instructions indicated] Date:

[insert date (as day, month and year) of Tender Submission]

Tender No. [insert number of tendering process]

To: [insert complete name of Purchaser] I/We, the undersigned, declare that:

1. I/We understand that, according to your conditions, bids must be supported by a Tender-Securing Declaration.
2. I/We accept that I/we will automatically be suspended from being eligible for tendering in any contract with the Purchaser for the period of time of [insert number of months or years] starting on [insert date], if we are in breach of our obligation (s) under the bid conditions, because we—(a) have withdrawn our tender during the period of tender validity specified by us in the Tendering Data Sheet; or (b) having been notified of the acceptance of our Bid by the Purchaser during the period of bid validity, (i) fail or refuse to execute the Contract, if required, or (ii) fail or refuse to furnish the Performance Security, in accordance with the instructions to tenders.
3. I/We understand that this Tender Securing Declaration shall expire if we are not the successful Tenderer(s), upon the earlier of:
 - a) Our receipt of a copy of your notification of the name of the successful Tenderer; or
 - b) thirty days after the expiration of our Tender.
4. I/We understand that if I am/ we are/ in a Joint Venture, the Tender Securing Declaration must be in the name of the Joint Venture that submits the bid, and the Joint Venture has not been legally constituted at the time of bidding, the Tender Securing Declaration shall be in the names of all future partners as named in the letter of intent.

Signed:

Capacity / title (director or partner or sole proprietor, etc.)

Name:

Duly authorized to sign the bid for and on behalf of: _____ [insert complete name of Tenderer] Dated

on..... day of [Insert date of signing]

Seal or stamp

PART 2 – PROCURING ENTITY'S REQUIREMENTS

SECTION V - TECHNICAL SPECIFICATIONS

5.1 General

- 5.1.1 These specifications describe the requirements for goods. Tenderers are requested to submit with their offers the detailed specifications, drawings, catalogues, etc. for the products they intend to supply.
- 5.1.2 Tenderers must indicate on the specifications sheets whether the equipment offered comply with each specified requirement.
- 5.1.3 All the dimensions and capacities of the equipment to be supplied shall not be less than those required in these specifications. Deviations from the basic requirements, if any shall be explained in detail in writing with the offer, with supporting data such as calculation sheets, etc. The procuring entity reserves the right to reject the products, if such deviations shall be found critical to the use and operation of the products.
- 5.1.4 The tenderers are requested to present information along with their offers as follows:
 - (i) Shortest possible delivery period of each product
 - (ii) Information on proper representative and/or workshop for back-up service/repair and maintenance including their names and addresses.

PARTICULARS

Provision of Electronic Document and Records Management system based on perpetual software licenses, configuration, implementation, and digitization of existing records and files.

5.1 Background of the ICT Authority (ICTA)

The Information and Communication Technology (ICT) Authority is a State Corporation under the Ministry of Information Communication and Technology. The corporation was established in August 2013. The Authority is tasked with rationalizing and streamlining the management of all Government of Kenya ICT functions. Our broad mandate entails enforcing ICT standards in Government and enhancing the supervision of its electronic communication. We also promote ICT literacy, capacity, innovation and enterprise in line with the Kenya National ICT Masterplan 2017.

5.2 ICTA Mandate

The mandate of the Authority is to:

- Set and enforce ICT standards and guidelines for the human resource, infrastructure, processes and system and technology for the public office and public service; and
- Deploy and manage all ICT staff in the public service;
- Facilitate and regulate the design, implementation and use of ICTs in the public service;
- Promote ICT literacy and capacity;
- Promote e-Government services;
- Facilitate optimal electronic, electronic form, electronic record and equipment use in public service;
- Promote ICT Innovation and enterprise;
- Establish, develop and maintain secure ICT infrastructure and systems
- Supervise the design, development and implementation of critical ICT projects across the public service.

5.3 Project description

The Kenya government through ICT Authority is seeking proposals from qualified vendors to provide an Enterprise Document and Records Management System (EDRMS) that consists of an integrated records management and document management tool set. ICTA expects to select solution that will allow various MCDAs to access system remotely. The solution should allow defining and onboarding any MCDA that has requested for the provisioning within the shortest time possible. The Authority intends that the EDRMS selected through this process will become the Government's standard EDRMS software. As a result of this initiative, all employees will have the ability to manage electronic and physical documents and records in a

consistent manner from their desktops.

The government of Kenya wishes to significantly improve its capability to manage the documents and records in its possession. A key objective is to establish an infrastructure for effectively managing government records -- i.e., an infrastructure that builds upon existing standards and processes for managing physical records and incorporates requirements for electronic documents and records. A critical step to being able to do this is the selection of appropriate software that can be made available on end user device.

The vision of the government is that:

The government MCDAs will be able to effectively manage all of its documents and records in a consistent, logical manner, from creation to final disposition, using a common set of tools, standards and policies.

This RFP focuses on Records Management (RM) functional requirements. Nevertheless, there is a strong interest within government to have an application infrastructure upon which other document-centric applications can be built. The key objective of this RFP is to provide an Enterprise Document and Records Management System (EDRMS) that can be used across government. ICTA has a need for a system that is robust and scalable since the system will ultimately be deployed to all government MCDAs to provide a unified tool set for managing electronic and physical records.

The initial priority is to manage electronic documents and records, beginning with created and scanned documents. The EDRMS selected will also be expected to handle other types of files as the product use is extended. These would include CAD and other drawings, maps, photographs, scanned images, sound and movie formats, web pages as well as physical documents. Any solution adopted as a result of this RFP will have to work within the government technical environment and may need to integrate with existing government systems.

The EDRMS chosen for government will be required to schedule records using the government standard system for classification, retention and disposition, including the Administrative Records Classification System (ARCS), Operational Records Classification Systems (ORCS) and other approved records schedules. Archives may construct a database to store final versions of ARCS and ORCS as well as information on the development and history of the final approved version. The EDRMS should be able to use this database as the reference or source for file numbers in the records management component of the EDRMS.

The central license custodian will be the Information Technology and communication Authority.

The ability to capture documents and convert them into digital actionable data has become increasingly important in order to meet customer expectations, reduce operational costs, improve employee productivity and respond to the ever-changing regulatory guidelines. Business critical information may exist in different forms such as paper, office documents and across multiple locations. Organizations need to be able to scan and capture enterprise content, convert it to digital information and leverage this through core business applications like an ECM, BPM or ERP for better decisions, this enhances organizational effectiveness by accelerating the three core areas of

enterprise level information capture:

Scan - Enable MCDAs to securely capture paper and electronic documents at the point of origin from production level scanners and web desktop.

Transform - Streamlines the transformation of captured documents into structured electronic information through automatic document classification, separation, data extraction and validation.

Deliver - Ensure that the information and documents captured and processed are quickly and seamlessly delivered to multiple destinations.

The project will allow MCDAs to more effectively manage electronic records and documents in an integrated manner in compliance with government legislation and policies.

This project will provide the government with an Enterprise Document and Records Management System (EDRMS) that will consist of an integrated set of software tools for records management and document management. This section outlines and describes the general requirements the government has for an EDRMS.

5.4 Project Scope

5.4.1 Introduction

ICTA will require that the system be installed centrally in a Government Data Centre but can be accessed by several ministries, departments and agencies. As a result of this initiative, all employees will have the ability to manage all forms of documents and records regardless of location, media or file type in a consistent manner from their desktops.

The system selected will be expected to handle electronic and physical (after digitization) records with equal facility and allow for metadata capture customizable based on the type of record. The system must be robust, scalable and flexible in its configuration and its ability to pass information to other software being used in records management or in lines of business within a ministry.

The vision that is trying to be achieved can be stated as follows:

The government will be able to effectively manage all of its documents and records in a consistent, logical manner, from creation to final disposition, using a common set of tools, standards and policies.

Any scanning, OCR and/or electronic transmission of documents that are inherent in a MCDA business process are in scope of this RFP and also the records created in or from those processes must be able to be managed by the EDRMSselected.

From an imaging functionality point of view, the system must be able to import images, and indexing/metadata created from other imaging systems and capture applications, and then offer a standard document management interface. It should also offer a development environment capable of creating dedicated Line Of Business imaging applications (custom application) integrating all of the document and records management functionality and technologies (including storage management, index/metadata management, image processing/conversion, redaction, OCR, and COLD).

The initial priority for government is to use the EDRMS software to manage common forms of electronic records and all forms of physical (hardcopy) records. For electronic records, this includes documents generated from: the hard copies of documents, electronic forms , Microsoft Office Suite (letters, memos, etc), existing system and e-mail.

Although this initial priority deals with a limited numbers of document formats, the EDRMS will be expected to handle virtually all types of electronic documents used in government. These include, but are not limited to CAD, other drawing and image formats, maps, photographs, scanned images, audio and video clips.

Once the system is installed, there will be subsequent opportunities for ministries to review their business processes to take fuller advantages of the capabilities in the EDRMS suite. There may also be opportunities to replace existing stand-alone systems that perform functions within the software chosen.

The overall system should comply to various open standards such as Web Distributed Authoring and versioning (WebDAV), Content Management Interoperability Standard (CMIS), Open Document Management API (ODMA), Business Process Modeling Notations (BPMN), Business Process Execution Language (BPEL), Workflow Management Coalition (WFMC) etc.

The application data will be stored in a central server, which holds all document related data like the version info, full text indexes etc. The documents will be stored centrally in the Document Library, so that any user, having proper access rights can manipulate these documents. It is expected that other systems to be put in place in the future (such as financials and or HR) will communicate with the WebDAV Server with the help of web services.

The Authority requires the overall system to support multi tenancy architecture which can be deployed over cloud infrastructure and accordingly can be utilized for onboarding of new Department, Agency or Ministry as an when required.

Any solution adopted for an EDRMS will have to operate within government technical environment and potentially pass information or receive information to/from a wide variety of other programs. Several electronic service delivery, e-commerce and business-focused document/content management initiatives are proposed or underway across government which will be creating new and additional records. It will be important that the software chosen can easily deal with these developments, by simple configuration choices and/or open access, standard APIs, etc.

Government records are managed with a file classification system that uses block- numeric file numbers that have associated retention schedules and other information (*ARCS/ORCS*). The EDRMS chosen for government should be able to use *ARCS/ORCS* data without the need to manually enter existing schedules.

The EDRMS should be able to use a database as a reference or source for file numbers and retention information or hold such information for use by the EDRMS and other systems.

5.5 Objectives and Benefits

5.5.1 Objectives

ICTA is desirous of Digitizing historical records and Implementing a Document and Records Management System within the Government enterprise with a view to:

- i. Improving classification, access, search, control, protection, storage and security of unstructured and structured information, documents and process within the Organisation.
- ii. Leveraging on the existing systems to improve visibility of documents associated with transactions

5.5.2 ICTA seeks the following benefits;

- iii. Store, access, and search documents easily
- iv. Automation of the business key processes
- v. Share and track documents seamlessly
- vi. Ensure long-term archival of records
- vii. Reduce Operational costs associated with physical storage and movement of documents, document handling and manual entry of data through automation of document intensive business processes
- viii. Increase document security and disaster recovery capability
- ix. Improve compliance with regulations and retention policies
- x. Enhance collaboration and workflow within Government
- xi. Integration with existing line of business systems
- xii. Resource Optimization by elimination of time-intensive and error-prone manual activities, such as document classification, separation and indexing of data
- xiii. Faster Document Processing by simultaneously executing bulk scan, classification, image enhancement and extraction, followed by single click data transfer into existing business systems
- xiv. Digital Transformation: Content, Processes, Organizations

5.5.3 ICTA would like an EDRMS solution that will work for scalable high volume production environment which goes beyond content capture. It should accelerate business processes by capturing data and transforming it into actionable business information. It should enhance organizational effectiveness by accelerating the three core areas of enterprise level

information capture:

- 5.5.3.1 Scan** - Enables organizations to securely capture paper and electronic documents at the point of origin from production level scanners and web desktop.
- 5.5.3.2 Transform** - Streamlines the transformation of captured documents into structured electronic information through automatic document classification, separation, data extraction and validation.
- 5.5.3.3 Deliver** - Ensures that the information and documents captured and processed are quickly and seamlessly delivered to multiple destinations.
- 5.5.3.4 High Quality Data Output** that cuts down the amount of time and resources needed to verify captured information and ensures more reliable data is available in backend systems for future use.
- 5.5.3.5 Enhance Information Security and Mitigate Compliance Risk** through an audit trail of the complete document handling process, encrypted communication and user authentication into existing business systems.

5.5.4 Key Deliverables

- a) Installed and configured EDRMS software to meet ICTA requirements. ICTA will provide the server infrastructure where the EDRMS will be installed.
- b) Document and automate key process flows to include; Transport, Travel, , Internal Memos processes amongst others to be provided at the time of contracting.
- c) Training of Trainers and system administrators
- d) Map process to existing Government policies
- e) OEM warranties and guarantees
- f) System Documentation
- g) Systems Integration
- h) Document scanning software

5.6 Project Scope

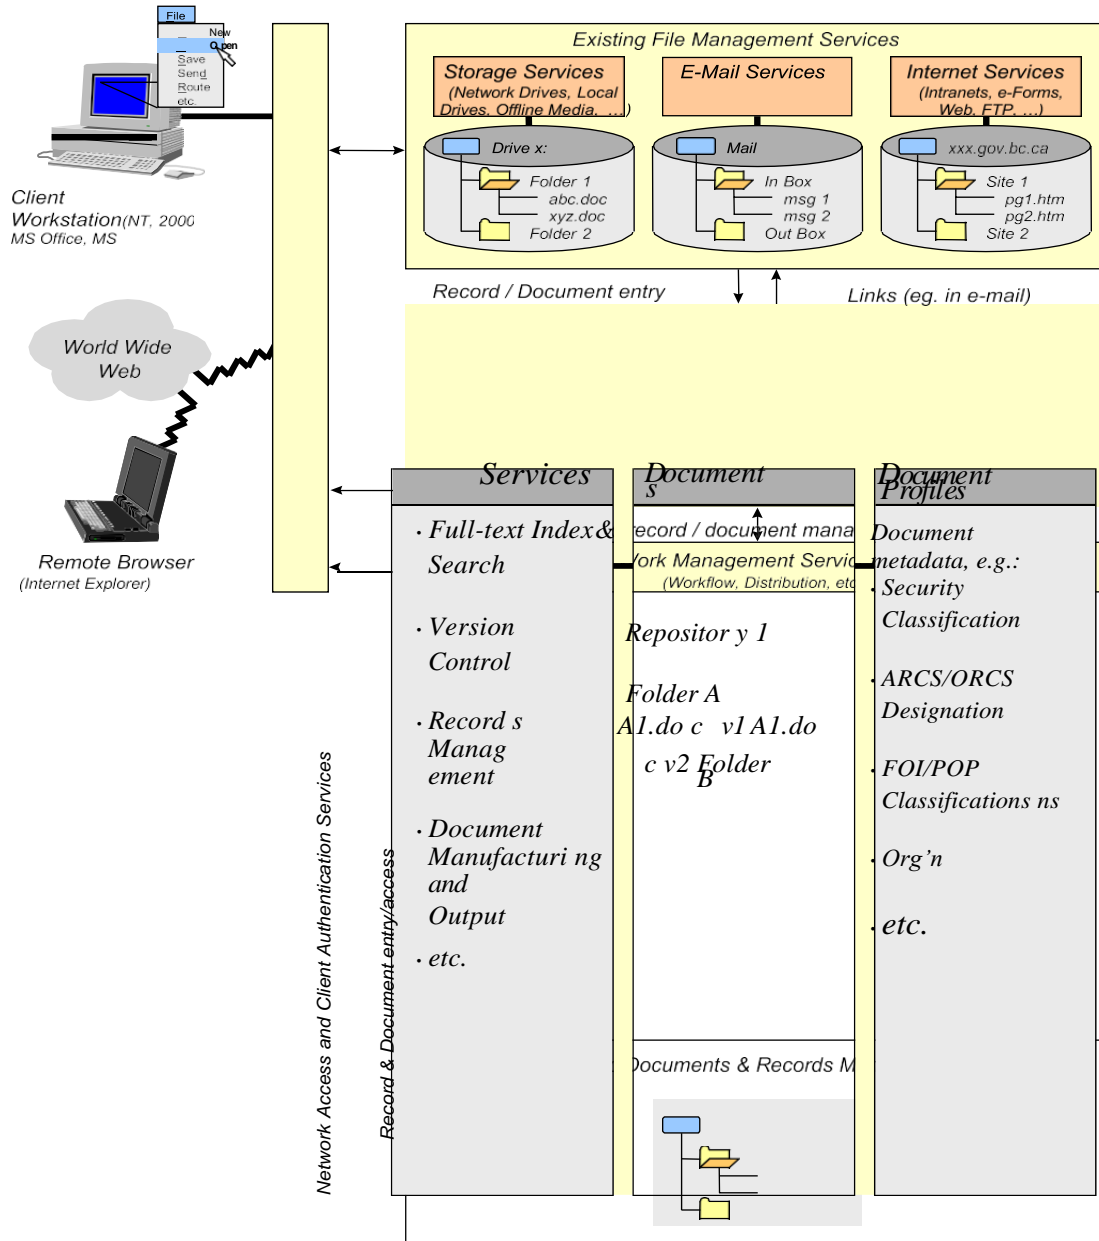

The tender shall cover the following scope:

SUPPLY, INSTALLATION, TESTING AND COMMISSIONING OF AN ELECTRONIC DOCUMENT AND RECORD MANAGEMENT SYSTEM

5.6.1 Basic Requirements

- 5.6.1.1** The basic requirement is for an integrated records management and document management system to be available in centralized government servers accessible through desktops and other devices within government ministries, departments and agencies. This will provide the ability for all employees to directly manage electronic documents and records stored in multiple repositories in a variety of file types in a consistent manner from their desktops.
- 5.6.1.2** For each organization (e.g., ministry/program/agency), the EDRMS should support integrated management of all office records; i.e., all office e-records (word, email, spreadsheets, presentations etc) and all types of physical records. The EDRMS should also be extensible in future to cover other document types (images, database reports, voicemail, etc).
- 5.6.1.3** The EDRMS should be able to store, retrieve and view files in their native format without a need to have the applications that generated the file present.
- 5.6.1.4** The integrated records and document management system should be incorporated as seamlessly as possible into the government system infrastructure. Figure 1 is a conceptual illustration of what this means.

Figure 1

5.6.2 Scaling and Robustness

5.6.2.1 The EDRMS should be built on a robust, scalable architecture supporting such requirements as:

- EDRMS application(s) on every employee desktop (30,000+ users);
- Multiple, large shared record and document repositories across multiple platforms;

- All components of the solution must be equally scalable and robust.

5.6.2.2 The following estimates indicate the volume of information produced per year by the government, which must be managed by the EDRMS over time:

- 50,000,000 E-Mail Messages: 5,000,000 with attachments;
- 15,000,000 MS Office Documents;
- 2,000,000 physical volumes (e.g., file folders), comprising approximately 30,000,000 physical records.
- Note: 2,000,000 physical volumes are individually identified in existing automated record management systems; 10,000,000 physical volumes are currently stored in offsite storage facilities.

5.6.2.3 About 50 metadata elements could potentially be tracked for each physical volume and electronic record.

5.6.3 Document and Records Management Services

5.6.3.1 Document and Records Management Services provide a common backbone for addressing the functional requirements identified in this document.

5.6.3.2 There will be a strong dependence and reliance by the document and record management services on the other application-enabling infrastructure components. For example: messages containing documents as attachments will require:

- An integration of the messaging;
- Record and document management services;
- Access to the document library/repository through a common authentication service;
- Workflow engines handling the flow of approval will need to be coupled with the document and record management services.

5.6.3.3 There is a requirement for long-term integration with an application for managing physical records in their semi-active state such as ARIS (Archives and Records Information System). The EDRMS will need to incorporate ARIS linking data (accession/application numbers) with potential for future integration.

5.6.4 Workflow Management Services

5.6.4.1 There will be a requirement for the document and record management services to provide /interface with workflow management to enable the documents and records move from one officer to the other and allow for approvals to be done in the system.

5.6.5 Database Environment

The EDRMS should be able to store the documents in OEM and enterprise databases. Solutions that meet the database standard will be ranked higher than those that do not.

5.6.6 Key Deliverables

The following are the key deliverables for this project:

5.6.6.1 Licenses and all related materials to enable the installation of the system in centralized servers and an initial provisioning and onboarding of two (2) organizations, which must serve up to 500 users. One rollout will be at ICTA. The location of the other will be determined after the product selection is complete.

5.6.6.2 Detailed description of the licensing regime that shows the appropriate concurrent licenses for up to 500 users, and shows the subsequent costs for growth of over 50,000

users in the next two years. This number is for planning purposes only; the actual number of licenses may be less, and/or the time frame for installation may be longer than currently anticipated;

- 5.6.6.3** Licenses that will allow for multiple server installation where necessary;
- 5.6.6.4** Detailed work plans and estimated timeframes and costs for installation and configuration, including estimated effort required;
- 5.6.6.5** Suggestions regarding the ARCS/ORCS database;
- 5.6.6.6** Appropriate and sufficient user and technical manuals and other necessary documentation;
- 5.6.6.7** A user training strategy and training materials;
- 5.6.6.8** Necessary customization or integration work to enable the products selected to work together and with existing applications seamlessly together from a user perspective;
- 5.6.6.9** Systems staff training and onsite support provided on an as-and-when- requested basis to guide and support the initial implementation of the software.

5.6.7 EDRMS shall require:

- 5.6.7.1** This project consist of the supply of the complete EDRMS engine that can support all the Government MDAs. The vendor will onboard two organizations i.e ICTA and a ministry which will be identified. The engine should allow for subsequent onboarding of other MDAs. The EDRMS will include:
- 5.6.7.2** Supply and licensing of all required Document and Record Management System software
- 5.6.7.3** Implementation of Document and Record Management System for archival and management of scanned documents in secure environment with web based interfaces for restricted searching and viewing of documents from anywhere at any time
- 5.6.7.4** Implementation of Record Management System for managing complete lifecycle of the document, physical location tracking of the documents / records
- 5.6.7.5** Mapping of relevant business processes. The bidder shall map and implement

10 business processes in the two identified organizations and train expert users who shall continue to map and implement additional processes

5.6.7.6 Implementation of the document management module

5.6.7.7 Integration with existing Systems

5.6.7.8 Maintenance and manufacturer backed support for at least 2 years including warranty

5.6.7.9 Knowledge transfer during entire project life cycle with specific signoffs for each component.

5.6.7.10 User Acceptance Testing (UAT) - to be performed for all major system components with specific signoffs

5.6.8 Solution compatible with any scanner.

5.6.8.1 The solution should be compatible with any scanner to allow the entities to scan documents into the system

5.6.8.2 The solution should be capable of document management, Workflow management, Document Archival, Document Acquisition, memo and letter management and integration with existing Systems.

5.6.8.3 The proposed solution shall be DOD 5015.2 or ISO 15489 record management standards compliant.

5.6.9 Key Parameters

Parameter	Value	Comments
Users	500 users	ICTA and the ministry has 500 staff. This number will grow to cover all the MDAs over time.
Key processes	10	Eight processes for each organization to be configured by vendor, The functional support

		team to continue with the others
System administrators	5	To be trained on EDMS Software
Trainers to Be trained	20	
Stations to be deployed	HQ plus 2 Branches	Plan for 2 regions, allocating a week each for training

Scanning of existing Document	<ul style="list-style-type: none"> i. Provide the necessary scanning and indexing software ii. Interface into the Electronic Document Management system for document storage iii. Retrieve, scan, index and reinstate the documents under the supervision of officers from the organization iv. Train ICTA identified staff to continue with the scanning and how to access the indexed documents 	
License type	Perpetual	The licenses should be one off and should not limit the number of users that can be defined in the system. The other MDAs will be onboarded subsequently

5.6.10 Project Phases

The EDRMS that is to be implemented must serve various MCDAs who have diverse requirements and support registry teams in various stages of document management i.e from creation to archiving.

The vendor will be required to develop the EDRMS workflow which entails the following

5.6.10.1 Improve and enhance the content strategy.

Before you can design an effective EDRMS workflow, you need to have a. Vendor will work with ICTA staff to enhance the document digitization strategy by defining the goals, the type of document needed, defining the staff who are responsible for planning, how to create and govern document flow in the various MCDAs while considering the user experience.

5.6.10.2 Interview content stakeholders.

Vendor will deploy a system that meets both business and users' needs (editorial team). The vendor will be required to meet with each of content stakeholders, including content creators, editors, reviewers, approvers and anyone who interacts with content to be able to gather the various needs and develop a blueprint.

The vendor in liaison with ICTA staff and users, will document current process for creating and publishing content, describe the elements of publishing that work well for them and ones that are problematic. This is to make sure the EDRMS workflow maintains the processes that do work and improves upon the ones that don't.

5.6.10.3 Define EDRMS roles.

In order to setup EDRMS workflow, vendor will be required to define the roles involved. Different roles require different tasks. The vendor will create a list of all the different roles involved in document flow process, including requesters, creators, editors, approvers, and other roles that may need to be added later on. List all EDRMS stakeholders under these EDRMS user-roles. Vendor will be required to come up with a framework for EDRMS roles to enable EDRMS workflow planning.

5.6.10.4 Conduct an EDRMS task audit.

Based on the approved document flow and identified EDRMS stakeholder needs, vendor will be required to identify and document all the tasks (steps) involved in the workflow process and even steps that exist outside of the EDRMS.

- Example of questions to ask in helping to document are:
- Where does process start and end?
- What is your document ecosystem?
- After each step in the document flow, what do you need for the next step to begin? What are the dependencies for each task? (e.g., what needs to happen before step 3 of 5 can begin?)

5.6.10.5 Map out the EDRMS tasks.

Define the relationship of various tasks and put them in context. Map out the EDRMS tasks and design a visual task flow chart to ensure that there are no missing steps. Fine tune the mapping by considering various applicable scenarios

Mapping out tasks should lead to re-evaluating EDRMS workflow requirements. The vendor should advise in reevaluating the viability of existing policies and processes to support the approved process.

5.6.10.6 Integrate other tools into EDRMS workflow.

There is need to make reference to existing standards and guidelines such as: file name conventions, editorial style guidelines, standards for file formats. Where this standards and guidelines don't exist, the vendor is required to propose and implement the world wide acceptable document standards.

5.6.10.7 Test EDRMS workflow.

After vendor has done EDRMS stakeholder needs, defined roles, conducted a task audit, created a task analysis map, added training documentation and document workflow checklists, the vendor has to test the solution.

5.6.10.8 Conduct UAT Gain support for EDRMS workflow

The secret to gaining support for EDRMS workflow is involving stakeholders in the planning process and ensuring that it meets their needs as well as yours. Don't start the planning process with EDRMS user guide. Start with document flow strategy. Start with the stakeholders. Start with identifying what you need it to do — then design the EDRMS workflow to make it happen.

EDRMS workflow helps ensure accountability so that people will take responsibility for their work. It protects against ambiguity about who is responsible for what and where.

5.6.10.9 Project plan

From the above description, the Project is organized into eight (8) stages as listed hereunder:

- **Stage 1:** conducting feasibility, understanding the processes and developing the content strategy requirements
- **Stage 2:** Interview stakeholders and document the document management processes and Create user requirements blueprint
- **Stage 3:** defining of the EDRMS roles, conduct EDRMS task audit and document all the tasks/steps. Map out all the EDRMS tasks and come up with the task flow chart.
- **Stage 4:** Development/customization and configuration of the templates and EDRMS workflow and Integrate the identified content planning tools into the EDRMS workflow
- **Stage 5:** Preparation of the required hardware provided by ICTA to ensure smooth implementation of the proposed software solution. System installation, implementation and Testing of different scenarios.
- **Stage 6:** Digitize existing manual files to the new EDRMS platform
- **Stage 7:** Provision of training to all the relevant groups in the ICTA and MCDAs (Technical, administrators, super users, document managers and other stakeholders).
- **Stage 8:** Hand over and Provision of system Maintenance and Support during and after completion of Stages 1-7 for 12 months (potentially extendable for another six months) period.

All documentation to be delivered as part of this Contract must be in English and in soft copy (PDF) and hard copy.

5.6.11 Deliverables and Acceptance Process

No.	Stages	Project Deliverables
1.	Stage 1	Feasibility report, content strategy requirements document and System technical Design Document
		Full detailed project plan including work plan & Gantt chart
		Certificate of Acceptance and Sign Off for content strategy requirements document, System technical Design Document and project plan
2.	Stage 2	User requirements blueprint document and the content management processes
		Prototype test sites based on the blueprint.
		Certificate of Acceptance and Sign Off for user requirements blueprint document and the content management processes and prototype system
3.	Stage 3	EDRMS roles report ,
		EDRMS task audit (tasks/steps) document
		Map out all the EDRMS tasks and come up with the task flow chart.
		Certificate of Acceptance and Sign Off for the EDRMS roles, tasks and task flow chart.
4.	Stage 4	Development/customization and configuration of the Document flow design templates and EDRMS workflow and Integrate the identified tools into the EDRMS workflow
		Certificate of Acceptance and Sign Off for the end to end configured EDRMS system including all templates ,roles, tasks and workflows roles as per standards and guidelines
5.	Stage 5	Hardware configuration ready for installation of the proposed software solution.
		System installation, implementation and end to end system testing and testing of different scenarios
		Test report for the integrated system(end to end)
		User Acceptance Test Cases/Scripts and UAT Plan
		Certificate of Acceptance and Sign Off for full installation, end to end functional testing report, different scenario testing report ,Approved UAT Report
6.	Stage 6:	Digitization of all the existing files to the new EDRMS platform
		Certificate of Acceptance and Sign Off for full migration and customization of all the existing websites, end to end content management workflow testing
7.	Stage 7:	Approved Training Plan
		Provision of training to all the relevant groups in the ICTA and MCDAs (users, technical, administrators, super users and other stakeholders).
		User and Training Manuals

		Operational Manuals for all Hardware and Software
		Technical Manuals and Training Manuals for the System configuration
		Certificate of Acceptance and Sign Off for training documents and training reports.
8.	Stage 8	Handover plan
		Maintenance and Support plan for 12 months warranty period (potentially extendable for another six months) period.
		Certificate of Acceptance and Sign Off for handover and maintenance/support documents and SLA
9.	Ongoing	Bi-weekly Project Status Reports
		Monthly Progress Reports for Executive Steering Committee

TECHNICAL SPECIFICATIONS

6.1 The Records Management Business Requirements cover the physical management of records and the intellectual management of the information contained in records.

Records are subject to actions and processes. They are created, identified, documented, stored, physically transferred, preserved, protected, retained and disposed of. In this document, these actions and processes are addressed in the following three sections:

6.1.1 Section 1, “Location Management” relates to the physical management of records in order to access and use them.

6.1.2 Section 2, “Preservation Management” relates to the physical and intellectual maintenance of records in order to preserve the information they contain.

6.1.3 Section 3, “Scheduling Management” addresses how the information contained in records must be managed. Records move through a lifecycle during which they are assigned a status of active, semi-active, or inactive based on a records retention and disposition schedule. This schedule assigns a value to a record that is reflected in its retention period and final disposition. Scheduling management relates to the intellectual management of records in accordance with their values.

In addition, this document contains a glossary of terms (see Definitions, below) that serve to clarify the specific meaning of the terminology used to describe records management business requirements.

6.1.4 Definitions

Terms with specific meaning within the Business Requirements document are defined below.

6.1.4.1 Document is defined as information consigned to a medium. This includes “anything on which there is writing...marks, figures [or] symbols.” (New South Wales, Australia – Evidence Act 1995). Documents fall into one of two sub- sets:

- documents that are also records, or
- documents that are not records.

6.1.4.2 File is defined as the logical entity used to organise and manage records. A file manages a group of records that together provide evidence of a complete transaction or a collection of reference material. A file is not a physical entity. Retention and disposition schedules are applied to records at the file level.

6.1.4.3 File Series is defined as a collection of files that are managed under one primary-secondary classification and have the same scheduling requirements.

6.1.4.4 Final Disposition is defined as an action applied to eligible files by destroying them, transferring them to the permanent custody of the government archives, or alienating them from the Crown provincial. Files are eligible for final disposition when their active and semi-active retention periods have elapsed. The records schedule designates the appropriate type of final disposition for a file.

6.1.4.5 Life cycle is defined as the changes of a file's scheduling status, which moves from active to semi-active to inactive.

6.1.4.6 Location is defined as the physical location of a file's volume or volumes. The location of a file's volumes does not affect the file's scheduling status.

6.1.4.7 Location management is defined as managing records so they can be identified, documented, located, viewed, retrieved, copied, and secured from unauthorised access.

6.1.4.8 Preservation management is defined as managing record media (paper, electronic, micrographic, photographic, cartographic, or any other media) in order to protect records from loss, damage or degradation. It is also defined as managing recorded information to ensure its authenticity and context as it moves from one media or carrier to another.

6.1.4.9 Record is defined as "recorded information, in any form...created or received and maintained by an organization in the transaction of business ...and kept as evidence of such activity." (Australian Standard AS 4390-1996, part 1, clause 4.21) In the BC government, the record is the indivisible unit for records management processes.

6.1.4.10 Records Classification and Scheduling System organizes files into functional groupings for filing and retrieval (classification) and assigns retention periods and final dispositions to classified records (scheduling). These systems are referred to as integrated classification and scheduling systems, as opposed to systems that provide either classification or scheduling but not both. ARCS and ORCS are examples of integrated systems.

- 6.1.4.11 Retention and Disposition Schedule** is the length of time a file is to be retained and the type of final disposition that is applied to it. In an integrated classification and scheduling system (ARCS/ORCS), retention and disposition schedules are linked to secondary classification numbers.
- 6.1.4.12 Retention Period** is the length of time a file is retained, and is determined by the retention and disposition schedule. The file may be disposed only after the active and semi-active retention periods that apply to it have elapsed.
- 6.1.4.13 Scheduling Management** is defined as managing the retention and disposition of files in accordance with their scheduling requirements.
- 6.1.4.14 Scheduling Status** is defined as the status of a file in accordance with the retention and disposition schedule that applies to it. A file may have a scheduling status of active, semi-active, or inactive. A file is eligible for final disposition when it is inactive.
- 6.1.4.15 Volume** is defined as a component of a file. A volume contains records, and may exist in any media or format (e.g. file folder, electronic folder, microfilm roll, map drawer, and so on). Volumes are often referred to as folders, enclosures, directories, supplements, or sub-files. All these terms refer to the components of a file, and are covered by “volume” in these Requirements.

6.1.5 BUSINESS REQUIREMENTS – LOCATION MANAGEMENT

Ministries must manage their records regardless of media or format or on-site or off-site storage location. Essential to the management of records is the ability to locate, view, retrieve, copy and control access to records, regardless of their scheduling status.

6.1.6 Record Creation or Receipt

- Upon receipt or creation, records enter the records management system. Records provide documentary evidence of the ministry’s activities in performing the functions for which it is responsible.
- A record may be copied, but the act of copying creates a new and unique record.
- Records should be created or received in media or format appropriate to the way they are used and which meets the requirements of their scheduled retention and disposition. If they are not created or received in appropriate media, they must be converted or migrated to appropriate media or format.

6.1.7 Identifying and Documenting Records

- Records are documented so they can be identified, retrieved and managed. Records in all media and formats must be documented.

- Records must be classified in accordance with an established classification system.
- Ministries must create indexes, file lists, or other finding aids documenting the attributes of all files and their physical components (volumes) to ensure they can be retrieved and the ministry's record holdings are documented.
- Classification and indexing systems must establish and use controlled language.
- All the volumes relating to a file must be documented.
- Documentation may be amended or corrected.
- Documentation must be updated when one or more of a file's volumes are moved.

6.1.8 Profile Information (Metadata)

- Ministries must maintain profile information for records, volumes and files in order to ensure they can be located. Profile information identifies the unique attributes of records, volumes and files. Attributes include:
- Classification number (the primary-secondary classification)
- Classification title (the primary-secondary title)
- Code and code title, including sub-codes if applicable. Codes differentiate between files with the same classification number in the same office, or are added to a classification number to facilitate retrieval.
- Record date range (the date of the first and last record in each volume of a file, and the first record and last record dates for the entire file)
- Media and/or format (what physical format or formats are the records in?)
- Physical location (where are the records/volumes located? This will include some or all of the following: building, floor, room, shelf or other housing unit, drive, directory, storage media [CD, tape, etc.], container, accession number, commercial storage facility, or other information relating to the physical location of records and volumes)
- Keywords (words or phrases that allow a user to search for specific files. Depending on technology, keyword searches can be performed by automated records management systems, automated document management systems, automated or manual indexing systems or other methods and tools). Effective keyword searching relies on a controlled vocabulary.

6.1.9 Record Maintenance

Files, volumes and records are the components maintained through records management in the BC government.

- A file is not a physical entity. It is the classification and scheduling unit for the records linked to it.
- A volume is a physical entity. It is the physical component of a file.
- A file consists of one or more volumes.
- A volume is maintained in one location.
- Different volumes of one file may be maintained in different locations.
- A volume contains one or more records.
- A record is the indivisible unit for managing recorded information. Records management business requirements do not cover unstructured data or information.

6.1.10 Searching For and Retrieving Records

Ministries search for records in order to retrieve and use them. Finding aids must be created and maintained in order to ensure records can be located and retrieved. Finding aids include file lists, box lists, keyword indexes, registers, ARCS/ORCS or other attribute information that leads users to the files and records they require. Finding aids may be searched manually or through the use of automated search tools.

6.1.11 Access Security

Records in all media or formats must be protected from unauthorized access. This includes records maintained in government offices or on government networks and drives, records maintained in contracted records storage facilities, records maintained on internet or intranet websites, records created by members of the public accessing government services through electronic means, records created by contractors working for government, or other government records maintained in any media or location.

- Access categories must be determined and assigned to record types.
- Access must be restricted in accordance with assigned access categories.
- Designated record documentation (e.g., file lists containing identifying information) must be protected from unauthorised access.
- Records must be protected from unauthorised physical access and unauthorised access through electronic systems.
- Records are located and retrieved by authorised individuals.

6.1.12 Transferring Records to Another Location

Records may be transferred from one location to another. A file's volume is the physical entity that is transferred. Hardcopy volumes are physically moved to other locations, and electronic volumes are migrated or transferred. Volumes may be moved within an office, between offices, to and from off-site storage facilities, to and from electronic drives, directories or networks, or temporarily charged out by individuals.

- The new location of a volume must be documented.
- Volumes of one file may be transferred together or individually.
- Accession information must be created and maintained so ministries can locate and access records transferred to off-site storage facilities.

6.2 BUSINESS REQUIREMENTS – PRESERVATION MANAGEMENT

Records must be preserved for as long as the provincial government requires them to meet its operational, legal, audit, financial, historical, or other responsibilities. The information maintained on records must also be preserved to ensure it retains its context and authenticity for as long as the government requires the records. Preservation management relates to the physical preservation of record media and the intellectual preservation of recorded information.

6.2.1 Physical Preservation of Records

Records must be maintained in a way that protects them from loss, damage, degradation, loss of information, and other threats to their physical integrity and the integrity of the information they contain.

- Records must be maintained on media and in formats that ensure they are readable and accessible for the duration of their active and semi-active retention periods.
- Records scheduled for full or selective retention by the government archives must be maintained on stable media appropriate for permanent retention.
- Records must be housed in environmental conditions that meet their preservation, retrieval and security requirements.
- The record format or media must not compromise the ministry's responsibilities or ability to use the information it contains (e.g., the use of any kind of "lossy" or destructive compression technology that permanently alters the data within the record or datafile, or utilize or introduce additional compression/decompression cycles with data formats that utilise lossy compression techniques).
- Records must be maintained in physical containers appropriate to their media or format.

6.2.2 Intellectual Preservation of Records

The context and authenticity of records must be preserved for as long as the government has responsibilities for the information they carry.

- Profile information must be linked to records in a way that ensures they are identifiable and authentic, and the context of their creation and use is maintained
- Records moved to different media or electronic records moved across carriers must maintain their context and authenticity.

6.3 BUSINESS REQUIREMENTS – SCHEDULING MANAGEMENT

Ministries must manage records in accordance with their values. These values are reflected in the retention periods and final dispositions established by ARCS, ORCS, and other records retention and disposition schedules. Specific individuals are delegated the authority to apply scheduled retention periods and final disposition to records.

A file is linked to a scheduled retention and disposition schedule through a classification number. A file moves through its life cycle over time, its status changing from active, to semi-active to inactive. The scheduling status of a file is determined by its retention and disposition schedule.

- The location of the file's volumes does not affect the file's scheduling status.
- All records and volumes of a file follow the same retention period and final disposition.

6.3.1 Scheduling Management – Active Records

Active status is the first phase of the file's lifecycle. The retention and disposition schedule that applies to the file determines the length of the active phase.

6.3.2 Records Classification

A record that has been created or received is classified to a file. The file is linked to the retention and disposition schedule through its classification.

- A record is classified and added to a volume. The volume is linked to the file.
- When a file is classified, the appropriate retention and disposition schedule must be applied to it.
- A file is linked to one retention and disposition schedule.
- A classification is linked to one or more retention and disposition schedules.
- The classification function includes determining the office of primary responsibility (OPR) status of the file.
- Different retention and final disposition schedules may be applied to OPR/non-OPR files.

6.3.3 Active Status

Active status is the first phase of a file's scheduled life cycle.

- A file is opened when the first record is created and filed.
- A file is active until the end of its scheduled active retention period.
- Active status is designated at the file level and applies to all volumes and records within the file.
- The retention and disposition schedule determines the active retention period.
- The scheduled retention and disposition assigned to a file may be changed during its active phase.

6.3.4 End of Active Status

Files cease to be active when the scheduled active retention period elapses.

- The active retention period may end after a predetermined period of time, or upon the occurrence of a defined trigger event, or when the ministry makes a decision that the file is no longer required for current usage.
- The end of the scheduled active retention period is the "scheduling date" used to calculate when the file is eligible for final disposition.
- The date of the last record of a file may or may not be the same as the date on which the file's active retention period elapses.
- A file with a semi-active retention period of "nil" (i.e., there is no semi-active retention period) moves to the end of its active and semi-active status at the same time.

6.3.5 Scheduling Management – Semi-active Records

When the active retention period elapses, a file's scheduling status changes to semi-active. Semi-active status is designated by the records retention and disposition schedule. Ministries retain their responsibilities for and legal custody of semi-active records.

6.3.6 Applying Semi-active Retention Schedules

The date the active retention elapses and the file becomes semi-active is called the "scheduling date". This date is used to calculate how long the file is retained and when it is eligible for final disposition.

- The semi-active retention period is determined by the schedule.
- A file must be retained for the entirety of its semi-active retention period.
- A file should not be retained past the end of its semi-active retention period.
- Semi-active retention periods are applied at file level. All volumes within a file will

have the same scheduling status and be retained for the same period of time.

- When files are stored in fixed containers, the semi-active retention period is the same for the entire container.
- A semi-active file may be reactivated back to active status.
- The scheduled retention and final disposition of a file can be changed while it is semi-active.

6.3.7 End of Semi-active Status

Files and file volumes reach the end of their semi-active retention period.

- A file changes status from semi-active to inactive when its semi-active retention period elapses.
- All volumes within a file change status at the same time.

6.3.8 Scheduling Management – Inactive Records

When the scheduled semi-active retention period has elapsed, a file reaches inactive status. An inactive file is eligible for scheduled final disposition. The type of final disposition is determined by the records retention and disposition schedule. Final disposition types are:

- destruction,
- transfer to the legal custody of the government archives, or
- alienation of the records from the Crown provincial.

6.3.9 Applying Final Disposition to Inactive Records

Scheduled final disposition is applied to all volumes of a file. Final disposition should be applied to a file when it is eligible (once it has reached inactive status), unless a halt or hold to final disposition action is required.

- Final disposition actions applied to files must be documented.
- Final disposition action can be halted or deferred if the inactive file is required past its eligible disposition date for litigation or for freedom of information requests.
- A designated individual must authorise final disposition.
- When files are stored in fixed containers, final disposition is applied to the entire container.

6.4 EDRMS Solution

6.4.1 EDRMS Solution

The EDRMS will consist of a single suite of applications covering required document and records management functions for both electronic and physical records, with full integration among application components.

Note: Unless otherwise indicated, the requirements specified apply to the EDRMS as a whole. The requirements may be met with a single application or a combination of separate applications (e.g., applications for document management, management of electronic records, and management of physical records, etc.) comprising the integrated EDRMS suite.

6.4.2 Enterprise-Wide Scope

For each defined government organization (e.g., each ministry), the EDRMS will support integrated management of all common forms of electronic office records (e.g., MS Office and Outlook records) and all forms of hardcopy records. The EDRMS will be extensible to cover other electronic record types (images, database reports, voicemail, etc.).

The EDRMS will support easy transfer of records and records information (metadata) among organizations (e.g., from one ministry to another during government re-organizations).

The EDRMS will enable on-line searching of records information across organizations and across records repositories throughout the government.

The EDRMS will enable the origination of memos, letters and any other document and allow the record to follow the defined workflow up to the end including the relevant approvals and editing.

The EDRMS will have a Helpdesk module to manage client's issues and concerns while they are using the system.

6.4.3 Interfaces with Other Central Applications

Records scheduling and classification data is expected to be maintained on a central, government-wide ARCS/ORCS database for each of the MDA, external to the EDRMS. The EDRMS suite will seamlessly interface with or use the data contained in the ARCS/ORCS database for its records classification and scheduling functions.

EDRMS will manage data and processes of archival records.

The EDRMS will provide the government with a common document and records

management infrastructure, integrated with the current standard office applications and infrastructure and with current/emerging document-related applications.

6.4.4 Integrated Management of Electronic and Physical Records

The EDRMS will support management of both electronic and physical records in accordance with the existing government governance requirements and the records management business requirements as will be defined.

The EDRMS will enable the authenticity, integrity and accessibility of electronic records to be maintained over time (e.g., decades), across systems (e.g., migrations to new versions of the EDRMS software; export to other systems) and across formats (e.g., export to non-proprietary formats for archival preservation).

The EDRMS will support government requirements and processes for the management of physical records and the batch transfer of records containers to central offsite storage facilities and/or archival custody.

The EDRMS will maintain standard metadata about electronic and physical files and volumes (including hybrid files consisting of both electronic and physical volumes); will maintain standard metadata about records (i.e., as records profiles); will maintain audit trails of actions taken on records; and will ensure security of records.

6.5 TECHNICAL SPECIFICATIONS CHECKLIST:

This checklist does not exclude the other requirements mentioned in the whole bid document in the various sections. Bidder will be required to respond to all requirements in the format given below.

6.6 Technical Responsiveness Checklist

6.6.1 Note to Bidders: The following Checklist is provided to help the Bidder organize and consistently present his Technical Bid. For each of the following Technical Requirements, the Bidder must describe how its Technical Bid responds to each Requirement. In addition, the Bidder must provide cross references to the relevant supporting information, if any, included in the bid. The cross reference should identify the relevant document(s), page number(s), and paragraph(s).

6.6.2 The Technical Responsiveness Checklist does not supersede the rest of the Technical Requirements (or any other part of the Bidding Documents), it serves as an example to how you need to respond to the bid. If a requirement is not mentioned in the Checklist that does not relieve the Bidder from the responsibility of including supporting evidence of compliance with that other requirement in its Technical Bid. The bidder is required to respond to all the requirements mentioned in all the sections in the entire bid document.

6.6.3 One- or two- word responses (e.g. "Yes," "No," "Will comply," etc.) are normally not sufficient to confirm technical responsiveness with Technical Requirements.

The column headed "M/P" on the checklist depicts "Mandatory" and "Preferred" attribute of the requirement respectively.

6.6.4 Bidders shall use the following options to indicate the "DEGREE OF SUPPORT OF COMPLIANCE" their solution provides for each of items listed in this section:

6.6.4.1 FS - (Fully Supported) the system fully supports the requirement without any modifications.

6.6.4.2 PS - (Partially Supported) the system supports the requirement with use of a system or workflow workaround.

6.6.4.3 NS - (Not Supported) the system is not capable of supporting the requirement and cannot be modified to accommodate the requirement.

6.6.4.4 Please tick the appropriate column to indicate one of the responses listed above for each item and add as many comments, as you may feel relevant in the "BIDDER'S TECHNICAL REASONS SUPPORTING COMPLIANCE" section.

6.6.4.5 The requirements in the matrixes below will be evaluated in two on a mandatory basis (YES/NO). The matrixes does not exempt the bidder from responding to all the requirements mentioned in all the sections of this tender document.

6.6.5 TRAINING

Training and Skills/Technology Transfer

As part of the implementation process, it is the hope of ICTA that its implementation personnel can gain significant expertise in both the technology used by the application as well as the inner workings of the application itself. It is our requirement that you ensure that the appointed teams are familiar with all aspects of your solution. Capacity building is necessary to build competence and to institutionalize the usage of the platform within the MDAs.

Item No	Features	Minimum Requirements	FS/PS / NS	Bidder's Response	Reference Pages in brochure /document
	Technical Skills Assessment	The bidder is expected to explicitly state the technical skills of its staff required to successfully implement and sustain the System. Attach CVs and certificate copies			
	Methods of Training and Skill Transfer	The bidder is expected to elaborate on their proposed training methods to be used for skills transfer which will ensure that MINISTRY has enough internal capacity to maintain and use the System.			
	Training Curriculum	The bidder is expected to provide the training curriculum to be used to train at least thirty (30) business users on use of the system. These users will then train other end users (Training of Trainers concept) The training curriculum shall adhere to the functional requirements.			
	Admin/Technical Training	The bidder is expected to provide the training curriculum to be used to train at least ten (10) IT technical users (administrators and support staff)			
	Training Evaluation	The bidder is expected to provide a methodology of evaluation of the training, learning and skills transfer.			
	Training facility	All trainings must be provided at an			

		accredited center. Bidders shall propose training site and location and this shall be in agreement with the purchaser.			
	Training materials	<p>(i) The Vendor shall develop training materials illustrated in English with screen shots of all user interfaces of the application. The training materials must be designed to also facilitate Training for Trainers approach, and must be developed with a view that they can be used by Ministry staff in conducting future training. The bidder is expected to provide all trainees with training material both soft and hard copies.</p> <p>(ii) The Vendor must maintain and update all documentation for any system changes performed by the Vendor during the contract period and any negotiated extensions at no cost to the client.</p> <p>(iii) The Vendor must agree that the Ministry shall have the right to copy all documents for internal distribution.</p> <p>(iv) The Vendor shall propose a method of ensuring efficient document control. The Vendor shall provide the details of a Knowledge Coordination Approach which indicates the specific formats (versions) and procedures for all documentation to be disseminated amongst the client project team.</p> <p>(v) The Vendor must ensure that a detailed User Guide is provided</p>			

		<p>with the system. Context-sensitive Help screens (help narratives) within the system are also required.</p> <p>(vi) In addition to the full User Guide referenced above, the Vendor will be required to provide a “Quick reference guide”, preferably in the form of a small booklet. The objective is to provide a structured, user-friendly, means to help a user perform a task. It is expected that this guide will focus on providing “how-to” essentials of the key everyday functions without the user having to peruse the main document.</p> <p>vii) In order to ensure sustainability, it is expected that within the proposed twelve (24) months of post-implementation, knowledge transfer will be completed and identified ICT officials of the Ministry will be fully trained so that Ministry is able to maintain and operate the system independently without Vendor support.</p>			
	Experienced trainers	<p>The bidder should possess experienced trainers to be able to transfer knowledge to Ministry’s staff. The successful bidder should provide a detailed Training Schedule for their solution, detailing the training approach and methods, location, and curriculum as well as indicated the cost of training in the price schedule.</p>			

6.6.6 Testing plan

The Vendor should describe in details in their proposal the testing environment and methodology to be used prior to handing over the system for client user acceptance testing (UAT). The Client expects the following test cycle to include:

Item No	Features	Minimum Requirements	Bidder's Response	Reference Pages in brochure /document
System Testing				
	General	<ul style="list-style-type: none">• Create test cases and test data.• Manage the test environments and associated test data from an applications perspective.• Ensure that all testing activities conform to the requirements of defined Change Control procedures.• Perform unit and system testing and document results.• Perform integration, stress, and regression testing and document results.• Perform data migration and data conversion tests.• Review and approve results of all testing activities.• Develop and conduct user acceptance, quality assurance (QA) testing and document results.• Assist in conducting and documenting user acceptance and QA testing.• Review testing results to identify variances between documented requirements and provided functionality and usability.• Review testing results for compliance with policies,		

		<p>procedures, plans, and metrics (e.g. defect rates, progress against schedule, etc.).</p> <ul style="list-style-type: none"> •Correct defects identified during the testing efforts. •Prepare application(s)/module(s) for migration into INPRS production environment. 		
	Unit Testing:	The vendor will carry out the unit testing in house to make sure each component and module of the system functions as designed.		
	Integration Testing:	After all modules of the system are developed, integration testing is carried out to make sure that all modules function and perform as expected when working in combination.		
	Load testing:	Since the application will be used by a large number of users in future, load testing will be performed to see how the system performs under heavy loads. This may require fine tuning the web server, application, application server, and/or the database server or network configuration and load balancing.		
	Recovery Testing:	One of the important aspects of an application is how well it can recover in case of a system failure, server shutdown, or service failure. Tests will be carried out to see how well the system recovers from crashes and hardware failures.		
	Security Testing	it is necessary to perform detailed security testing of the system. This involves a complete penetration test to make sure the application and the server is not vulnerable to any type		

		of attacks such as SQL injection attack, XSS attacks etc. This will be done by using threat detection and vulnerability scanner software		
UAT testing approach				
	Usability Testing	The client will test the navigation between screens, user-friendliness and workflows of each of the screens. Against this, if deficiencies are identified the interface maybe redesigned during this testing Stage based on feedback from the Client.		
	Functional Testing:	A complete end to end functional testing cycle will run. During the functional test, actual processes, and all key services provided by system will be tested against the business requirement, (end to end) to see if the system meets the requirements as described in the in the RFP document and stores data and generate reports properly.		
	Acceptance Testing	An end to end functional and quality of service (including security, performance and robustness) will be complete by ministry to any system sign off.		
	UAT Test Script	An end to end functional and quality of service (including security, performance and robustness) will be complete by ministry prior to any system sign off.		

6.6.7 Implementation Approach Work Plan and Methodology

Item	Features	Bidder's Response	Reference Pages in brochure /document
Implementation Approach Work Plan and Methodology	<p>The bidder is expected to indicate a detailed project implementation strategy/plan and methodology that will allow both the bidder and the client to be part of the delivery to ensure holistic delivery of the product as well as highlight the Work Plan(s) to deliver and commission the system</p> <p>In this regard, Bidders are required to propose the main activities of the assignment, their content and duration, phasing and interrelations, milestones (including interim approvals by the Client), and delivery dates.</p> <p>Bidders are required to describe their technical approach and methodology to deliver this assignment, to realize the expected output.</p>		
Demonstration	The bidder is expected to be able to demonstrate the features of the proposed platform upon request during evaluation.		
References	<p>The bidder is expected to give a list of references to show that they have been in the business of system implementation that span across a several locations. (centralized system supporting several branches). The systems must have more than 6 modules. The bidder is required to attach the LPO/Contract, completion certificate and recommendation letter as a proof . The Evaluation team may contact these references or pay them a visit to ascertain level of implementation and customer satisfaction.</p>		

6.6.8 BUSSINESS TECHNICAL REQUIREMENTS

The technical requirements have been divided into two for purpose of evaluation ,namely: Mandatory and scoring (value marks)

**6.6.8.1 THE REQUIREMENTS BELOW WILL BE SCORED ON MANDATORY
(YES/NO)**

NO.	REQUIREMENT	SCORE	FS/PS / NS	BIDDER'S TECHNICAL REASONS SUPPORTING COMPLIANCE	BIDDER'S CROSS REFERENCES TO SUPPORTING INFO IN TECHNICAL BID
General					
1.	Software License: The License(s) of the proposed solution shall be perpetual license. (one off) and should not limit the number of users that can be defined in the system. The other MDAs will be onboarded subsequently <ul style="list-style-type: none"> To start with the bidder is to provide licenses based on concurrent to run 500 users, but scalable in future, 1 	M			
2.	Functional Interface: <ul style="list-style-type: none"> The system should be web based and accessible through the commonly used web browsers The System shall support Web based interfaces, Desktop interface, mobile interface. The system should be platform independent and should support both Linux and Windows platform. It should support both these platforms with or without virtualization. 	M			
3.	Enterprise Database: The proposed database shall be an Enterprise Database with perpetual Licenses	M			
4.	Enterprise Operating System: The proposed solution should run on an Enterprise Open Source Operating System in line with the National Information Communication Technology (ICT) Policy and Guidelines 2020, and the National ICT Standards, 2020.	M			
5.	System Security: The solution should have comprehensive inbuilt security controls at all the system levels including but not limited to Operating System, Application and Integration, Transactional and Database-level security.	M			
6.	Scalability: The solution should be scalable by allowing phased implementation of additional modules, unlimited number of users, ability to scale up as and when new applications and services are added and transaction volumes increase, provide for Scale-Up and Scale out on the platform, Web Servers, Database Servers, Application Integration Servers, Business Intelligence (BI) and all other solution components and be adaptable with changing technology	M			
7.	System integration: Tenderer to provide an Integration strategy.	M			
	The EDRMS will consist of a single suite of applications covering required document and records management functions for both electronic and physical records, with full integration among application components.	M			
	The system must provide an extendable API generating engine to allow for integration with existing and new systems (The System shall provide fully functional APIs for Integration.)	M			
	Inter-operability:-system must seamlessly integrate with any or all of the existing legacy and Core applications and shall support interface with other standard systems. <ul style="list-style-type: none"> The system should be scalable and flexible to integrate with any number of systems in pilot phase and in production phase. ICTA technical team to be empowered to perform integrations without vendor intervention	M			
	The System should enable documents to be sourced through: Web Interface, Mobile, Core Desktop, Applications, E- Mail / Fax	M			

NO.	REQUIREMENT	SCORE	FS/PS / NS	BIDDER'S TECHNICAL REASONS SUPPORTING COMPLIANCE	BIDDER'S CROSS REFERENCES TO SUPPORTING INFO IN TECHNICAL BID
	The System should support integration based on standards such as XML, JSON	M			
8.	System alerts and notification: The system should send functionality and availability alerts to the administrator and should have self-healing features in case of an error, and enable Error logging	M			
9.	Business Continuity Plan: The solution should have comprehensive business continuity plan with Schedule of backup, Real-time replication at both primary and secondary sites, Recovery Point Objectives (RPO) – near zero time, Recovery Time Objectives (RTO) – 2 hours, and backup with a configuration to Active-Active to achieve the objectives above. The Admin module shall provide facility to take complete and incremental backups and shall be able to integrate with third party backup solutions.	M			
	Backup & Replication <ul style="list-style-type: none"> The system should provide mechanism for defining automated / unattended system and database backup both to local and remote backup storage. The system should define deployment architectures that address replications strategies that'll will achieve high availability of the system Disaster recovery: The bidder will be required to configure the replication site	M			
10.	Business Intelligence, Reports and Dashboards: Use of Business Intelligence (BI) Applications (Big data and block chain) to Enable better decision making across the entire Government via pre-built reports, end-user reporting tools, ad hoc queries, pre-built dashboards, pre-built performance metrics and analytics, and much more to give 360-degree view and produce factual information for decision making.	M			
	The system should incorporate report generating engine/ tools for data analytics (standard and ad-hoc) which can be exported to various file formats.	M			
	The system shall support extensive reporting facility at document, folder and user level. Please specify all inbuilt reports available in the system and also provide effort estimates for new Custom reports to be designed	M			
	Solution should provide reports at minute and global level on the Records in the selected file plan component such as <ul style="list-style-type: none"> number of records present, number of record folder, Record creation date, etc Report on activities of the selected user Report on the Request/Return activities Report on overdue items Reports on records, whose retention period are getting over in specified time Reports on disposition schedule 	M			
11.	Enterprise Architecture for the System: The solution should support an open, scalable, multi-tier architecture with each tier fully independent with support for clustering. To allow for Security, Easy to manage, Scalability, Flexibility Proposed: having centralized database, web and application server with support for clustering (3-Tier Application (Web – Client, Application Server, Database Server)	M			

NO.	REQUIREMENT	SCORE	FS/PS / NS	BIDDER'S TECHNICAL REASONS SUPPORTING COMPLIANCE	BIDDER'S CROSS REFERENCES TO SUPPORTING INFO IN TECHNICAL BID
12.	Training and Knowledge Transfer Plan: The Tenderers should provide skills and knowledge transfer plan for implementation after go-live and during the support and maintenance period.	M			
13.	System Testing and Quality Assurance Sub-Plan: The Tenderer should provide test plans and detailed testing procedure using test cases, different test scenarios, scripts and test data in reference to section 6.6.6	M			
14.	Proposed Hardware: The system will be hosted on premise and therefore Tenderer will be required to provide the indicative minimum hardware specifications required for the optimum operation of their proposed solution. All software that will enable the running of the system should come coupled with the solution.	M			
15.	System support and SLA: The tenderer to provide an SLA sample. Tenderer shall provide at no additional cost to the Client all new versions, releases, and updates for all Software that are used in the System. Continuous support and maintenance activities will be required from the Tenderer for 24 months.	M			
16.	Copyright: The copyright issues shall comprise but not limited to the following; <ul style="list-style-type: none"> • The Intellectual property rights in all non-standard customized software and its code shall vest and be to the exclusive use of the Client. • The Intellectual Property Rights in all Standard Software and Standard solutions shall remain vested in the owner of such rights; • The Ministry's contractual rights to use the Standard Software or elements of the Standard Software may not be assigned, licensed, or otherwise transferred voluntarily except in accordance with the relevant license agreement. • Software Rights Agreements: Except to the extent that the Intellectual Property Rights in the Software vest in the Authority, the Supplier hereby grants to the Authority the Rights to access and use the associated Software and its code. 	M			
Inbuilt Form Designer					
17.	The System should provide a form generating tool which will be used to design existing forms and new data entry forms to feed into the EDRMS database and integrate with the existing processes workflow.	M			
18.	Features of the form generator: <ul style="list-style-type: none"> • The Form designer interface should support facility to define text boxes, Combo boxes, radio buttons, Drop down, buttons, text areas and checkboxes. • The system should provide facility to define variables in the process or in external database tables, which can be linked to fields defined in the form for efficient data entry. • The system should provide facility to define zones / Regions at forms and images, so that relevant part of the image is highlighted for Image assisted data entry. • The system should support field level calculations at form level • Facility to use scripts for defining field level validations 	M			
19.	The system shall support separate Document/Image server for better management of documents and store only metadata information in database.	M			

NO.	REQUIREMENT	SCORE	FS/PS / NS	BIDDER'S TECHNICAL REASONS SUPPORTING COMPLIANCE	BIDDER'S CROSS REFERENCES TO SUPPORTING INFO IN TECHNICAL BID
20.	The system should support customizable and extensive metadata for different types of documents				
System Capabilities					
21.	Solution shall support Bulk Import of image and electronic meta data	M			
22.	Should have capability of automatic segregation of documents/records based on Barcode, Blank page, Fixed page and auto Form recognition	M			
23.	Provide Image processing libraries that support image enhancements such as changing contrast, zoom in/out, cleaning etc and other imaging features like compression and extraction etc.	M			
24.	The software solution should include the Rubber band feature for the extraction of the data using OCR technology so that user can mark a zone on image at runtime during scanning stage & map the extracted data with the indexing field.	M			
25.	Should be scalable for unlimited number of database instances for the different registries, with the same feel and look for uniformity to the users.	M			
26.	The System should support categorization of documents in folders-subfolders just like windows interface. There should not be any limit on the number of folder and levels of sub folder	M			
27.	The System should provide facility to link cross- related documents like Application form and Field report, Grievance and reply sent etc.	M			
28.	The system shall provide search facility in the same interface, so that users are able to search the documents to be linked	M			
29.	The system shall support versioning of documents with facility to write version comments control and audit trails	M			
30.	The system shall allow Locking of documents for editing and importing it back into the system through check-in/Check-out features	M			
31.	System should support configuration of verification processes for different business types. It should be able to handle multi-user environment for processing files related to different business types. While processing a file, all the data and images for each transaction should be displayed to processing users and processing users should be allowed to accept, reject or send the files for review	M			
32.	The system shall provide end-to-end life cycle of electronic document records	M			
33.	The system should be certified to Record Management standard like DoD 5015.02, NRAA Oman, VERS or equivalent standard.	M			
34.	The solution should comply to various open standards such as Web Distributed Authoring and versioning (WebDAV), Content Management Interoperability Standard (CMIS), Open Document Management API (ODMA), Business Process Modeling Notations (BPMN), Business Process Execution Language (BPEL), Workflow Management Coalition (WFMC)	M			
35.	Solution should include Records Management component to comply with regulatory and legal policies for long-term archival of content.				

NO.	REQUIREMENT	SCORE	FS/PS / NS	BIDDER'S TECHNICAL REASONS SUPPORTING COMPLIANCE	BIDDER'S CROSS REFERENCES TO SUPPORTING INFO IN TECHNICAL BID
36.	Solution should manage lifecycle of documents through record creation, retention, storage, retrieval and destruction policies.	M			
37.	Solution should support managing and tracking of physical location of documents	M			
38.	Solution should have facility to export / import electronic record with metadata in XML/ JSON format	M			
39.	Solution should provide the configurable capability of record classification as per the record keeping structure (File Plan) of department.	M			
40.	Solution should have a provision to define physical location of record management facility	M			
41.	Solution should provide report on the Records in the selected file plan component such as such as number of records present, number of record folder, Record creation date, etc. <ul style="list-style-type: none"> Report on activities of the selected user Report on the Request/Return activities 	M			
Document Management System					
42.	The System shall support content repository that manages electronic content, including images, PDF files, application documents, e-mail, audio, video, rich media and links to web content, offering a full life cycle management that begins with process driven access and follows through to document migration and rule-based document purging.	M			
Document Scanning solution Features					
43.	Should provide an integrated scanning engine with capability for centralized and decentralized Scanning & Document Capturing. The scanning and document management solution should be from same OEM so as to provide an integrated solution right from capture to archival of documents	M			
44.	The scanning solution should have the capability to capture the document through mobile devices.	M			
45.	The mobile based document capture application and scanning solution should be from the same OEM.	M			
46.	The mobile capture should support image compression, B/w conversion from color images, G4 compression for B&W, JPEG for color and gray scale, multiple page document capture, auto cropping, auto orientation, perspective correction, noise removal and geo capture	M			
47.	The solution must support the scanner attached to give output in multiple formats including but not limited to following formats: <ul style="list-style-type: none"> OCR (optical character reader) documents Images - .tiff, jpeg, gif, PDF etc. 	M			
48.	Should have a well-defined capture module for support of document processing, validation, index building, and image enhancements.	M			
49.	Should be able to support the capture of digital records of at least the following formats: <ul style="list-style-type: none"> Windows office documents(Word, excel, powerpoint etc) Emails and attachments OCR documents Images - .tiff, jpeg, gif, PDF etc 	M			
50.	The proposed solution should provide for automatic correction of parameters like format/ compression not proper, skew, wrong				

NO.	REQUIREMENT	SCORE	FS/PS / NS	BIDDER'S TECHNICAL REASONS SUPPORTING COMPLIANCE	BIDDER'S CROSS REFERENCES TO SUPPORTING INFO IN TECHNICAL BID
	orientation, error in automatic cropping, punch hole marks etc. during scanning. The scanning solution should provide support for automatic document quality analysis so that any bad quality document doesn't get uploaded to the repository. There should be an independent software quality check service available as part of overall scanning solution which can be used to audit scanned documents for resolution, format/ compression, orientation etc.	M			
51.	Support all the special image enhancement functionality offered by any scanner through the driver interface.	M			
52.	Solution shall support Bulk Import of image and electronic documents	M			
53.	Should have capability of automatic segregation of documents/records based on Barcode, Blank page, Fixed page and auto Form recognition	M			
54.	Provide Image processing libraries that support image enhancements such as changing contrast, zoom in/out, cleaning etc and other imaging features like compression and extraction etc.	M			
55.	The software solution should include the Rubber band feature for the extraction of the data using OCR technology so that user can mark a zone on image at runtime during scanning stage & map the extracted data with the indexing field.	M			
56.	The proposed scanning system must have the following standard imaging features? <ul style="list-style-type: none"> • Auto crop • Image rotation • Colour dropout • Speckle removal • Blank page deletion • Duplex camera imaging • Page insertion / replacement • Optical resolution of 200 – 300 DPI Mechanical document detection & de- skew	M			
	Architecture & Scalability				
57.	Solution should have been built using server side current technologies.	M			
58.	The system should store only index information in database while images should be stored in separate file server.	M			
59.	Solution should be compliant to ODMA, WebDav open source standards.	M			
60.	Solution should have been built using server side java and J2EE technologies.	M			
61.	Solution should be compliant to CMIS, ODMA, WebDav open standards	M			
62.	The system should support multi-tenant architecture. ICTA should be able to on-board unlimited number of agencies into the EDMS shared service while defining services for each agency.	M			
	Archival of Electronic documents				

NO.	REQUIREMENT	SCORE	FS/PS / NS	BIDDER'S TECHNICAL REASONS SUPPORTING COMPLIANCE	BIDDER'S CROSS REFERENCES TO SUPPORTING INFO IN TECHNICAL BID
63.	The System shall support categorization of documents in folders-subfolders. There should not be any limit on the number of folder and levels of sub folder. The system shall support multiple OEM databases i.e. MS SQL, Oracle and PostgreSQL. It should be based on an Enterprise DBMS	M			
64.	The System shall provide facility to link cross-related documents like Application form and Field report, Grievance and reply sent etc.	M			
65.	The system shall provide search facility to in the same interface, so that users are able to search the documents to be linked	M			
66.	The system shall support versioning of documents with facility to write version comments	M			
67.	The system shall allow Locking of documents for editing and importing it back into the system through check- in/Check-out features	M			
68.	Repository should be format agnostic.	M			
69.	System should support configuration of verification processes for different business types. It should be able to handle multi-user environment for processing files related to different business types. While processing a file, all the data and images for each transaction should be displayed to processing users and processing users should be allowed to accept, reject or send the files for review	M			
70.	The system should provide for definition of custom file plan in relation to content archiving and custom definition of retention and disposition rules post-archiving	M			
71.	Archival Repository should be format agnostic.	M			
72.	System should be able to retrieve archived documents on need-by-need basis	M			
73.	The system should define document / Record retrieval business process / rules for post archiving	M			
	Document View				
74.	The System shall support in-built Applet for viewing Image documents- No third party viewers should be there for viewing of scanned images.	M			
75.	Even for multi page document. The download and view should be page by page. System should include mobile app for accessing documents.	M			
76.	The system shall facilitate zoom-in/zoom-out, zoom percentage and Zoom lens to zoom in on a part of image and other image operations like Invert, rotate etc.	M			
77.	Support archival & view of PDF/A format documents (open ISO standard for long term archival of documents)	M			
78.	Document view shall have the provision to draw a line, insert arrows etc over image document.	M			
79.	The system should support viewing, annotation and rendering of PDF/A documents in inbuilt viewer.	M			
80.	Document view shall have the provision to highlight or hide certain text by drawing line rectangle and solid rectangle.	M			

NO.	REQUIREMENT	SCORE	FS/PS / NS	BIDDER'S TECHNICAL REASONS SUPPORTING COMPLIANCE	BIDDER'S CROSS REFERENCES TO SUPPORTING INFO IN TECHNICAL BID
81.	The system shall provide facility of putting text, graphic and image annotations on scanned document pages.	M			
82.	The system should have mobile application for retrieval and archiving of documents	M			
83.	The System shall support for viewing documents in native application the user is logged in to (Web interface, Desktop Application, mobile application)	M			
84.	The System should ship with in-built feature for viewing Image documents - No third-party viewers should be imposed on ICTA	M			
85.	The system should enable page by page view for downloaded multi-page documents.	M			
	Annotations				
86.	The Image applet shall support comprehensive annotation features like highlighting, marking text, underlining putting sticky notes on documents, and support for text and image stamps etc.	M			
87.	The system shall support automatic stamping of annotations with user name, date and time of putting annotations.	M			
88.	The system shall provide facility for securing annotations for selective users.	M			
89.	The system shall store annotations as separate file and at no time, the original image shall be changed. The system shall provide facility of taking print outs with or without annotations Indexing	M			
90.	The System shall provide facility to index folders, files and documents on user-defined indexes like department, ministry, file number, year etc.	M			
91.	The system shall facilitate manual and automatic indexing using OCR functionality or from other applications	M			
92.	The System shall support automatic full text indexing for Text search.	M			
93.	The system should support "Post-it" notes, Stamps, Highlights, Sketching, Block Creation, Circle, Pictures, Line Drawing, Arrows, Text Boxes, Redaction to block the viewing of certain information on the document to certain users, Independently securable	M			
	Metadata				
94.	The system must support for capture of descriptive, administrative, and structural metadata				
95.	The system must support search based on metadata				
	Search and Retrieval				
96.	The system shall provide extensive search facility to retrieve documents or Folders/Files	M			
97.	The system shall support saving of search queries and search results	M			
98.	The system shall support search for documents or folders on document or folder on profile information such as name, created, modified or accessed times, keywords, owner etc.	M			
	Security & User Management				
99.	The Document management system shall support definition of Users, Groups and Roles relation in the system	M			

NO.	REQUIREMENT	SCORE	FS/PS / NS	BIDDER'S TECHNICAL REASONS SUPPORTING COMPLIANCE	BIDDER'S CROSS REFERENCES TO SUPPORTING INFO IN TECHNICAL BID
100.	The system shall support access permissions on Folders, documents and object level	M			
101.	The system shall support multiple levels of access rights (Delete/ Edit/ View/ Print/ Copy or Download).	M			
102.	System shall support application-based rights	M			
103.	The system shall support system privileges like Create/Delete Users, Define indexes etc.	M			
104.	The system shall support secure login id and passwords for each user and passwords shall be stored in encrypted format in database	M			
105.	The system shall have a facility to define password policy with extensive password validations like passwords must be of minimum 8 characters, shall be alphanumeric, locking of user-id after three un- successful attempts, password expiry, password history so that passwords are not same as previous passwords etc.	M			
106.	The workflow management system should support integration with Lightweight Directory Access Protocol (LDAP) for domain level authentication and single sign on.	M			
107.	The system shall support Extensive Audit-trails at document, Folder and for highest levels for each action done by particular user with user name, date and time	M			
108.	The System shall support integration with database- based authentication.	M			
109.	The system shall support integration with PKI infrastructure as well as bio-metric solution for enhanced security.	M			
110.	The system should support secure login id, OTP and passwords for each user and passwords shall be stored in encrypted format in database. Three factor authentications to be deployed.	M			
111.	The system shall support integration with bio-metric solution for enhanced security.	M			
112.	The workflow management system should support integration with database-based authentication.	M			
113.	The workflow management system should be capable of giving access rights to users/groups on work stages, documents, forms and also to the data fields.	M			
114.	The workflow management system should support extensive password validations i.e locking of user account after specified number of unsuccessful login attempts, password history, password expiry, passwords must be alphanumeric and of minimum character length etc.	M			
115.	The workflow management system should support SSL, HTTPS and session timeouts.	M			
Administration					
116.	The system shall support web-based administration module for the complete management of system.	M			
117.	The Admin module shall support Users/Groups/Role definition and granting Access Rights to them and set password expiries	M			
118.	The Admin module shall provide easy to use interface for Index structure definition that can be used by different users.	M			
119.	The Admin module shall provide interface for purging old audit trail and do selective logging i.e. select the system or application features for, which the audit trails have to be generated.	M			

NO.	REQUIREMENT	SCORE	FS/PS / NS	BIDDER'S TECHNICAL REASONS SUPPORTING COMPLIANCE	BIDDER'S CROSS REFERENCES TO SUPPORTING INFO IN TECHNICAL BID
Audit trail reporting					
120.	The System shall support extensive Reports and audit trails and shall also provide data points and facility to design new reports	M			
121.	The system shall support Extensive Audit-trails at user, Folder and Cabinet levels	M			
122.	The system shall provide facility to generate Audit trails on separate actions, and between specific date/times	M			
123.	The System shall have audit trail to maintain history of all transactions performed on the system.	M			
124.	The system shall give flexibility to administrator to do selective logging i.e. suspend and resume audit trail generation for specific system and user activities.	M			
125.	The application shall log all the actions done by individual users with user name, date and time and the administrator shall be able to generate detailed audit logs and history of the process instance.	M			
Reminders and Alarms					
126.	The system should have the capability to set automatic reminders and alarms to concerned users.	M			
Integration and Web Services					
127.	Should be based on open standards and have API support for data import & export.	M			
128.	The System shall provide support to invocation of external programs to perform activities of a process like legacy application screen for data entry.	M			
129.	The System shall support integration based on standards such as XML, JSON	M			
130.	The System shall support message-based collaboration based on protocols such as HTTP, FTP and SMTP.	M			
131.	The System shall support integration with Email Servers.	M			
Business Process Management (BPM)					
132.	<ul style="list-style-type: none"> The BPM Module shall be used as a platform for automating typical processes and online workflows of the departments. Online workflows for document approval must be easy to design/modify at every stage of document creation. Flexible and easy to design Document workflow process for approvals at every stage of the document creation. Access Control, version control, comments, tracking changes etc. should be editable and maintained in the whole document approval process. The system should empower user with a tool to graphically design the workflows. <p>It should also contain the inbuilt Form Designer to design basic forms for capturing workflow related data. There should be a provision for Ad-Hoc, sequential and parallel routing.</p>	M			
133.	<ul style="list-style-type: none"> The system shall facilitate re-engineering of processes and act as a platform for building specific application and have a workflow engine to support different types of document routing mechanism including: Sequential routing –Tasks are to be performed one after the other in a sequence Parallel routing – Tasks can be performed in parallel by 	M			

NO.	REQUIREMENT	SCORE	FS/PS / NS	BIDDER'S TECHNICAL REASONS SUPPORTING COMPLIANCE	BIDDER'S CROSS REFERENCES TO SUPPORTING INFO IN TECHNICAL BID
	splitting the tasks among multiple users and then merging as single composite work item. • Rule based routing - One or another task is to be performed, depending on predefined rules Ad-hoc routing: Changing the routing sequence by authorized personnel.				
134.	Warranty and support period is twenty four (24) months (two years)	M			

6.6.8.2 REQUIREMENTS BELOW WILL BE ALLOCATED A VALUE SCORE (TOTAL 45 MARKS)

	Record Management System				
135.	The system should be certified to Record Management standard like DoD 5015.02 or equivalent standard.				
136.	Solution should include Records Management component to comply with regulatory and legal policies for long-term archival of content.				
137.	Solution should manage lifecycle of documents through record retention, storage, retrieval and destruction policies.				
138.	Solution should support managing and tracking of physical location of documents				
139.	Solution should have facility to export / import electronic record with metadata in XML format				
140.	Solution should provide the configurable capability of record classification as per the record keeping structure (File Plan) of department.				
141.	Solution should have a provision to define physical location of record management facility				
142.	Solution should have a facility to define disposition schedule / policies for record				
143.	Solution should provide the capability for only authorized individuals to view, create, edit, and delete disposition schedule components of record categories. The complete schedules would be as per the organizational policies.				
144.	Solution should have a provision to move & track a record among users within office/across locations				
145.	When record is moved out of the facility, system should have a capability to capture the transport / courier detail				
	Document Sizes/Thickness and Weight				
146.	scanning system must be able to handle different document sizes Minimum: 64mm X 89mm (2.5in X 3.5in) Maximum: 297mm X 432mm (11.7in X 17in)				
147.	The scanning system must handle different paper thickness & weight • Standard feeder 45 g/m2 to 200 g/m2; • Asian paper (rice paper) to card stock				
	File Format Outputs				
148.	The proposed scanning system should support the following • JPEG (color/gray scale images); TIFF (black and white images); JPEG 2000				

NO.	REQUIREMENT	SCORE	FS/PS / NS	BIDDER'S TECHNICAL REASONS SUPPORTING COMPLIANCE	BIDDER'S CROSS REFERENCES TO SUPPORTING INFO IN TECHNICAL BID
	<ul style="list-style-type: none"> Single and multi-page TIFF, JPEG & PDF 				
	Resolution				
149.	<p>The proposed scanning system should support the following</p> <ul style="list-style-type: none"> Optical: 300 DPI Output: Black and White/Color/Gray scale:100 to 600 dpi; Scaling range of 1/2x to 2x from optical camera dpi. 				
	Indexing				
150.	scanning system must have capability of reading barcodes from raw documents (hardware barcode reader) for higher recognition ratios?				
151.	scanning system must have the ability to auto index at both folder, subfolder and document levels				
	Data capture				
152.	Shall capture all the fields on any of the document				
153.	The captured data must be linked to scanned images/cards and uploaded onto the electronic document management system				
	Records and Retention Management System (RMS)				
154.	<p>The System shall support Records management functionalities that will be used to help MDAs meet regulatory and legal obligations associated with records and establish retention periods for all information, to reduce risk and cost. The RMS is defined as an automated system whose primary purpose is to manage all the electronic documents and records of any organization throughout their entire lifecycle. The system must be a hybrid system - capable of managing both electronic records as well as physical records (according to the national guidelines for the management of electronic and physical records).</p> 				
Document Record Filing module:					
155.	<ul style="list-style-type: none"> The Document record filling module enable the general users of the system to file the selective documents into the record management system. The user can decide at the run time which documents are critical and must be send to the Record Management System. It also enables administrator to maintain the security and confidentiality of the critical record stored in the Record Management system and provide a seamless experience to the end user to access the records from the repository. 	M			
Space Management:					
156.	The Solution should have the capabilities to enable warehouse manager to see the status of the warehouse. The Warehouse manager can see the capacity and available space in the warehouse and also assign the incoming files to their respective				

NO.	REQUIREMENT	SCORE	FS/PS / NS	BIDDER'S TECHNICAL REASONS SUPPORTING COMPLIANCE	BIDDER'S CROSS REFERENCES TO SUPPORTING INFO IN TECHNICAL BID
	boxes. This module also enable user to generate barcode based on file, box and rack, using which the user can print the barcode. • Once the file/box reach the appropriate physical location the warehouse worker can scan the barcode and place the file/box in the appropriate location.				
157.	<ul style="list-style-type: none"> The Record Management system will have both physical and electronic records. These physical copies of the record might be requested by users at any point of time, the system should have the capability to allow users to track the physical file movement for the record stored in the system. The system will allow user to generate unique reference number to track the internal movement of file and also allow user to input unique number for the purpose of tracking if the file is being sent by the 3rd party. 				
Data Migration					
158.	<ul style="list-style-type: none"> The e-archive component of the system should be able to import images from external sources in their current form and state, preserving the meta data and the various types of images. 				
Document Edit					
159.	Document view should have the provision to edit (draw a line, insert arrows) over image document.				
160.	Document view should have the provision to highlight or hide certain text by drawing line rectangle and solid rectangle.				
161.	The system shall provide facility of putting text, graphic and image annotations on scanned document pages.				
Notifications, Reminders and Alerts					
162.	<ul style="list-style-type: none"> Send automatic alerts, reminders and notifications to email and SMS and to the concerned users and supervisor; alert the user for delayed and pending work. Advanced Task Management with Notifications, Delegations & Reminders. 				
Document Capture & Source					
163.	Scan directly into the system <ol style="list-style-type: none"> Add documents from any folder from any device e.g. PC, Laptop, Cell Phone, iPad, Tablet, etc. Bulk scan and index documents Captures records and digital objects regardless of their format or technical characteristics Captures data and stores all digital objects in their native format. <ul style="list-style-type: none"> Captures attachments and embedded objects together with electronic messages as either linked records or a single compound record. 				
164.	Should be based on open standards and have API support for data import & export.				
165.	The System should provide support to invocation of external programs to perform activities of a process like legacy application screen for data entry.				
166.	The System should support message-based collaboration based on protocols such as HTTP, FTP and SMTP				

NO.	REQUIREMENT	SCORE	FS/PS / NS	BIDDER'S TECHNICAL REASONS SUPPORTING COMPLIANCE	BIDDER'S CROSS REFERENCES TO SUPPORTING INFO IN TECHNICAL BID
167.	Email: The System should support integration with Email Servers.				
System Administration					
168.	The system should support web-based administration module for the complete management of system.				
169.	The Admin module should support Users/Groups/Role definition and granting Access Rights to them and set password expiries				
170.	The Admin module should provide easy to use interface for Index structure definition that can be used by different users.				
171.	The Admin module should provide interface for purging old audit trail and do selective logging i.e. select the system or application features for, which the audit trails have to be generated.				
Training					
172.	• Onsite training for 30 users and advanced training for 10ss administrators. A detailed training schedule to be provided.				
173.	• ICTA developers to be trained on customizing and maintaining the solution				
174.	ICTA developers to be trained on the programming language used to develop the solution				
175.	ICTA developers and DBAs to be trained on the Database platform used				
176.	Submit a detailed Training program/plan and the continuous training methodology that shall be employed during and after the digitization process is complete. Refer to table in section 6.6.5				
BUSINESS PROCESS MANAGEMENT SYSTEM (WORKFLOW ENGINE)					
177.	System Should have a Business Process Management (BPM) Framework based workflow management system in the backend to support different types of document routing mechanism including: <ul style="list-style-type: none"> • Sequential routing –Tasks are to be performed one after the other in a sequence • Parallel routing – Tasks can be performed in parallel by splitting the tasks among multiple users and then merging as single composite work item. The system shall support conditional merging of multiple parallel activities i.e. Response from mandatory parallel work stages before it can be forwarded to next stage • Rule based routing - One or another task is to be performed, depending on predefined rules • Ad-hoc routing: Changing the routing sequence by authorized personnel 				
Process Designing: Graphical Route Designer					
178.	The workflow management system should support Inbuilt Graphical workflow designer for modeling complex Business Processes using drag and drop facilities.				
179.	The Process designer should provide intuitive interface for designing complex rules and conditions for workflow routing.				
180.	The interface should be easy to use so that Process owners can change the business process as and when required without any				

NO.	REQUIREMENT	SCORE	FS/PS / NS	BIDDER'S TECHNICAL REASONS SUPPORTING COMPLIANCE	BIDDER'S CROSS REFERENCES TO SUPPORTING INFO IN TECHNICAL BID
	programming knowledge.				
181.	The system should enable process designers to design multiple sub-processes. This includes mapping of the existing process instance to the newly created process instance as per mapping defined in the route.				
182.	The workflow management system development environment should provide easy navigation to choose sub-processes as required to be invoked from within a process.				
183.	Facility to copy and paste work stages along with all its properties.				
184.	Facility to define documents viewed and to be attached at individual stages. The Process designer should support multiple Introduction stages for introducing different document types from different acquisition sources				
185.	Facility to define multiple archive stages for archive selected documents and indexes in underlying Document management system at any stage of workflow process.				
186.	The system should provide facility to define hold stages so that a particular instance or the workflow can be kept on hold for specified interval on the basis of pre-defined condition. The system should also provide facility to define conditions for resuming the instance from hold stage.				
187.	The system should allow process designers to design properties for each work stage like default document view, form view or Exception view etc.				
188.	The system should allow users to define entry-level settings like Increase of document priority				
189.	The workflow management system should support the definition of roles and allow many-to-many relationships between users and roles to be defined.				
190.	The system should provide for in-built Process Modeler & Rule definition Engine				
Inbuilt Exceptions					
191.	The system should provide facility to define exceptions at individual stages, which shall dynamically change the route on execution.				
192.	The system should provide facility to give rights to raise and clear exceptions at different stages of the process with user comments.				
193.	The system should have inbuilt Rule Engine for defining rules.				
194.	Should have a capability to raise triggers on the basis of exceptions.				
195.	Should have a capability to raise automatic exceptions on the basis of pre-defined conditions.				
196.	The system should track all the exceptions raised in the course of process and shall maintain history of that with user name, date, time and comments.				
197.	The system should clearly differentiate process instances with and without exception and provide a printable report				
Inbuilt Triggers					

NO.	REQUIREMENT	SCORE	FS/PS / NS	BIDDER'S TECHNICAL REASONS SUPPORTING COMPLIANCE	BIDDER'S CROSS REFERENCES TO SUPPORTING INFO IN TECHNICAL BID
198.	The system should provide facility to define custom triggers like Emails, Word template or launching executables on predefined conditions				
199.	The system should provide facility to define custom templates for the triggers with static and dynamic data.				
200.	The system should provide facility to generate event based triggers for automatically sending mails/ fax, generating responses, invoking data form for data entry, communicating from external systems.				
201.	The workflow management system should have email notification to user when the user is not logged on to the workflow management system. Upon receiving the email, the user should be able to click on the URL in the email to automatically launch the Workflow management system and present the user with the task to act on.				
Process Monitoring and Reporting					
202.	The workflow management system should be able to keep track of the work item status, the date/time the jobs are started and ended, the creation and archival date of the documents.				
203.	The workflow management system should provide graphical and tabular tools to view progress of each individual process				
204.	System should provide a facility to configure dashboard for individuals for e.g. dashboard for director, dashboard for secretary, dash board for Additional director etc.				
205.	No code customization should be required to create dashboard, User should be able to configure dashboard without any coding.				
206.	User should be able to drill down in a report for specific information analysis				
207.	The workflow management system should support the generation of statistical and management reports like: <ul style="list-style-type: none"> • Number of pending files • Time taken to complete each task • Process History Report • User Performance Report • Average Process Time Report • Participant Report • Participant Processing Time Report • Process Definition Summary Report • Exception Details Report • Expired Work item Report • Diversion Report 				
208.	The workflow management system should support the generation of performance comparison reports.				
209.	The workflow management system should support users drill down from a higher-level view of business processes to lower level details.				
210.	The workflow management system should support statistical reports like total turnaround time and delay report for complete process or specific work stages				
211.	The workflow management system should support definition of new customized reports based on exposed data points.				

NO.	REQUIREMENT	SCORE	FS/PS / NS	BIDDER'S TECHNICAL REASONS SUPPORTING COMPLIANCE	BIDDER'S CROSS REFERENCES TO SUPPORTING INFO IN TECHNICAL BID
212.	The workflow management system should also provide dashboard interface for online reporting of various processes. The interface shall give a flexibility to toggle between graphical and tabular view and tile different windows in the same interface				
HELP DESK					
213.	The EDRMS will have a Helpdesk module to manage client's issues and concerns while they are using the system.				
METHODOLOGY					
214.	Provide outline of your project management approach as described in section 6.6.7				
215.	Implementation Duration: Implementation period is 12 months. This is to cater for customization of the system.				

6.7 Documents to submit

6.7.1 Company profile indicating the nature of previous assignments undertaken.

6.7.2 A proposal seeking to demonstrate relevant competency and expertise of the firm and as a minimum should provide the following:

6.7.3 Detailed CVs of the team who will undertake the implementation in the format provided. The following requirements must be proven by Curriculum Vitae and copies of certificates for the relevant staff who will undertake the exercise:

6.7.3.1 Project Manager

- Masters degree from a recognized University on relevant field.
- Relevant Professional Qualifications/Certifications
- Over five years' experience in implementing ICT systems

6.7.3.2 Other team members (Technical including system analyst, system engineer, web developer, security expert etc. as per the evaluation criteria) ought to have

- University degree from a recognized university in relevant field
- Relevant professional qualification/Certification
- Over three years relevant experience in ICT systems and EDRMS

SECTION E: STANDARD FORMS

KEY PERSONNEL

Qualifications and experience of key personnel proposed for administration and execution of the Contract.

ROLE	NAME	CERTIFICATION	YEARS EXPERIENCE (GENERAL)

Certify that the above information is correct.

12								

A. System Inventory Tables

Notes on preparing the System Inventory Tables

The System Inventory Tables detail:

- a) for each Subsystem (Deliverable) indicated in the Implementation Schedule, the Information Technologies, Materials, and other Goods and Services that comprise the System to be supplied and/or performed by the Supplier;
- b) the quantities of such Information Technologies, Materials, and other Goods and Services;
- c) the sites and the location of each on a specific site (e.g., building, floor, room, department, etc.)
- d) the cross references to the relevant section of the Technical Requirements where that item is described in greater detail.

The Procuring Entity should modify these tables, as required, to suit the particulars of the System (and Sub systems) to be supplied and installed. The sample text provided for various sections of the tables is illustrative only and should be modified or deleted as appropriate.

There are two sample formats given for the System Inventory Tables: one for the Supply and Installation cost items and the second for recurrent cost items needed (if any). The second version of the table permits the Procuring Entity to obtain price information about items that are needed during the Warranty Period.

A. System Inventory Table (Supply and Installation Cost ITEMS) [insert: identifying NUMBER]

Line-item number: [specify: **relevant line-item number from the Implementation Schedule (e.g., 1.1)**]
[as necessary for the supply and installation of the System, specify: **the detailed components and quantities in the System Inventory Table below for the line item specified above, modifying the sample components and sample table entries as needed. Repeat the System Inventory Table as needed to cover each and every line item in the Implementation Schedule that requires elaboration.**]

Component No.	Component	Relevant Technical Specifications No	Additional Site Information (e.g, building , Floor, department, etc)	Quantity
2				

Note: - - indicates not applicable. “ indicates repetition of table entry above.

B. SYSTEM INVENTORY TABLE (RECURRENT COST ITEMS) [INSERT: IDENTIFYING NUMBER]–

Line-item number: *[specify: relevant line-item number from the Implementation Schedule (e.g., y.1)]*

Component No.	Component	Relevant Technical Specifications No.	Y1	Y2	Y3

Note: - indicates not applicable. “Indicates repetition of table entry above.

PART 3 – CONDITIONS OF CONTRACT AND CONTRACT FORMS

Section VI - General Conditions of Contract

General Conditions of Contract

A. CONTRACT AND INTERPRETATION

1. Definitions

1.1 In this Contract, the following terms shall be interpreted as indicated below.

a) Contract Elements

- i) “Contract” means the Contract Agreement entered into between the Procuring Entity and the Supplier, together with the Contract Documents referred to therein. The Contract Agreement and the Contract Documents shall constitute the Contract, and the term “the Contract” shall in all such documents be construed accordingly.
- ii) “Contract Documents” means the documents specified in Article 1.1 (Contract Documents) of the Contract Agreement (including any amendments to these Documents).
- iii) “Contract Agreement” means the agreement entered into between the Procuring Entity and the Supplier using the form of Contract Agreement contained in the Sample Contractual Forms Section of the tender documents and any modifications to this form agreed to by the Procuring Entity and the Supplier. The date of the Contract Agreement shall be recorded in the signed form.
- iv) “GCC” means the General Conditions of Contract.
- v) “SCC” means the Special Conditions of Contract.
- vi) “Technical Requirements” means the Technical Requirements in Section VII of the tendering documents.
- vii) “Implementation Schedule” means the Implementation Schedule in Section VII of the tendering documents.
- viii) “Contract Price” means the price or prices defined in Article 2 (Contract Price and Terms of Payment) of the Contract Agreement.
- ix) “Procurement Regulations” refers to the Regulations issued under the Public Procurement and Asset Disposal Act (2015).
- x) “tendering documents” refers to the collection of documents issued by the Procuring Entity to instruct and inform potential suppliers of the processes for tendering, selection of the winning tender, and Contract formation, as well as the contractual conditions governing the relationship between the Procuring Entity and the Supplier. The General and Special Conditions of Contract, the Technical Requirements, and all other documents included in the tendering documents reflect the Procurement Regulations that the Procuring Entity is obligated to follow during procurement and administration of this Contract.

b) Entities

- i) “Procuring Entity” means the entity purchasing the Information System, as **specified in the SCC**.
- ii) “Project Manager” means the person **named as such in the SCC** or otherwise appointed by the Procuring Entity in the manner provided in GCC Clause 18.1 (Project Manager) to perform the duties delegated by the Procuring Entity.
- iii) “Supplier” means the firm or Joint Venture whose tender to perform the Contract has been accepted by the Procuring Entity and is named as such in the Contract Agreement.
- iv) “Supplier's Representative” means any person nominated by the Supplier and named as such in the Contract Agreement or otherwise approved by the Procuring Entity in the manner provided in GCC Clause 18.2 (Supplier's Representative) to perform the duties delegated by the Supplier.
- v) “Subcontractor” means any firm to whom any of the obligations of the Supplier, including preparation of any design or supply of any Information Technologies or other Goods or Services, is sub contracted directly or indirectly by the Supplier.

- vi) “Adjudicator” means the person named in Appendix 2 of the Contract Agreement, appointed by agreement between the Procuring Entity and the Supplier to make a decision on or to settle any dispute between the Procuring Entity and the Supplier referred to him or her by the parties, pursuant to GCC clause 43.1 (adjudication).

c) Scope

- i) “Information System,” also called “the System,” means all the Information Technologies, Materials, and other Goods to be supplied, installed, integrated, and made operational (exclusive of the Supplier's Equipment), together with the Services to be carried out by the Supplier under the Contract.
- ii) “Subsystem” means any subset of the System identified as such in the Contract that may be supplied, installed, tested, and commissioned individually before Commissioning of the entire System.
- iii) “Information Technologies” means all information processing and communications-related hardware, Software, supplies, and consumable items that the Supplier is required to supply and install under the Contract.
- iv) “Goods” means all equipment, machinery, furnishings, Materials, and other tangible items that the Supplier is required to supply or supply and install under the Contract, including, without limitation, the Information Technologies and Materials, but excluding the Supplier's Equipment.
- v) “Services” means all technical, logistical, management, and any other Services to be provided by the Supplier under the Contract to supply, install, customize, integrate, and make operational the System. Such Services may include, but are not restricted to, activity management and quality assurance, design, development, customization, documentation, transportation, insurance, inspection, expediting, site preparation, installation, integration, training, data migration, Pre- commissioning, Commissioning, maintenance, and technical support.
- vi) “The Project Plan” means the document to be developed by the Supplier and approved by the Procuring Entity, pursuant to GCC Clause 19, based on the requirements of the Contract and the Preliminary Project Plan included in the Supplier's tender. The “Agreed Project Plan” is the version of the Project Plan approved by the Procuring Entity, in accordance with GCC Clause 19.2. Should the Project Plan conflict with the Contract in any way, the relevant provisions of the Contract, including any amendments, shall prevail.
- vii) “Software” means that part of the System which are instructions that cause information processing Sub systems to perform in a specific manner or execute specific operations.
- viii) “System Software” means Software that provides the operating and management instructions for the underlying hardware and other components, and is identified as such in Appendix 4 of the Contract Agreement and such other Software as the parties may agree in writing to be Systems Software. Such System Software includes, but is not restricted to, micro-code embedded in hardware (i.e., “firmware”), operating systems, communications, system and network management, and utility software.
- ix) “General-Purpose Software” means Software that supports general-purpose office and software development activities and is identified as such in Appendix 4 of the Contract Agreement and such other Software as the parties may agree in writing to be General-Purpose Software. Such General- Purpose Software may include, but is not restricted to, word processing, spreadsheet, generic database management, and application development software.
- x) “Application Software” means Software formulated to perform specific business or technical functions and interface with the business or technical users of the System and is identified as such in Appendix4 of the Contract Agreement and such other Software as the parties may agree in writing to be Application Software.
- xi) “Standard Software” means Software identified as such in Appendix 4 of the Contract Agreement and such other Software as the parties may agree in writing to be Standard Software.
- xii) “Custom Software” means Software identified as such in Appendix 4 of the Contract Agreement and such other Software as the parties may agree in writing to be Custom Software.
- xiii) “Source Code” means the database structures, dictionaries, definitions, program source files, and any other symbolic representations necessary for the compilation, execution, and subsequent maintenance of the Software (typically, but not exclusively, required for Custom Software).

- xiv) “Materials” means all documentation in printed or printable form and all instructional and informational aides in any form (including audio, video, and text) and on any medium, provided to the Procuring Entity under the Contract.
- xv) “Standard Materials” means all Materials not specified as Custom Materials.
- xvi) “Custom Materials” means Materials developed by the Supplier at the Procuring Entity's expense under the Contract and identified as such in Appendix 5 of the Contract Agreement and such other Materials as the parties may agree in writing to be Custom Materials. Custom Materials includes Materials created from Standard Materials.
- xvii) “Intellectual Property Rights” means any and all copyright, moral rights, trademark, patent, and other intellectual and proprietary rights, title and interests worldwide, whether vested, contingent, or future, including without limitation all economic rights and all exclusive rights to reproduce, fix, adapt, modify, translate, create derivative works from, extractor re-utilize data from, manufacture, introduce into circulation, publish, distribute, sell, license, sub license, transfer, rent, lease, transmit or provide access electronically, broadcast, display, enter in to computer memory, or otherwise use any portion or copy, in whole or in part, in any form, directly or indirectly, or to authorize or assign others to do so.
- xviii) “Supplier's Equipment” means all equipment, tools, apparatus, or things of every kind required in or for installation, completion and maintenance of the System that are to be provided by the Supplier, but excluding the Information Technologies, or other items forming part of the System.

d) Activities

- i) “Delivery” means the transfer of the Goods from the Supplier to the Procuring Entity in accordance with the current edition Incoterms specified in the Contract.
- ii) “Installation” means that the System or a Subsystem as specified in the Contract is ready for Commissioning as provided in GCC Clause 26 (Installation).
- iii) “Pre-commissioning” means the testing, checking, and any other required activity that may be specified in the Technical Requirements that are to be carried out by the Supplier in preparation for Commissioning of the System as provided in GCC Clause 26 (Installation).
- iv) “Commissioning” means operation of the System or any Subsystem by the Supplier following Installation, which operation is to be carried out by the Supplier as provided in GCC Clause 27.1 (Commissioning), for the purpose of carrying out Operational Acceptance Test (s).
- v) “Operational Acceptance Tests” means the tests specified in the Technical Requirements and Agreed Project Plan to be carried out to ascertain whether the System, or a specified Sub system, is able to attain the functional and performance requirements specified in the Technical Requirements and Agreed Project Plan, in accordance with the provisions of GCC Clause 27.2 (Operational Acceptance Test).
- vi) “Operational Acceptance” means the acceptance by the Procuring Entity of the System (or any Subsystem(s) where the Contract provides for acceptance of the System in parts), in accordance with GCC Clause 27.3 (Operational Acceptance).

e) Place and Time

- i) “Supplier's Country” is the country in which the Supplier is legally organized, as named in the Contract Agreement.
- ii) **Unless otherwise specified in the SCC** “Project Site (s)” means the place (s) in the Site Table in the Technical Requirements Section for the supply and installation of the System.
- iii) “Eligible Country” means the countries and territories eligible for participation in procurements.
- iv) “Day” means calendar day of the Gregorian Calendar.
- v) “Week” means seven (7) consecutive Days, beginning the day of the week as is customary in Kenya.
- vi) “Month” means calendar month of the Gregorian Calendar.
- vii) “Year” means twelve (12) consecutive Months.

- viii) “Effective Date” means the date of fulfillment of all conditions specified in Article 3 (Effective Date for Determining Time for Achieving Operational Acceptance) of the Contract Agreement, for the purpose of determining the Delivery, Installation, and Operational Acceptance dates for the System or Sub system(s).
- ix) “Contract Period” is the time period during which this Contract governs the relations and obligations of the Procuring Entity and Supplier in relation to the System, as **unless otherwise specified in the SCC**, the Contract shall continue in force until the Information System and all the Services have been provided, unless the Contract is terminated earlier in accordance with the terms set out in the Contract.
- x) “Defect Liability Period” (also referred to as the “Warranty Period”) means the period of validity of the warranties given by the Supplier commencing at date of the Operational Acceptance Certificate of the System or Sub system(s), during which the Supplier is responsible for defects with respect to the System (or the relevant Sub-system[s]) as provided in GCC Clause 29 (Defect Liability).
- xi) “The Coverage Period” means the Days of the Week and the hours of those Days during which maintenance, operational, and/ or technical support services (if any) must be available.
- xii) The Post-Warranty Services Period” means the number of years **defined in the SCC** (if any), following the expiration of the Warranty Period during which the Supplier may be obligated to provide Software licenses, maintenance, and/ or technical support services for the System, either under this Contractor under separate contract(s).

2. Contract Documents

- 2.1 Subject to Article 1.2 (Order of Precedence) of the Contract Agreement, all documents forming part of the Contract (and all parts of these documents) are intended to be correlative, complementary, and mutually explanatory. The Contract shall be read as a whole.

3. Interpretation

3.1 Governing Language

- 3.1.1 All Contract Documents and related correspondence exchanged between Procuring Entity and Supplier shall be written in **the English Language** of these tendering documents, and the Contract shall be construed and interpreted in accordance with that language.
- 3.1.2 If any of the Contract Documents or related correspondence are prepared in a language other than the English Language under GCC Clause 3.1.1 above, the translation of such documents into the **English** language shall prevail in matters of interpretation. The originating party, with respect to such documents shall bear the costs and risks of such translation.

- 3.2 Singular and Plural The singular shall include the plural and the plural the singular, except where the context otherwise requires.

3.3 Headings

The headings and marginal notes in the GCC are included for ease of reference and shall neither constitute a part of the Contract nor affect its interpretation.

3.4 Persons

Words importing persons or parties shall include firms, corporations, and government entities.

3.5 Incoterms

Unless inconsistent with any provision of the Contract, the meaning of any trade term and the rights and obligations of parties thereunder shall be as prescribed by the Incoterms.

Incoterms means international rules for interpreting trade terms published by the International Chamber of Commerce (latest edition), 38 Cours Albert 1^{er}, 75008 Paris, France.

3.6 Entire Agreement

The Contract constitutes the entire agreement between the Procuring Entity and Supplier with respect to the subject matter of Contract and supersedes all communications, negotiations, and agreements (whether written or oral) of parties with respect to the subject matter of the Contract made prior to the date of Contract.

3.7 Amendment

No amendment or other variation of the Contract shall be effective unless it is in writing, is dated, expressly refers to the Contract, and is signed by a duly authorized representative of each party to the Contract.

3.8 Independent Supplier

The Supplier shall be an independent contractor performing the Contract. The Contract does not create any agency, partnership, joint venture, or other joint relationship between the parties to the Contract.

Subject to the provisions of the Contract, the Supplier shall be solely responsible for the manner in which the Contract is performed. All employees, representatives, or Sub contractors engaged by the Supplier in connection with the performance of the Contract shall be under the complete control of the Supplier and shall not be deemed to be employees of the Procuring Entity, and nothing contained in the Contractor in any sub contract awarded by the Supplier shall be construed to create any contractual relationship between any such employees, representatives, or Sub contractors and the Procuring Entity.

3.9 Joint Venture

If the Supplier is a Joint Venture of two or more firms, all such firms shall be jointly and severally bound to the Procuring Entity for the fulfillment of the provisions of the Contract and shall designate one of such firms to act as a leader with authority to bind the Joint Venture. The composition or constitution of the Joint Venture shall not be altered without the prior consent of the Procuring Entity.

3.10 Non-waiver

3.10.1 Subject to GCC Clause 3.10.2 below, no relaxation, forbearance, delay, or indulgence by either party in enforcing any of the terms and conditions of the Contractor the granting of time by either party to the other shall prejudice, affect, or restrict the rights of that party under the Contract, nor shall any waiver by either party of any breach of Contract operate as waiver of any subsequent or continuing breach of Contract.

3.10.2 Any waiver of a party's rights, powers, or remedies under the Contract must be in writing, must be dated and signed by an authorized representative of the party granting such waiver, and must specify the right and the extent to which it is being waived.

3.11 Severability

If any provision or condition of the Contract is prohibited or rendered invalid or unenforceable, such prohibition, invalidity, or unenforceability shall not affect the validity or enforceability of any other provisions and conditions of the Contract.

3.12 Country of Origin

“Origin” means the place where the Information Technologies, Materials, and other Goods for the System were produced or from which the Services are supplied. Goods are produced when, through manufacturing, processing, Software development, or substantial and major assembly or integration of components, a commercially recognized product results that is substantially different in basic characteristics or in purpose or utility from its components. The Origin of Goods and Services is distinct from the nationality of the Supplier and may be different.

4. Notices

4.1 Unless otherwise stated in the Contract, all notices to be given under the Contract shall be in writing and shall be sent, pursuant to GCC Clause 4.3 below, by personal delivery, air mail post, special courier, facsimile, electronic mail, or Electronic Data Interchange (EDI), with the following provisions.

4.2 Any notice sent by facsimile, electronic mail, or EDI shall be confirmed within two (2) days after dispatch by notice sent by air mail post or special courier, except as otherwise specified in the Contract.

4.2.1 Any notice sent by air mail post or special courier shall be deemed (in the absence of evidence of earlier receipt) to have been delivered ten (10) days after dispatch. In proving the fact of dispatch, it shall be sufficient to show that the envelope containing such notice was properly addressed, stamped, and conveyed to the postal authorities or courier service for transmission by air mail or special courier.

4.2.2 Any notice delivered personally or sent by facsimile, electronic mail, or EDI shall be deemed to have been delivered on the date of its dispatch.

- 4.2.3 Either party may change its postal, facsimile, electronic mail, or EDI addresses for receipt of such notices by ten (10) days' notice to the other party in writing.
- 4.3 Notices shall be deemed to include any approvals, consents, instructions, orders, certificates, information and other communication to be given under the Contract.
- 4.4 Pursuant to GCC Clause 18, notices from/to the Procuring Entity are normally given by, or addressed to, the Project Manager, while notices from/to the Supplier are normally given by, or addressed to, the Supplier's Representative, or in its absence its deputy if any. If there is no appointed Project Manager or Supplier's Representative (or deputy), or if their related authority is limited by the SCC for GCC Clauses 18.1 or 18.2.2, or for any other reason, the Procuring Entity or Supplier may give and receive notices at their fall back addresses. The address of the Project Manager and the fall back address of the Procuring Entity are as **specified in the SCC** or as subsequently established/ amended. The address of the Supplier's Representative and the fall back address of the Supplier are as specified in Appendix 1 of the Contract Agreement or as subsequently established/amended.

5. Governing Law

- 5.1 The Contract shall be governed by and interpreted in accordance with the laws of Kenya.
- 5.2 Throughout the execution of the Contract, the Supplier shall comply with the import of goods and services prohibitions in Kenya when
- a As a matter of law or official regulations, Kenya prohibits commercial relations with that country; or
 - b by an act of compliance with a decision of the United Nations Security Council taken under Chapter VII of the Charter of the United Nations, Kenya prohibits any import of goods from that country or any payments to any country, person, or entity in that country.

6 Fraud and Corruption

- 6.1 The Procuring Entity requires compliance with the laws of Kenya on Anti-Corruption Guidelines and its prevailing sanctions policies and procedures as set forth in its statutes.
- 6.2 The Procuring Entity requires the Suppliers to disclose any commissions or fees that may have been paid or are to be paid to agents or any other party with respect to the tendering process or execution of the Contract. The information disclosed must include at least the name and address of the agent or other party, the amount and currency, and the purpose of the commission, gratuity or fee.

B. SUBJECT MATTER OF CONTRACT

7 Scope of the System

- 7.1 Unless otherwise expressly **limited in the SCC** or Technical Requirements, the Supplier's obligations cover the provision of Information Technologies, Materials and other Goods as well as the performance of all Services required for the design, development, and implementation (including procurement, quality assurance, assembly, associated site preparation, Delivery, Pre-commissioning, Installation, Testing, and Commissioning) of the System, in accordance with the plans, procedures, specifications, drawings, codes, and any other documents specified in the Contract and the Agreed Project Plan.
- 7.2 The Supplier shall, unless specifically excluded in the Contract, perform all such work and/or supply all such items and Materials not specifically mentioned in the Contract but that can be reasonably inferred from the Contract as being required for attaining Operational Acceptance of the System as if such work and/or items and Materials were expressly mentioned in the Contract.
- 7.3 The Supplier's obligations (if any) to provide Goods and Services as implied by the Recurrent Cost tables of the Supplier's tender, such as consumables, spare parts, and technical services (e.g., maintenance, technical assistance, and operational support), areas **specified in the SCC**, including the relevant terms, characteristics, and timings.

8 Time for Commencement and Operational Acceptance

- 8.1 The Supplier shall commence work on the System within the period **specified in the SCC**, and without prejudice to GCC Clause 28.2, the Supplier shall thereafter proceed with the System in accordance with the time schedule specified in the Implementation Schedule and any refinements made in the Agreed Project Plan.
- 8.2 The Supplier shall achieve Operational Acceptance of the System (or Subsystem(s) where a separate time for Operational Acceptance of such Sub system (s) is specified in the Contract) in accordance with the time schedule specified in the Implementation Schedule and any refinements made in the Agreed Project Plan, or within such extended time to which the Supplier shall be entitled under GCC Clause 40 (Extension of Time for Achieving Operational Acceptance).

9 Supplier's Responsibilities

- 9.1 The Supplier shall conduct all activities with due care and diligence, in accordance with the Contract and with the skill and care expected of a competent provider of information technologies, information systems, support, maintenance, training, and other related services, or in accordance with best industry practices. In particular, the Supplier shall provide and employ only technical personnel who are skilled and experienced in the irrespective callings and supervisory staff who are competent to adequately supervise the work at hand.
- 9.2 The Supplier confirms that it has entered into this Contract on the basis of a proper examination of the data relating to the System provided by the Procuring Entity and on the basis of information that the Supplier could have obtained from a visual inspection of the site (if access to the site was available) and of other data readily available to the Supplier relating to the System as at the date twenty-eight (28) days prior to tender submission. The Supplier acknowledges that any failure to acquaint itself with all such data and information shall not relieve its responsibility for properly estimating the difficulty or cost of successfully performing the Contract.
- 9.3 The Supplier shall be responsible for timely provision of all resources, information, and decision making under its control that are necessary to reach a mutually Agreed Project Plan (pursuant to GCC Clause 19.2) within the time schedule specified in the Implementation Schedule. Failure to provide such resources, information, and decision-making may constitute grounds for termination pursuant to GCC Clause 41.2.
- 9.4 The Supplier shall acquire in its name all permits, approvals, and/or licenses from all local, state, or national government authorities or public service undertakings in Kenya that are necessary for the performance of the Contract, including, without limitation, visas for the Supplier's and Subcontractor's personnel and entry permits for all imported Supplier's Equipment. The Supplier shall acquire all other permits, approvals, and/or licenses that are not the responsibility of the Procuring Entity under GCC Clause 10.4 and that are necessary for the performance of the Contract.
- 9.5 The Supplier shall comply with all laws in force in Kenya. The laws will include all national, provincial, municipal, or other laws that affect the performance of the Contract and are binding upon the Supplier. The Supplier shall indemnify and hold harmless the Procuring Entity from and against any and all liabilities, damages, claims, fines, penalties, and expenses of whatever nature arising or resulting from the violation of such laws by the Supplier or its personnel, including the Sub contractors and their personnel, but without prejudice to GCC Clause 10.1. The Supplier shall not indemnify the Procuring Entity to the extent that such liability, damage, claims, fines, penalties, and expenses were caused or contributed to by a fault of the Procuring Entity.
- 9.6 The Supplier shall, in all dealings with its labor and the labor of its Subcontractors currently employed on or connected with the Contract, pay due regard to all recognized festivals, official holidays, religious or other customs, and all local laws and regulations pertaining to the employment of labor.
- 9.7 Any Information Technologies or other Goods and Services that will be incorporated in or be required for the System and other supplies shall have their Origin, as defined in GCC Clause 3.12, in a country that shall be an Eligible Country, as defined in GCC Clause 1.1 (e) (iv).
- 9.8 Pursuant to paragraph 2.2e. of Appendix B to the General Conditions the Supplier shall permit and shall cause its subcontractors and sub-consultants to permit, the PPRA and/or persons appointed by the PPRA to inspect the Site and/or the accounts and records relating to the procurement process, selection and/or contract execution, and to have such accounts and records audited by auditors appointed by the PPRA if requested by the PPRA. The Supplier's and its Sub contractors' and sub-consultants' attention is drawn to Sub-Clause 6.1 which provides, inter alia, that acts intended to materially impede the exercise of the PPRA's inspection and audit rights constitute a prohibited practice subject to contract termination (as well as to a determination of ineligibility pursuant to the PPRA's prevailing sanctions procedures).

9.9 The Supplier shall conform to the sustainable procurement contractual provisions, if and as **specified in the SCC**.

9.10 **Unless otherwise specified in the SCC** the Supplier shall have no other Supplier responsibilities.

10 Procuring Entity's Responsibilities

10.1 The Procuring Entity shall ensure the accuracy of all information and/or data to be supplied by the Procuring Entity to the Supplier, except when otherwise expressly stated in the Contract.

10.2 The Procuring Entity shall be responsible for timely provision of all resources, information, and decision making under its control that are necessary to reach an Agreed Project Plan (pursuant to GCC Clause 19.2) within the time schedule specified in the Implementation Schedule. Failure to provide such resources, information, and decision making may constitute grounds for Termination pursuant to GCC Clause 41.3.1(b).

10.3 The Procuring Entity shall be responsible for acquiring and providing legal and physical possession of the site and access to it, and for providing possession of and access to all other are as reasonably required for the proper execution of the Contract.

10.4 If requested by the Supplier, the Procuring Entity shall use its best endeavors to assist the Supplier in obtaining in a timely and expeditious manner all permits, approvals, and/or licenses necessary for the execution of the Contract from all local, state, or national government authorities or public service undertakings that such authorities or under takings require the Supplier or Sub contractors or the personnel of the Supplier or Sub contractors, as the case may be, to obtain.

10.5 In such cases where the responsibilities of specifying and acquiring or upgrading telecommunications and/or electric power services falls to the Supplier, as specified in the Technical Requirements, SCC, Agreed Project Plan, or other parts of the Contract, the Procuring Entity shall use its best endeavors to assist the Supplier in obtaining such services in a timely and expeditious manner.

10.6 The Procuring Entity shall be responsible for timely provision of all resources, access, and information necessary for the Installation and Operational Acceptance of the System (including, but not limited to, any required telecommunications or electric power services), as identified in the Agreed Project Plan, except where provision of such items is explicitly identified in the Contract as being the responsibility of the Supplier. Delay by the Procuring Entity may result in an appropriate extension of the Time for Operational Acceptance, at the Supplier's discretion.

10.7 Unless otherwise specified in the Contractor agreed upon by the Procuring Entity and the Supplier, the Procuring Entity shall provide sufficient, properly qualified operating and technical personnel, as required by the Supplier to properly carry out Delivery, Pre-commissioning, Installation, Commissioning, and Operational Acceptance, at or before the time specified in the Implementation Schedule and the Agreed Project Plan.

10.8 The Procuring Entity will designate appropriate staff for the training courses to be given by the Supplier and shall make all appropriate logistical arrangements for such training as specified in the Technical Requirements, SCC, the Agreed Project Plan, or other parts of the Contract.

10.9 The Procuring Entity assumes primary responsibility for the Operational Acceptance Test (s) for the System, in accordance with GCC Clause 27.2, and shall be responsible for the continued operation of the System after Operational Acceptance. However, this shall not limit in anyway the Supplier's responsibilities after the date of Operational Acceptance otherwise specified in the Contract.

10.10 The Procuring Entity is responsible for performing and safely storing timely and regular backups of its data and Software in accordance with accepted data management principles, except where such responsibility is clearly assigned to the Supplier elsewhere in the Contract.

10.11 All costs and expenses involved in the performance of the obligations under this GCC Clause 10 shall be the responsibility of the Procuring Entity, save those to be incurred by the Supplier with respect to the performance of the Operational Acceptance Test (s), in accordance with GCC Clause 27.2.

10.12 **Unless otherwise specified in the SCC** the Procuring Entity shall have no other Procuring Entity responsibilities.

C. Payment

11 Contract Price

- 11.1 The Contract Price shall be as specified in Article 2 (Contract Price and Terms of Payment) of the Contract Agreement.
- 11.2 Unless an adjustment clause is **provided for in the SCC**, the Contract Price shall be a firm lump sum not subject to any alteration, except in the event of a Change in the System pursuant to GCC Clause 39 or to other clauses in the Contract;
- 11.3 The Supplier shall be deemed to have satisfied itself as to the correctness and sufficiency of the Contract Price, which shall, except as otherwise provided for in the Contract, cover all its obligations under the Contract.
- 11.4 Where the contract price is different from the corrected tender price, in order to ensure the contractor is not paid less or more relative to the contract price (*which would be the tender price*), payment valuation certificates and variation orders on omissions and additions valued based on rates in the Bill of Quantities or schedule of rates in the Tender, will be adjusted by a plus or minus percentage. The percentage already worked out during tender evaluation is worked out as follows: *(corrected tender price – tender price) / tender price X 100*.

12 Terms of Payment

- 12.1 The Supplier's request for payment shall be made to the Procuring Entity in writing, accompanied by an invoice describing, as appropriate, the System or Subsystem(s), Delivered, Pre-commissioned, Installed, and Operationally Accepted, and by documents submitted pursuant to GCC Clause 22.5 and upon fulfillment of other obligations stipulated in the Contract. The Contract Price shall be paid as **specified in the SCC**.
- 12.2 No payment made by the Procuring Entity herein shall be deemed to constitute acceptance by the Procuring Entity of the System or any Sub system (s).
- 12.3 Payments shall be made promptly by the Procuring Entity, but in no case later than (sixty (60) days after submission of a valid invoice and upon satisfactorily performance of the contractual obligations by the Supplier. In the event that the Procuring Entity fails to make any payment by its respective due date or within the period set forth in the Contract, the Procuring Entity shall pay to the Supplier interest on the amount of such delayed payment at the rate (s) **specified in the SCC** for the period of delay until payment has been made in full, whether before or after judgment or arbitration award.
- 12.4 Payments shall be made in the currency (ies) specified in the Contract Agreement, pursuant to GCC Clause 11. For Goods and Services supplied locally, payments shall be made **as specified in the SCC**.
- 12.5 **Unless otherwise specified in the SCC**, payment of the foreign currency portion of the Contract Price for Goods supplied from outside Kenya shall be made to the Supplier through an irrevocable Form of credit opened by an authorized bank in the Supplier's Country and will be payable on presentation of the appropriate documents. It is agreed that the Form of credit will be subject to Article 10 of the latest revision of *Uniform Customs and Practice for Documentary Credits*, published by the International Chamber of Commerce, Paris.

13 Securities

13.1 Issuance of Securities

The Supplier shall provide the securities specified below in favor of the Procuring Entity at the times and in the amount, manner, and form specified below.

13.2 Advance Payment Security

- a) Unless otherwise specified in the SCC, the Supplier shall provide within twenty-eight (28) days of the notification of Contract award an Advance Payment Security in the amount and currency of the Advance Payment specified in SCC for GCC Clause 12.1 above and valid until the System is Operationally Accepted.
- b) The security shall be in the form provided in the tendering documents or in another form acceptable to the

Procuring Entity. The amount of the security shall be reduced in proportion to the value of the System executed by and paid to the Supplier from time to time and shall automatically become null and void when the full amount of the advance payment has been recovered by the Procuring Entity. **Unless otherwise specified in the SCC**, the reduction in value and expiration of the Advance Payment Security are calculated as follows:

$P \times a / (100 - a)$, where “P” is the sum of all payments effected so far to the Supplier (excluding the Advance Payment), and “a” is the Advance Payment expressed as a percentage of the Contract Price pursuant to the SCC for GCC Clause 12.1.

The security shall be returned to the Supplier immediately after its expiration.

13.3 Performance Security

- a) The Supplier shall, within twenty-eight (28) days of the notification of Contract award, provide a security for the due performance of the Contract in the amount and currency **specified in the SCC**.
- b) The security shall be a bank guarantee in the form provided in the Sample Contractual Forms Section of the tendering documents, or it shall be in another form acceptable to the Procuring Entity.
- c) The security shall automatically become null and void once all the obligations of the Supplier under the Contract have been fulfilled, including, but not limited to, any obligations during the Warranty Period and any extensions to the period. The security shall be returned to the Supplier no later than twenty-eight (28) days after its expiration.
- d) Upon Operational Acceptance of the entire System, the security shall be reduced to the amount **specified in the SCC**, on the date of the Operational Acceptance, so that the reduced security would only cover the remaining warranty obligations of the Supplier.

14 Taxes and Duties

- 14.1 For Goods or Services supplied from outside and inside Kenya, the Supplier shall be entirely responsible for all taxes, stamp duties, license fees, and other such levies imposed outside Kenya and inside Kenya, and these duties or taxes shall be made part of the Contract Price in Article 2 of the Contract Agreement and the Price Schedule it refers to, in which case the duties and taxes will be the Supplier's responsibility.
- 14.2 For Goods or Services supplied locally, the Supplier shall be entirely responsible for all taxes, duties, license fees, etc., incurred until delivery of the contracted Goods or Services to the Procuring Entity. The only exception are taxes or duties, such as value-added or sales tax or stamp duty as apply to, or are clearly identifiable, on the invoices and provided they apply in Kenya, and only if these taxes, levies and/or duties are also excluded from the Contract Price in Article 2 of the Contract Agreement and the Price Schedule it refers to.
- 14.3 If any tax exemptions, reductions, allowances, or privileges may be available to the Supplier in Kenya, the Procuring Entity shall use its best efforts to enable the Supplier to benefit from any such tax savings to the maximum allowable extent.
- 14.4 For the purpose of the Contract, it is agreed that the Contract Price specified in Article 2 (Contract Price and Terms of Payment) of the Contract Agreement is based on the taxes, duties, levies, and charges prevailing at the date twenty-eight (28) days prior to the date of tender submission in Kenya (also called “Tax” in this GCC Clause 14.4). If any Tax rates are increased or decreased, a new Tax is introduced, an existing Tax is abolished, or any change in interpretation or application of any Tax occurs in the course of the performance of the Contract, which was or will be assessed on the Supplier, its Sub contractors, or their employees in connection with performance of the Contract, an equitable adjustment to the Contract Price shall be made to fully take into account any such change by addition to or reduction from the Contract Price, as the case may be.

D. Intellectual Property

15 Copyright

- 15.1 The Intellectual Property Rights in all Standard Software and Standard Materials shall remain vested in the owner of such rights.

15.2 The Procuring Entity agrees to restrict use, copying, or duplication of the Standard Software and Standard Materials in accordance with GCC Clause 16, except that additional copies of Standard Materials may be made by the Procuring Entity for use within the scope of the project of which the System is apart, in the event that the Supplier does not deliver copies within thirty (30) days from receipt of a request for such Standard Materials.

15.3 The Procuring Entity's contractual rights to use the Standard Software or elements of the Standard Software may not be assigned, licensed, or otherwise transferred voluntarily except in accordance with the relevant license agreement or **unless otherwise specified in the SCC** to a legally constituted successor organization (e.g., a reorganization of a public entity formally authorized by the government or through a merger or acquisition of a private entity).

15.4 **Unless otherwise specified in the SCC**, the Intellectual Property Rights in all Custom Software and Custom Materials specified in Appendices 4 and 5 of the Contract Agreement (if any) shall, at the date of this Contract on creation of the rights (if later than the date of this Contract), vest in the Procuring Entity. The Supplier shall do and execute or arrange for the doing and executing of each necessary act, document, and thing that the Procuring Entity may consider necessary or desirable to perfect the right, title, and interest of the Procuring Entity in and to those rights. In respect of such Custom Software and Custom Materials, the Supplier shall ensure that the holder of an or all right in such an item does not assert it, and the Supplier shall, if requested to do so by the Procuring Entity and where permitted by applicable law, ensure that the holder of such a moral right waives it.

15.5 **Unless otherwise specified in the SCC**, escrow arrangements shall NOT be required.

16 Software License Agreements

16.1 Except to the extent that the Intellectual Property Rights in the Software vest in the Procuring Entity, the Supplier hereby grants to the Procuring Entity license to access and use the Software, including all inventions, designs, and marks embodied in the Software.

Such license to access and use the Software shall:

a) be:

- i. non-exclusive;
- ii. fully paid up and irrevocable (except that it shall terminate if the Contract terminates under GCC Clauses 41.1 or 41.3);
- iii. **unless otherwise specified in the SCC** valid throughout Kenya;
- iv. **unless otherwise specified in the SCC** subject to NO additional restrictions.

b) Permit the Software to be:

- i. used or copied for use on or with the computer(s) for which it was acquired (if specified in the Technical Requirements and/or the Supplier's tender), plus a backup computer(s) of the same or similar capacity, if the primary is (are) in operative, and during a reasonable transitional period when use is being transferred between primary and back up;
- ii. used or copied for use on or transferred to are placement computer (s), (and use on the original and replacement computer(s) may be simultaneous during a reasonable transitional period) provided that, if the Technical Requirements and/or the Supplier's tender specifies a class of computer to which the license is restricted, the replacement computer (s) is (are) within that class;
- iii. if the nature of the System is such as to permit such access, accessed from other computers connected to the primary and/or back up computer (s) by means of a local or wide-area network or similar arrangement, and used on or copied for use on those other computers to the extent necessary to that access;
- iv. reproduced for safe keeping or back up purposes;
- v. customized, adapted, or combined with other computer software for use by the Procuring Entity, provided that derivative software incorporating any substantial part of the delivered, restricted Software shall be subject to same restrictions as a set forth in this Contract;
- vi. **unless otherwise specified in the SCC**, disclosed to, and reproduced for use by, support service suppliers and their sub-contractors, (and the Procuring Entity may sub-license such persons to use and copy for use the Software) to the extent reasonably necessary to the performance of their support service contracts, subject to the same restrictions as a set forth in this Contract; and **unless otherwise specified in the SCC** disclosed to, and reproduced for use by, NO other parties.

16.2 The Supplier has the right to audit the Standard Software to verify compliance with the above license agreements.

Unless otherwise specified in the SCC, the Procuring Entity will make available to the Supplier, within seven (7) days of a written request, accurate and up-to-date records of the number and location of copies, the number of authorized users, or any other relevant data required to demonstrate use of the Standard Software as per the license agreement. If and only if, expressly agreed in writing between the Procuring Entity and the Supplier, Procuring Entity will allow, under a pre-specified agreed procedure, the execution of embedded software functions under Supplier's control, and unencumbered transmission of resulting information on software usage.

17 Confidential Information

17.1 **Unless otherwise specified in the SCC**, the "Receiving Party" (either the Procuring Entity or the Supplier) shall keep confidential and shall not, without the written consent of the other party to this Contract ("the Disclosing Party"), divulge to any third party any documents, data, or other information of a confidential nature ("Confidential Information") connected with this Contract, and furnished directly or indirectly by the Disclosing Party prior to or during performance, or following termination, of this Contract.

17.2 For the purposes of GCC Clause 17.1, the Supplier is also deemed to be the Receiving Party of Confidential Information generated by the Supplier itself in the course of the performance of its obligations under the Contract and relating to the businesses, finances, suppliers, employees, or other contacts of the Procuring Entity or the Procuring Entity's use of the System.

17.3 Notwithstanding GCC Clauses 17.1 and 17.2:

- a) the Supplier may furnish to its Subcontractor Confidential Information of the Procuring Entity to the extent reasonably required for the Subcontractor to perform its work under the Contract; and
- b) the Procuring Entity may furnish Confidential Information of the Supplier: (i) to its support service suppliers and their subcontractors to the extent reasonably required for them to perform their work under their support service contracts; and (ii) to its affiliates and subsidiaries, in which event the Receiving Party shall ensure that the person to whom it furnishes Confidential Information of the Disclosing Party is aware of and a tenderer by the Receiving Party's obligations under this GCC Clause 17 as if that person were party to the Contract in place of the Receiving Party.

17.4 The Procuring Entity shall not, without the Supplier's prior written consent, use any Confidential Information received from the Supplier for any purpose other than the operation, maintenance and further development of the System. Similarly, the Supplier shall not, without the Procuring Entity's prior written consent, use any Confidential Information received from the Procuring Entity for any purpose other than those that are required for the performance of the Contract.

17.5 The obligation of a party under GCC Clauses 17.1 through 17.4 above, however, shall not apply to that information which:

- a) Now or hereafter enters the public domain through no fault of the Receiving Party;
- b) can be proven to have been possessed by the Receiving Party at the time of disclosure and that was not previously obtained, directly or indirectly, from the Disclosing Party;
- c) otherwise lawfully becomes available to the Receiving Party from a third party that has no obligation of confidentiality.

17.6 The above provisions of this GCC Clause 17 shall not in any way modify any undertaking of confidentiality given by either of the parties to this Contract prior to the date of the Contract in respect of the System or any part thereof.

17.7 **Unless otherwise specified in the SCC**, the provisions of this GCC Clause 17 shall survive the termination, for whatever reason, of the Contract for three (3) years.

E. Supply, Installation, Testing, Commissioning, and Acceptance of the System

18 Representatives

18.1 Project Manager

If the Project Manager is not named in the Contract, then within fourteen (14) days of the Effective Date, the Procuring Entity shall appoint and notify the Supplier in writing of the name of the Project Manager. The

Procuring Entity may from time to time appoint some other person as the Project Manager in place of the person previously so appointed and shall give a notice of the name of such other person to the Supplier without delay. No such appointment shall be made at such a time or in such a manner as to impede the progress of work on the System. Such appointment shall take effect only upon receipt of such notice by the Supplier. **Unless otherwise specified in the SCC** (if any), the Project Manager shall have the authority to represent the Procuring Entity on all day-to-day matters relating to the System or arising from the Contract, and shall normally be the person giving or receiving notices on behalf of the Procuring Entity pursuant to GCC Clause4.

18.2 Supplier's Representative

18.2.1 If the Supplier's Representative is not named in the Contract, then within fourteen (14) days of the Effective Date, the Supplier shall appoint the Supplier's Representative and shall request the Procuring Entity in writing to approve the person so appointed. The request must be accompanied by a detailed curriculum vitae for the nominee, as well as a description of any other System or non-System responsibilities the nominee would retain while performing the duties of the Supplier's Representative. If the Procuring Entity does not object to the appointment within fourteen (14) days, the Supplier's Representative shall be deemed to have been approved. If the Procuring Entity objects to the appointment within fourteen (14) days giving the reason therefor, then the Supplier shall appoint a replacement within fourteen (14) days of such objection in accordance with this GCC Clause 18.2.1.

18.2.2 **Unless otherwise specified in the SCC** (if any), the Supplier's Representative shall have the authority to represent the Supplier on all day-to-day matters relating to the System or arising from the Contract, and shall normally be the person giving or receiving notices on behalf of the Supplier pursuant to GCC Clause 4.

18.2.3 The Supplier shall not revoke the appointment of the Supplier's Representative without the Procuring Entity's prior written consent, which shall not be unreasonably withheld. If the Procuring Entity consents to such an action, the Supplier shall appoint another person of equal or superior qualifications as the Supplier's Representative, pursuant to the procedure set out in GCC Clause 18.2.1.

18.2.4 The Supplier's Representative and staff are obliged to work closely with the Procuring Entity's Project Manager and staff, act within their own authority, and a tenderer by directives issued by the Procuring Entity that are consistent with the terms of the Contract. The Supplier's Representative is responsible for managing the activities of its personnel and any subcontracted personnel.

18.2.5 The Supplier's Representative may, subject to the approval of the Procuring Entity (which shall not be unreasonably withheld), at any time delegate to any person any of the powers, functions, and authorities vested in him or her. Any such delegation may be revoked at any time. Any such delegation or revocation shall be subject to a prior notice signed by the Supplier's Representative and shall specify the powers, functions, and authorities there by delegated or revoked. No such delegation or revocation shall take effect unless and until the notice of it has been delivered.

18.2.6 Any act or exercise by any person of powers, functions and authorities so delegated to him or her in accordance with GCC Clause18.2.5shall be deemed to be an act or exercise by the Supplier's Representative.

18.3 Objections and Removals

18.3.1 The Procuring Entity may by notice to the Supplier object to any representative or person employed by the Supplier in the execution of the Contract who, in the reasonable opinion of the Procuring Entity, may have behaved inappropriately, be incompetent, or be negligent. The Procuring Entity shall provide evidence of the same, where upon the Supplier shall remove such person from work on the System.

18.3.2 If any representative or person employed by the Supplier is removed in accordance with GCC Clause18.3.1, the Supplier shall, where required, promptly appoint a replacement.

19 Project Plan

19.1 In close cooperation with the Procuring Entity and based on the Preliminary Project Plan included in the Supplier's tender, the Supplier shall develop a Project Plan encompassing the activities specified in the Contract. The contents of the Project Plan shall be as **specified in the SCC** and/ or Technical Requirements.

- 19.2 **Unless otherwise specified in the SCC**, within thirty (30) days from the Effective Date of the Contract, the Supplier shall present a Project Plan to the Procuring Entity. The Procuring Entity shall, within fourteen (14) days of receipt of the Project Plan, notify the Supplier of any respects in which it considers that the Project Plan does not adequately ensure that the proposed program of work, proposed methods, and/or proposed Information Technologies will satisfy the Technical Requirements and/or the SCC (in this Clause 19.2 called “non-conformities” below). The Supplier shall, within five (5) days of receipt of such notification, correct the Project Plan and resubmit to the Procuring Entity. The Procuring Entity shall, within five (5) days of resubmission of the Project Plan, notify the Supplier of any remaining non-conformities. This procedure shall be repeated as necessary until the Project Plan is free from non-conformities. When the Project Plan is free from non-conformities, the Procuring Entity shall provide confirmation in writing to the Supplier. This approved Project Plan (“the Agreed Project Plan”) shall be contractually binding on the Procuring Entity and the Supplier.
- 19.3 If required, the impact on the Implementation Schedule of modifications agreed during finalization of the Agreed Project Plan shall be incorporated in the Contract by amendment, in accordance with GCC Clauses 39 and 40.
- 19.4 The Supplier shall undertake to supply, install, test, and commission the System in accordance with the Agreed Project Plan and the Contract.
- 19.5 **Unless otherwise specified in the SCC**, the Supplier shall submit to the Procuring Entity Monthly Progress Reports summarizing:
- i) Results accomplished during the prior period;
 - ii) cumulative deviations to date from schedule of progress milestones as specified in the Agreed Project Plan;
 - iii) corrective actions to be taken to return to planned schedule of progress; proposed revisions to planned schedule;
 - iv) other issues and outstanding problems; proposed actions to be taken;
 - v) resources that the Supplier expects to be provided by the Procuring Entity and/ or actions to be taken by the Procuring Entity in the next reporting period;
 - vi) other issues or potential problems the Supplier foresees that could impact on project progress and/or effectiveness.
- 19.6 The Supplier shall submit to the Procuring Entity other (periodic) reports **as specified in the SCC**.

20 Sub-contracting

- 20.1 Appendix 3 (List of Approved Subcontractors) to the Contract Agreement specifies critical items of supply or services and a list of Subcontractors for each item that are considered acceptable by the Procuring Entity. If no Subcontractors are listed for an item, the Supplier shall prepare a list of Subcontractors it considers qualified and wishes to be added to the list for such items. The Supplier may from time to time propose additions to or deletions from any such list. The Supplier shall submit any such list or any modification to the list to the Procuring Entity for its approval insufficient time so as not to impede the progress of work on the System. The Procuring Entity shall not withhold such approval unreasonably. Such approval by the Procuring Entity of a Subcontractor (s) shall not relieve the Supplier from any of its obligations, duties, or responsibilities under the Contract.
- 20.2 The Supplier may, at its discretion, select and employ Subcontractors for such critical items from those Subcontractors listed pursuant to GCC Clause 20.1. If the Supplier wishes to employ a Subcontractor not so listed, or subcontract an item not so listed, it must seek the Procuring Entity's prior approval under GCC Clause 20.3.
- 20.3 For items for which pre-approved Subcontractor lists have not been specified in Appendix 3 to the Contract Agreement, the Supplier may employ such Subcontractors as it may select, provided: (i) the Supplier notifies the Procuring Entity in writing at least twenty-eight (28) days prior to the proposed mobilization date for such Subcontractor; and (ii) by the end of this period either the Procuring Entity has granted its approval in writing or fails to respond. The Supplier shall not engage any Subcontractor or to which the Procuring Entity has objected in writing prior to the end of the notice period. The absence of a written objection by the Procuring Entity during the above specified period shall constitute formal acceptance of the proposed Subcontractor. Except to the extent that it permits the deemed approval of the Procuring Entity of Subcontractors not listed in the Contract Agreement, nothing in this Clause, however, shall limit the rights and obligations of either the Procuring Entity or Supplier as they are specified in GCC Clauses

20.1 and 20.2, or in Appendix3 of the Contract Agreement.

21 Design and Engineering

21.1 Technical Specifications and Drawings

- 21.1.1 The Supplier shall execute the basic and detailed design and the implementation activities necessary for successful installation of the System in compliance with the provisions of the Contractor, where not so specified, in accordance with good industry practice.

The Supplier shall be responsible for any discrepancies, errors or omissions in the specifications, drawings, and other technical documents that it has prepared, whether such specifications, drawings, and other documents have been approved by the Project Manager or not, provided that such discrepancies, errors, or omissions are not because of inaccurate information furnished in writing to the Supplier by or on behalf of the Procuring Entity.

- 21.1.2 The Supplier shall be entitled to disclaim responsibility for any design, data, drawing, specification, or other document, or any modification of such design, drawings, specification, or other documents provided or designated by or on behalf of the Procuring Entity, by giving a notice of such disclaimer to the Project Manager.

21.2 Codes and Standards

Wherever references are made in the Contract to codes and standards in accordance with which the Contract shall be executed, the edition or the revised version of such codes and standards current at the date twenty-eight (28) days prior to date of tender submission shall apply. During Contract execution, any changes in such codes and standards shall be applied after approval by the Procuring Entity and shall be treated in accordance with GCC Clause 39.3.

21.3 Approval/ Review of Controlling Technical Documents by the Project Manager

- 21.3.2 **Unless otherwise specified in the SCC**, there will NO Controlling Technical Documents required. However, **if the SCC specifies** Controlling Technical Documents, the Supplier shall prepare and furnish such documents for the Project Manager's approval or review.

Any part of the System covered by or related to the documents to be approved by the Project Manager shall be executed only after the Project Manager's approval of these documents.

GCC Clauses 21.3.2 through 21.3.7 shall apply to those documents requiring the Project Manager's approval, but not to those furnished to the Project Manager for its review only.

- 21.3.3 Within fourteen (14) days after receipt by the Project Manager of any document requiring the Project Manager's approval in accordance with GCC Clause 21.3.1, the Project Manager shall either return one copy of the document to the Supplier with its approval endorsed on the document or shall notify the Supplier in writing of its disapproval of the document and the reasons for disapproval and the modifications that the Project Manager proposes. If the Project Manager fails to take such action within the fourteen (14) days, then the document shall be deemed to have been approved by the Project Manager.

- 21.3.4 The Project Manager shall not disapprove any document except on the grounds that the document does not comply with some specified provision of the Contract or that it is contrary to good industry practice.

- 21.3.5 If the Project Manager disapproves the document, the Supplier shall modify the document and resubmit it for the Project Manager's approval in accordance with GCC Clause 21.3.2. If the Project Manager approves the document subject to modification(s), the Supplier shall make the required modification(s), and the document shall then be deemed to have been approved, subject to GCC Clause 21.3.5. The procedure set out in GCC Clauses 21.3.2 through 21.3.4 shall be repeated, as appropriate, until the Project Manager approves such documents.

- 21.3.6 If any dispute occurs between the Procuring Entity and the Supplier in connection with or arising out of the disapproval by the Project Manager of any document and/ or any modification (s) to a document that cannot be settled between the parties within a reasonable period, then, in case the Contract Agreement includes and names an Adjudicator, such dispute may be referred to the Adjudicator for determination in accordance with GCC Clause 43.1 (Adjudication). If such dispute is referred to an Adjudicator, the Project Manager shall give instructions as to whether and if so, how, performance of the Contract is to proceed. The Supplier shall proceed with the Contract in accordance with the Project Manager's instructions, provided that if the Adjudicator upholds the Supplier's view on the dispute and if the Procuring Entity has not given notice under GCC Clause 43.1.2, then the Supplier shall be reimbursed by the Procuring Entity for any additional costs incurred by reason of such instructions and shall be relieved of such responsibility or liability in connection with the dispute and the execution of the instructions as the Adjudicator shall decide, and the Time for Achieving Operational Acceptance shall be extended accordingly.

- 21.3.7 The Project Manager's approval, with or without modification of the document furnished by the Supplier, shall not relieve the Supplier of any responsibility or liability imposed upon it by any provisions of the Contract except to the extent that any subsequent failure results from modifications required by the Project Manager or inaccurate information furnished in writing to the Supplier by or on behalf of the Procuring Entity.
- 21.3.8 The Supplier shall not depart from any approved document unless the Supplier has first submitted to the Project Manager an amended document and obtained the Project Manager's approval of the document, pursuant to the provisions of this GCC Clause 21.3. If the Project Manager requests any change in any already approved document and/or in any document based on such an approved document, the provisions of GCC Clause 39 (Changes to the System) shall apply to such request.

22 Procurement, Delivery, and Transport

- 22.1 Subject to related Procuring Entity's responsibilities pursuant to GCC Clauses 10 and 14, the Supplier shall manufacture or procure and transport all the Information Technologies, Materials, and other Goods in an expeditious and orderly manner to the Project Site.
- 22.2 Delivery of the Information Technologies, Materials, and other Goods shall be made by the Supplier in accordance with the Technical Requirements.
- 22.3 Early or partial deliveries require the explicit written consent of the Procuring Entity; which consent shall not be unreasonably withheld.
- 22.4 Packaging and Transportation
- 22.4.1 The Supplier shall provide such packing of the Goods as is required to prevent their damage or deterioration during shipment. The packing, marking, and documentation within and outside the packages shall comply strictly with the Procuring Entity's instructions to the Supplier.
- 22.4.2 The Supplier will bear responsibility for and cost of transport to the Project Sites in accordance with the terms and conditions used in the specification of prices in the Price Schedules, including the terms and conditions of the associated Inco terms.
- 22.4.3 **Unless otherwise specified in the SCC**, the Supplier shall be free to use transportation through carriers registered in any eligible country and to obtain insurance from any eligible source country.

Unless otherwise specified in the SCC, the Supplier will provide the Procuring Entity with shipping and other documents, as specified below:

- 22.4.4 For Goods supplied from outside Kenya:
Upon shipment, the Supplier shall notify the Procuring Entity and the insurance company contracted by the Supplier to provide cargo insurance by cable, facsimile, electronic mail, or EDI with the full details of the shipment. The Supplier shall promptly send the following documents to the Procuring Entity by mail or courier, as appropriate, with a copy to the cargo insurance company:
- a Two copies of the Supplier's invoice showing the description of the Goods, quantity, unit price, and total amount;
 - b usual transportation documents;
 - c insurance certificate;
 - d certificate (s) of origin; and
 - e estimated time and point of arrival in Kenya and at the site.

22.4.5 For Goods supplied locally (i.e., from within Kenya):

Upon shipment, the Supplier shall notify the Procuring Entity by cable, facsimile, electronic mail, or EDI with the full details of the shipment. The Supplier shall promptly send the following documents to the Procuring Entity by mail or courier, as appropriate:

- a Two copies of the Supplier's invoice showing the Goods' description, quantity, unit price, and total amount;
- b Delivery note, railway receipt, or truck receipt;
- c certificate of insurance;
- d certificate (s) of origin; and
- e estimated time of arrival at the site.

22.5 Customs Clearance

- a) The Procuring Entity will bear responsibility for, and cost of, customs clearance into Kenya in accordance with the particular Incoterm(s) used for Goods supplied from outside Kenya in the Price Schedules referred to by Article 2 of the Contract Agreement.
- b) At the request of the Procuring Entity, the Supplier will make available a representative or agent during the process of customs clearance in Kenya for goods supplied from outside Kenya. In the event of delays in customs clearance that are not the fault of the Supplier:
 - i) the Supplier shall be entitled to an extension in the Time for Achieving Operational Acceptance, pursuant to GCC Clause 40;
 - ii) the Contract Price shall be adjusted to compensate the Supplier for any additional storage charges that the Supplier may incur as a result of the delay.

23 Product Upgrades

- 23.1 At any point during performance of the Contract, should technological advances be introduced by the Supplier for Information Technologies originally offered by the Supplier in its tender and still to be delivered, the Supplier shall be obligated to offer to the Procuring Entity the latest versions of the available Information Technologies having equal or better performance or functionality at the same or lesser unit prices, pursuant to GCC Clause 39 (Changes to the System).
- 23.2 At any point during performance of the Contract, for Information Technologies still to be delivered, the Supplier will also pass on to the Procuring Entity any cost reductions and additional and/ or improved support and facilities that it offers to other clients of the Supplier in Kenya, pursuant to GCC Clause 39 (Changes to the System).
- 23.3 During performance of the Contract, the Supplier shall offer to the Procuring Entity all new versions, releases, and updates of Standard Software, as well as related documentation and technical support services, within thirty (30) days of their availability from the Supplier to other clients of the Supplier in Kenya, and no later than twelve (12) months after they are released in the country of origin. In no case will the prices for these Software exceed those quoted by the Supplier in the Recurrent Costs tables in its tender.
- 23.4 **Unless otherwise specified in the SCC**, during the Warranty Period, the Supplier will provide at no additional cost to the Procuring Entity all new versions, releases, and updates for all Standard Software that are used in the System, within thirty (30) days of their availability from the Supplier to other clients of the Supplier in Kenya, and no later than twelve (12) months after they are released in the country of origin of the Software.
- 23.5 The Procuring Entity shall introduce all new versions, releases or updates of the Software within eighteen (18) months of receipt of a production-ready copy of the new version, release, or update, provided that the new version, release, or update does not adversely affect System operation or performance or require extensive reworking of the System. In cases where the new version, release, or update adversely affects System operation or performance, or requires extensive reworking of the System, the Supplier shall continue to support and maintain the version or release previously in operation for as long as necessary to allow introduction of the new version, release, or update. In no case shall the Supplier stop supporting or maintaining a version or release of the Software less than twenty-four (24) months after the Procuring Entity receives a production-ready copy of a subsequent version, release, or update. The Procuring Entity shall use all reasonable endeavors to implement any new version, release, or update as soon as practicable, subject to the twenty-four-month-long stop date.

24 Implementation, Installation, and Other Services

- 24.1 The Supplier shall provide all Services specified in the Contract and Agreed Project Plan in accordance with the highest standards of professional competence and integrity.
- 24.2 Prices charged by the Supplier for Services, if not included in the Contract, shall be agreed upon in advance by the parties (including, but not restricted to, any prices submitted by the Supplier in the Recurrent Cost Schedules of its Tender) and shall not exceed the prevailing rates charged by the Supplier to other Procuring Entity's in Kenya for similar services.

25 Inspections and Tests

- 25.1 The Procuring Entity or its representative shall have the right to inspect and/or test any components of the System, as specified in the Technical Requirements, to confirm their good working order and/ or conformity to the Contract at the point of delivery and/ or at the Project Site.
- 25.2 The Procuring Entity or its representative shall be entitled to attend any such inspections and/or tests of the components, provided that the Procuring Entity shall bear all costs and expenses incurred in connection with such attendance, including but not limited to all inspection agent fees, travel, and related expenses.
- 25.3 Should the inspected or tested components fail to conform to the Contract, the Procuring Entity may reject the component (s), and the Supplier shall either replace the rejected component (s), or make alterations as necessary so that it meets the Contract requirements free of cost to the Procuring Entity.
- 25.4 The Project Manager may require the Supplier to carry out any inspection and/or test not specified in the Contract, provided that the Supplier's reasonable costs and expenses incurred in the carrying out of such inspection and/ or test shall be added to the Contract Price. Further, if such inspection and/ or test impedes the progress of work on the System and/or the Supplier's performance of its other obligations under the Contract, due allowance will be made in respect of the Time for Achieving Operational Acceptance and the other obligations so affected.
- 25.5 If any dispute shall arise between the parties in connection with or caused by an inspection and/ or with regard to any component to be incorporated in the System that cannot be settled amicably between the parties within a reasonable period of time, either party may invoke the process pursuant to GCC Clause 43 (Settlement of Disputes), starting with referral of the matter to the Adjudicator in case an Adjudicator is included and named in the Contract Agreement.

26 Installation of the System

- 26.1 As soon as the System, or any Subsystem, has, in the opinion of the Supplier, been delivered, Pre-commissioned, and made ready for Commissioning and Operational Acceptance Testing in accordance with the Technical Requirements, the SCC and the Agreed Project Plan, the Supplier shall so notify the Procuring Entity in writing.
- 26.2 The Project Manager shall, within fourteen (14) days after receipt of the Supplier's notice under GCC Clause 26.1, either issue an Installation Certificate in the form specified in the Sample Contractual Forms Section in the tendering documents, stating that the System, or major component or Subsystem (if Acceptance by major component or Sub system is specified pursuant to the SCC for GCC Clause 27.2.1), has achieved Installation by the date of the Supplier's notice under GCC Clause 26.1, or notify the Supplier in writing of any defects and/or deficiencies, including, but not limited to, defects or deficiencies in the interoperability or integration of the various components and/or Subsystems making up the System. The Supplier shall use all reasonable endeavors to promptly remedy any defect and/ or deficiencies that the Project Manager has notified the Supplier of. The Supplier shall then promptly carry out retesting of the System or Sub system and, when in the Supplier's opinion the System or Sub system is ready for Commissioning and Operational Acceptance Testing, notify the Procuring Entity in writing, in accordance with GCC Clause 26.1. The procedure set out in this GCC Clause shall be repeated, as necessary, until an Installation Certificate is issued.
- 26.3 If the Project Manager fails to issue the Installation Certificate and fails to inform the Supplier of any defects and/or deficiencies within fourteen (14) days after receipt of the Supplier's notice under GCC Clause 26.1, or if the Procuring Entity puts the System or a Subsystem in to production operation, then the System (or Subsystem) shall be deemed to have achieved successful Installation as of the date of the Supplier's notice or repeated notice, or when the Procuring Entity put the System in to production operation, as the case may be.

27 Commissioning and Operational Acceptance

27.1 Commissioning

- 27.1.1 Commissioning of the System (or Subsystem if specified pursuant to the SCC for GCC Clause 27.2.1) shall be commenced by the Supplier:
- a) immediately after the Installation Certificate is issued by the Project Manager, pursuant to GCC Clause 26.2; or
 - b) as otherwise specified in the Technical Requirement or the Agreed Project Plan; or
 - c) immediately after Installation is deemed to have occurred, under GCC Clause 26.3.

27.1.2 The Procuring Entity shall supply the operating and technical personnel and all materials and information reasonably required to enable the Supplier to carry out its obligations with respect to Commissioning. Production use of the System or Subsystem(s) shall not commence prior to the start of formal Operational Acceptance Testing.

27.2 Operational Acceptance Tests

27.2.1 The Operational Acceptance Tests (and repeats of such tests) shall be the primary responsibility of the Procuring Entity (in accordance with GCC Clause 10.9), but shall be conducted with the full cooperation of the Supplier during Commissioning of the System (or major components or Subsystem[s]), to ascertain whether the System (or major component or Subsystem[s]) conforms to the Technical Requirements and meets the standard of performance quoted in the Supplier's tender, including, but not restricted to, the functional and technical performance requirements. **Unless otherwise specified in the SCC,** the Operational Acceptance Tests during Commissioning will be conducted as specified in the Technical Requirements and/ or the Agreed Project Plan. At the Procuring Entity's discretion, Operational Acceptance Tests may also be performed on replacement Goods, upgrades and new version releases, and Goods that are added or field-modified after Operational Acceptance of the System.

27.2.2 If for reasons attributable to the Procuring Entity, the Operational Acceptance Test of the System (or Subsystem[s] or major components, pursuant to the SCC for GCC Clause 27.2.1) cannot be successfully completed within ninety (90) days from the date of Installation or any other period agreed upon in writing by the Procuring Entity and the Supplier, the Supplier shall be deemed to have fulfilled its obligations with respect to the technical and functional aspects of the Technical Specifications, SCC and/ or the Agreed Project Plan, and GCC Clause 28.2 and 28.3 shall not apply.

27.3 Operational Acceptance

- 27.3.1 Subject to GCC Clause 27.4 (Partial Acceptance) below, Operational Acceptance shall occur in respect of the System, when
- a) the Operational Acceptance Tests, as specified in the Technical Requirements, and/or SCC and/or the Agreed Project Plan have been successfully completed; or
 - b) the Operational Acceptance Tests have not been successfully completed or have not been carried out for reasons that are attributable to the Procuring Entity within the period from the date of Installation or any other agreed-upon period as specified in GCC Clause 27.2.2 above; or
 - c) the Procuring Entity has put the System into production or use for sixty (60) consecutive days. If the System is put into production or use in this manner, the Supplier shall notify the Procuring Entity and document such use.
- 27.3.2 At any time after any of the events set out in GCC Clause 27.3.1 have occurred, the Supplier may give a notice to the Project Manager requesting the issue of an Operational Acceptance Certificate.
- 27.3.3 After consultation with the Procuring Entity, and within fourteen (14) days after receipt of the Supplier's notice, the Project Manager shall:
- a) Issue an Operational Acceptance Certificate; or
 - b) Notify the Supplier in writing of any defect or deficiencies or other reason for the failure of the Operational Acceptance Tests; or
 - c) Issue the Operational Acceptance Certificate, if the situation covered by GCC Clause 27.3.1 (b) arises.

- 27.3.4 The Supplier shall use all reasonable endeavors to promptly remedy any defect and/or deficiencies and/or other reasons for the failure of the Operational Acceptance Test that the Project Manager has notified the Supplier of. Once such remedies have been made by the Supplier, the Supplier shall notify the Procuring Entity, and the Procuring Entity, with the full cooperation of the Supplier, shall use all reasonable endeavors to promptly carry out retesting of the System or Sub system. Upon the successful conclusion of the Operational Acceptance Tests, the Supplier shall notify the Procuring Entity of its request for Operational Acceptance Certification, in accordance with GCC Clause 27.3.3. The Procuring Entity shall then issue to the Supplier the Operational Acceptance Certification in accordance with GCC Clause 27.3.3 (a), or shall notify the Supplier of further defects, deficiencies, or other reasons for the failure of the Operational Acceptance Test. The procedure set out in this GCC Clause 27.3.4 shall be repeated, as necessary, until an Operational Acceptance Certificate is issued.
- 27.3.5 If the System or Subsystem fails to pass the Operational Acceptance Test(s) in accordance with GCC Clause 27.2, the neither:
- a The Procuring Entity may consider terminating the Contract, pursuant to GCC Clause 41.2.2; or
 - b If the failure to achieve Operational Acceptance within the specified time period is a result of the failure of the Procuring Entity to fulfill its obligations under the Contract, then the Supplier shall be deemed to have fulfilled its obligations with respect to the relevant technical and functional aspects of the Contract, and GCC Clauses 30.3 and 30.4 shall not apply.
- 27.3.6 If within fourteen (14) days after receipt of the Supplier's notice the Project Manager fails to issue the Operational Acceptance Certificate or fails to inform the Supplier in writing of the justifiable reasons why the Project Manager has not issued the Operational Acceptance Certificate, the System or Subsystem shall be deemed to have been accepted as of the date of the Supplier's said notice.
- 27.4 Partial Acceptance
- 27.4.1 If so specified in the SCC for GCC Clause 27.2.1, Installation and Commissioning shall be carried out individually for each identified major component or Subsystem (s) of the System. In this event, the provisions in the Contract relating to Installation and Commissioning, including the Operational Acceptance Test, shall apply to each such major component or Subsystem individually, and Operational Acceptance Certificate (s) shall be issued accordingly for each such major component or Subsystem of the System, subject to the limitations contained in GCC Clause 27.4.2.
- 27.4.2 The issuance of Operational Acceptance Certificates for individual major components or Subsystems pursuant to GCC Clause 27.4.1 shall not relieve the Supplier of its obligation to obtain an Operational Acceptance Certificate for the System as an integrated whole (if so specified in the SCC for GCC Clauses 12.1 and 27.2.1) once all major components and Subsystems have been supplied, installed, tested, and commissioned.
- 27.4.3 In the case of minor components for the System that by their nature do not require Commissioning or an Operational Acceptance Test (e.g., minor fittings, furnishings or site works, etc.), the Project Manager shall issue an Operational Acceptance Certificate within fourteen (14) days after the fittings and/or furnishings have been delivered and/or installed or the site works have been completed. The Supplier shall, however, use all reasonable endeavors to promptly remedy any defects or deficiencies in such minor components detected by the Procuring Entity or Supplier.

F. Guarantees and Liabilities

28 Operational Acceptance Time Guarantee

- 28.1 The Supplier guarantees that it shall complete the supply, Installation, Commissioning, and achieve Operational Acceptance of the System (or Subsystems, pursuant to the SCC for GCC Clause 27.2.1) within the time periods specified in the Implementation Schedule and/or the Agreed Project Plan pursuant to GCC Clause 8.2, or within such extended time to which the Supplier shall be entitled under GCC Clause 40 (Extension of Time for Achieving Operational Acceptance).
- 28.2 **Unless otherwise specified in the SCC**, if the Supplier fails to supply, install, commission, and achieve Operational Acceptance of the System (or Subsystems pursuant to the SCC for GCC Clause 27.2.1) within the time for achieving Operational Acceptance specified in the Implementation Schedule or the Agreed Project Plan, or any extension of the time for achieving Operational Acceptance previously granted under GCC Clause 40 (Extension of Time for Achieving Operational Acceptance), the Supplier shall pay to the

Procuring Entity liquidated damages at the rate of one half of one percent per week as a percentage of the Contract Price (exclusive of Recurrent Costs if any), or the relevant part of the Contract Price if a Subsystem has not achieved Operational Acceptance. The aggregate amount of such liquidated damages shall in no event exceed the amount often (10) percent of the Contract Price (exclusive of Recurrent Costs if any). Once the Maximum is reached, the Procuring Entity may consider termination of the Contract, pursuant to GCC Clause 41.2.2.

28.3 **Unless otherwise specified in the SCC**, liquidated damages payable under GCC Clause 28.2 shall apply only to the failure to achieve Operational Acceptance of the System (and Subsystems) as specified in the Implementation Schedule and/or Agreed Project Plan. This Clause 28.3 shall not limit, however, any other rights or remedies the Procuring Entity may have under the Contract for other delays.

28.4 If liquidated damages are claimed by the Procuring Entity for the System (or Subsystem), the Supplier shall have no further liability whatsoever to the Procuring Entity in respect to the Operational Acceptance time guarantee for the System (or Subsystem). However, the payment of liquidated damages shall not in any way relieve the Supplier from any of its obligations to complete the System or from any other of its obligations and liabilities under the Contract.

29 Defect Liability

29.1 The Supplier warrants that the System, including all Information Technologies, Materials, and other Goods supplied and Services provided, shall be free from defects in the design, engineering, Materials, and workmanship that prevent the System and/or any of its components from fulfilling the Technical Requirements or that limit in a material fashion the performance, reliability, or extensibility of the System and/or Subsystems. **Unless otherwise specified in the SCC**, there will be NO exceptions and/or limitations to this warranty with respect to Software (or categories of Software). Commercial warranty provisions of products supplied under the Contract shall apply to the extent that they do not conflict with the provisions of this Contract.

29.2 The Supplier also warrants that the Information Technologies, Materials, and other Goods supplied under the Contract are new, unused, and incorporate all recent improvements in design that materially affect the System's or Subsystem's ability to fulfill the Technical Requirements.

29.3 **Unless otherwise specified in the SCC**, the Supplier warrants that : (i) all Goods components to be incorporated into the System form part of the Supplier's and/or Subcontractor's current product lines, and (ii) they have been previously released to the market.

29.4 **Unless otherwise specified in the SCC**, the Warranty Period shall commence from the date of Operational Acceptance of the System (or of any major component or Subsystem for which separate Operational Acceptance is provided for in the Contract) and shall extend for thirty-six (36) months.

29.5 If during the Warranty Period any defect as described in GCC Clause 29.1 should be found in the design, engineering, Materials, and workmanship of the Information Technologies and other Goods supplied or of the Services provided by the Supplier, the Supplier shall promptly, in consultation and agreement with the Procuring Entity regarding appropriate remedying of the defects, and at its sole cost, repair, replace, or otherwise make good (as the Supplier shall, at its discretion, determine) such defect as well as any damage to the System caused by such defect. Any defective Information Technologies or other Goods that have been replaced by the Supplier shall remain the property of the Supplier.

29.6 The Supplier shall not be responsible for the repair, replacement, or making good of any defect, or of any damage to the System arising out of or resulting from any of the following causes:

- Improper operation or maintenance of the System by the Procuring Entity;
- Normal wear and tear;
- use of the System with items not supplied by the Supplier, unless otherwise identified in the Technical Requirements, or approved by the Supplier; or
- modifications made to the System by the Procuring Entity, or a third party, not approved by the Supplier.

29.7 The Supplier's obligations under this GCC Clause 29 shall not apply to:

- any materials that are normally consumed in operation or have a normal life shorter than the Warranty Period; or

- b) any designs, specifications, or other data designed, supplied, or specified by or on behalf of the Procuring Entity or any matters for which the Supplier has disclaimed responsibility, in accordance with GCC Clause 21.1.2.

29.8 The Procuring Entity shall give the Supplier a notice promptly following the discovery of such defect, stating the nature of any such defect together with all available evidence. The Procuring Entity shall afford all reasonable opportunity for the Supplier to inspect any such defect. The Procuring Entity shall afford the Supplier all necessary access to the System and the site to enable the Supplier to perform its obligations under this GCC Clause 29.

29.9 The Supplier may, with the consent of the Procuring Entity, remove from the site any Information Technologies and other Goods that are defective, if the nature of the defect, and/or any damage to the System caused by the defect, is such that repairs cannot be expeditiously carried out at the site. If the repair, replacement, or making good is of such a character that it may affect the efficiency of the System, the Procuring Entity may give the Supplier notice requiring that tests of the defective part be made by the Supplier immediately upon completion of such remedial work, where upon the Supplier shall carry out such tests.

If such part fails the tests, the Supplier shall carry out further repair, replacement, or making good (as the case maybe) until that part of the System passes such tests. The tests shall be agreed upon by the Procuring Entity and the Supplier.

29.10 **Unless otherwise specified in the SCC**, the response times and repair/replacement times for Warranty Defect Repair are specified in the Technical Requirements. Nevertheless, if the Supplier fails to commence the work necessary to remedy such defect or any damage to the System caused by such defect within two weeks the Procuring Entity may, following notice to the Supplier, proceed to do such work or contract a third party (or parties) to do such work, and the reasonable costs incurred by the Procuring Entity in connection with such work shall be paid to the Procuring Entity by the Supplier or may be deducted by the Procuring Entity from any monies due the Supplier or claimed under the Performance Security.

29.11 If the System or Subsystem cannot be used by reason of such defect and/or making good of such defect, the Warranty Period for the System shall be extended by a period equal to the period during which the System or Subsystem could not be used by the Procuring Entity because of such defect and/or making good of such defect.

29.12 Items substituted for defective parts of the System during the Warranty Period shall be covered by the Defect Liability Warranty for the remainder of the Warranty Period applicable for the part replaced or three (3) months, whichever is greater. For reasons of information security, the Procuring Entity may choose to retain physical possession of any replaced defective information storage devices.

29.13 At the request of the Procuring Entity and without prejudice to any other rights and remedies that the Procuring Entity may have against the Supplier under the Contract, the Supplier will offer all possible assistance to the Procuring Entity to seek warranty services or remedial action from any subcontracted third-party producers or licensor of Goods included in the System, including without limitation assignment or transfer in favor of the Procuring Entity of the benefit of any warranties given by such producers or licensors to the Supplier.

30 Functional Guarantees

30.1 The Supplier guarantees that, once the Operational Acceptance Certificate(s) has been issued, the System represents a complete, integrated solution to the Procuring Entity's requirements set forth in the Technical Requirements and it conforms to all other aspects of the Contract. The Supplier acknowledges that GCC Clause 27 regarding Commissioning and Operational Acceptance govern show technical conformance of the System to the Contract requirements will be determined.

30.2 If, for reasons attributable to the Supplier, the System does not conform to the Technical Requirements or does not conform to all other aspects of the Contract, the Supplier shall at its cost and expense make such changes, modifications, and/or additions to the System as may be necessary to conform to the Technical Requirements and meet all functional and performance standards. The Supplier shall notify the Procuring Entity upon completion of the necessary changes, modifications, and/or additions and shall request the Procuring Entity to repeat the Operational Acceptance Tests until the System achieves Operational Acceptance.

- 30.3 If the System (or Subsystem[s]) fails to achieve Operational Acceptance, the Procuring Entity may consider termination of the Contract, pursuant to GCC Clause 41.2.2, and forfeiture of the Supplier's Performance Security in accordance with GCC Clause 13.3 in compensation for the extra costs and delays likely to result from this failure.

31 Intellectual Property Rights Warranty

- 31.1 The Supplier here by represents and warrants that:
- a) The System as supplied, installed, tested, and accepted;
 - b) Use of the System in accordance with the Contract; and
 - c) Copying of the Software and Materials provided to the Procuring Entity in accordance with the Contract do not and will not infringe any Intellectual Property Rights held by any third party and that it has all necessary rights or at its sole expense shall have secured in writing all transfer so frights and other consents necessary to make the assignments, licenses, and other transfers of Intellectual Property Rights and the warranties set forth in the Contract, and for the Procuring Entity to own or exercise all Intellectual Property Rights as provided in the Contract. Without limitation, the Supplier shall secure all necessary written agreements, consents, and transfers of rights from its employees and other persons or entities whose services are used for development of the System.

32 Intellectual Property Rights Indemnity

- 32.1 The Supplier shall indemnify and hold harmless the Procuring Entity and its employees and officers from and against any and all losses, liabilities, and costs (including losses, liabilities, and costs incurred in defending a claim alleging such a liability), that the Procuring Entity or its employees or officers may suffer as a result of any infringement or alleged infringement of any Intellectual Property Rights by reason of:
- a) Installation of the System by the Supplier or the use of the System, including the Materials, in the country where the site is located;
 - b) copying of the Software and Materials provided by the Supplier in accordance with the Agreement; and
 - c) sale of the products produced by the System in any country, except to the extent that such losses, liabilities, and costs a rise as a result of the Procuring Entity's breach of GCC Clause 32.2.
- 32.2 Such indemnity shall not cover any use of the System, including the Materials, other than for the purpose indicated by or to be reasonably inferred from the Contract, any infringement resulting from the use of the System, or any products of the System produced there by in association or combination with any other goods or services not supplied by the Supplier, where the infringement arises because of such association or combination and not because of use of the System in its own right.
- 32.3 Such indemnities shall also not apply if any claim of infringement:
- a) Is asserted by apparent, subsidiary, or affiliate of the Procuring Entity's organization;
 - b) Is a direct result of a design mandated by the Procuring Entity's Technical Requirements and the possibility of such infringement was duly noted in the Supplier's Tender; or
 - c) Results from the alteration of the System, including the Materials, by the Procuring Entity or any persons other than the Supplier or a person authorized by the Supplier.
- 32.4 If any proceedings are brought or any claim is made against the Procuring Entity arising out of the matters referred to in GCC Clause 32.1, the Procuring Entity shall promptly give the Supplier notice of such proceedings or claims, and the Supplier may at its own expense and in the Procuring Entity's name conduct such proceedings or claim and any negotiations for the settlement of any such proceedings or claim.

If the Supplier fails to notify the Procuring Entity within twenty-eight (28) days after receipt of such notice that it intends to conduct any such proceedings or claim, then the Procuring Entity shall be free to conduct the same on its own behalf. Unless the Supplier has so failed to notify the Procuring Entity within the twenty-eight (28) days, the Procuring Entity shall make no admission that may be prejudicial to the defense of any such proceedings or claim. The Procuring Entity shall, at the Supplier's request, afford all available assistance to the Supplier in conducting such proceedings or claim and shall be reimbursed by the Supplier for all reasonable expenses incurred in so doing.

- 32.5 The Procuring Entity shall indemnify and hold harmless the Supplier and its employees, officers, and Subcontractors from and against any and all losses, liabilities, and costs (including losses, liabilities, and costs incurred in defending a claimalleging such a liability) that the Supplier or its employees, officers, or

Subcontractors may suffer as a result of any infringement or alleged infringement of any Intellectual Property Rights arising out of or in connection with any design, data, drawing, specification, or other documents or materials provided to the Supplier in connection with this Contract by the Procuring Entity or any persons (other than the Supplier) contracted by the Procuring Entity, except to the extent that such losses, liabilities, and costs arise as a result of the Supplier's breach of GCC Clause 32.8.

32.6 Such indemnity shall not cover

- a) any use of the design, data, drawing, specification, or other documents or materials, other than for the purpose indicated by or to be reasonably inferred from the Contract;
- b) any infringement resulting from the use of the design, data, drawing, specification, or other documents or materials, or any products produced thereby, in association or combination with any other Goods or Services not provided by the Procuring Entity or any other person contracted by the Procuring Entity, where the infringement arises because of such association or combination and not because of the use of the design, data, drawing, specification, or other documents or materials in its own right.

32.7 Such indemnities shall also not apply:

- a) If any claim of infringement is asserted by apparent, subsidiary, or affiliate of the Supplier's organization;
- b) to the extent that any claim of infringement is caused by the alteration, by the Supplier, or any persons contracted by the Supplier, of the design, data, drawing, specification, or other documents or materials provided to the Supplier by the Procuring Entity or any persons contracted by the Procuring Entity.

32.8 If any proceedings are brought or any claim is made against the Supplier arising out of the matters referred to in GCC Clause 32.5, the Supplier shall promptly give the Procuring Entity notice of such proceedings or claims, and the Procuring Entity may at its own expense and in the Supplier's name conduct such proceedings or claim and any negotiations for the settlement of any such proceedings or claim. If the Procuring Entity fails to notify the Supplier within twenty-eight (28) days after receipt of such notice that it intends to conduct any such proceedings or claim, then the Supplier shall be free to conduct the same on its own behalf. Unless the Procuring Entity has so failed to notify the Supplier within the twenty-eight (28) days, the Supplier shall make no admission that may be prejudicial to the defense of any such proceedings or claim. The Supplier shall, at the Procuring Entity's request, afford all available assistance to the Procuring Entity in conducting such proceedings or claim and shall be reimbursed by the Procuring Entity for all reasonable expenses incurred in so doing.

33 Limitation of Liability

33.1 Provided the following does not exclude or limit any liabilities of either party in ways not permitted by applicable law:

- a) the Supplier shall not be liable to the Procuring Entity, whether in contract, tort, or otherwise, for any indirect or consequential loss or damage, loss of use, loss of production, or loss of profits or interest costs, provided that this exclusion shall not apply to any obligation of the Supplier to pay liquidated damages to the Procuring Entity; and
- b) the aggregate liability of the Supplier to the Procuring Entity, whether under the Contract, in tort or otherwise, shall not exceed the total Contract Price, provided that this limitation shall not apply to any obligation of the Supplier to indemnify the Procuring Entity with respect to intellectual property rights infringement.

G. Risk Distribution

34 Transfer of Ownership

34.1 With the exception of Software and Materials, the ownership of the Information Technologies and other Goods shall be transferred to the Procuring Entity at the time of Delivery or otherwise under terms that may be agreed upon and specified in the Contract Agreement.

34.2 Ownership and the terms of usage of the Software and Materials supplied under the Contract shall be governed by GCC Clause 15 (Copyright) and any elaboration in the Technical Requirements.

- 34.3 Ownership of the Supplier's Equipment used by the Supplier and its Subcontractors in connection with the Contract shall remain with the Supplier or its Subcontractors.

35 Care of the System

- 35.1 The Procuring Entity shall be come responsible for the care and custody of the System or Subsystems upon their Delivery. The Procuring Entity shall make good at its own cost any loss or damage that may occur to the System or Subsystems from any cause from the date of Delivery until the date of Operational Acceptance of the System or Subsystems, pursuant to GCC Clause 27 (Commissioning and Operational Acceptance), except such loss or damage arising from acts or omissions of the Supplier, its employees, or subcontractors.
- 35.2 If any loss or damage occurs to the System or any part of the System by reason of:
- a) (in so far as they relate to the country where the Project Site is located) nuclear reaction, nuclear radiation, radioactive contamination, a pressure wave caused by aircraft or other aerial objects, or any other occurrences that an experienced contractor could not reasonably foresee, or if reasonably foreseeable could not reasonably make provision for or insure against, in so far as such risks are not normally insurable on the insurance market and are mentioned in the general exclusions of the policy of insurance taken out under GCC Clause 37;
 - b) Any use not in accordance with the Contract, by the Procuring Entity or any third party;
 - c) Any use of or reliance upon any design, data, or specification provided or designated by or on behalf of the Procuring Entity, or any such matter for which the Supplier has disclaimed responsibility in accordance with GCC Clause 21.1.2, the Procuring Entity shall pay to the Supplier all sums payable in respect of the System or Subsystems that have achieved Operational Acceptance, notwithstanding that the same be lost, destroyed, or damaged. If the Procuring Entity requests the Supplier in writing to make good any loss or damage to the System thereby occasioned, the Supplier shall make good the same at the cost of the Procuring Entity in accordance with GCC Clause 39. If the Procuring Entity does not request the Supplier in writing to make good any loss or damage to the System there by occasioned, the Procuring Entity shall either request a change in accordance with GCC Clause 39, excluding the performance of that part of the System there by lost, destroyed, or damaged, or, where the loss or damage affects a substantial part of the System, the Procuring Entity shall terminate the Contract pursuant to GCC Clause 41.1.
- 35.3 The Procuring Entity shall be liable for any loss of or damage to any Supplier's Equipment which the Procuring Entity has authorized to locate within the Procuring Entity's premises for use in fulfillment of Supplier's obligations under the Contract, except where such loss or damage arises from acts or omissions of the Supplier, its employees, or subcontractors.

36 Loss of or Damage to Property; Accident or Injury to Workers; Indemnification

- 36.1 The Supplier and each and every Subcontractor shall abide by the job safety, insurance, customs, and immigration measures prevalent and laws in force in Kenya.
- 36.2 Subject to GCC Clause 36.3, the Supplier shall indemnify and hold harmless the Procuring Entity and its employees and officers from and against any and all losses, liabilities and costs (including losses, liabilities, and costs incurred in defending a claim alleging such a liability) that the Procuring Entity or its employees or officers may suffer as a result of the death or injury of any person or loss of or damage to any property (other than the System, whether accepted or not) arising in connection with the supply, installation, testing, and Commissioning of the System and by reason of the negligence of the Supplier or its Subcontractors, or their employees, officers or agents, except any injury, death, or property damage caused by the negligence of the Procuring Entity, its contractors, employees, officers, or agents.
- 36.3 If any proceedings are brought or any claim is made against the Procuring Entity that might subject the Supplier to liability under GCC Clause 36.2, the Procuring Entity shall promptly give the Supplier notice of such proceedings or claims, and the Supplier may at its own expense and in the Procuring Entity's name conduct such proceedings or claim and any negotiations for the settlement of any such proceedings or claim. If the Supplier fails to notify the Procuring Entity within twenty-eight (28) days after receipt of such notice that it intends to conduct any such proceedings or claim, then the Procuring Entity shall be free to conduct the same on its own behalf. Unless the Supplier has so failed to notify the Procuring Entity within the twenty-eight (28) day period, the Procuring Entity shall make no admission that may be prejudicial to the defense of any such proceedings or claim. The Procuring Entity shall, at the Supplier's request, afford all available assistance to the Supplier in conducting such proceedings or claim and shall be reimbursed by the

Supplier for all reasonable expenses incurred in so doing.

36.4 The Procuring Entity shall indemnify and hold harmless the Supplier and its employees, officers, and Subcontractors from any and all losses, liabilities, and costs (including losses, liabilities, and costs incurred in defending a claim alleging such a liability) that the Supplier or its employees, officers, or Subcontractors may suffer as a result of the death or personal injury of any person or loss of or damage to property of the Procuring Entity, other than the System not yet achieving Operational Acceptance, that is caused by fire, explosion, or any other perils, in excess of the amount recoverable from insurances procured under GCC Clause 37 (Insurances), provided that such fire, explosion, or other perils were not caused by any act or failure of the Supplier.

36.5 If any proceedings are brought or any claim is made against the Supplier that might subject the Procuring Entity to liability under GCC Clause 36.4, the Supplier shall promptly give the Procuring Entity notice of such proceedings or claims, and the Procuring Entity may at its own expense and in the Supplier's name conduct such proceedings or claim and any negotiations for the settlement of any such proceedings or claim. If the Procuring Entity fails to notify the Supplier within twenty-eight (28) days after receipt of such notice that it intends to conduct any such proceedings or claim, then the Supplier shall be free to conduct the same on its own behalf. Unless the Procuring Entity has so failed to notify the Supplier within the twenty-eight (28) days, the Supplier shall make no admission that may be prejudicial to the defense of any such proceedings or claim. The Supplier shall, at the Procuring Entity's request, afford all available assistance to the Procuring Entity in conducting such proceedings or claim and shall be reimbursed by the Procuring Entity for all reasonable expenses incurred in so doing.

36.6 The party entitled to the benefit of an indemnity under this GCC Clause 36 shall take all reasonable measures to mitigate any loss or damage that has occurred. If the party fails to take such measures, the other party's liabilities shall be correspondingly reduced.

37 Insurances

37.1 The Supplier shall at its expense take out and maintain in effect, or cause to be taken out and maintained in effect, during the performance of the Contract, the insurance set forth below. The identity of the insurers and the form of the policies shall be subject to the approval of the Procuring Entity, who should not unreasonably withhold such approval.

a) **Cargo Insurance During Transport**

as applicable, 110 percent of the price of the Information Technologies and other Goods in a freely convertible currency, covering the Goods from physical loss or damage during shipment through receipt at the Project Site.

b) **Installation "All Risks" Insurance**

as applicable, 110 percent of the price of the Information Technologies and other Goods covering the Goods at the site from all risks of physical loss or damage (excluding only perils commonly excluded under "all risks" insurance policies of this type by reputable insurers) occurring prior to Operational Acceptance of the System.

c) **Third-Party Liability Insurance**

On terms as **specified in the SCC**, covering bodily injury or death suffered by third parties (including the Procuring Entity's personnel) and loss of or damage to property (including the Procuring Entity's property and any Subsystems that have been accepted by the Procuring Entity) occurring in connection with the supply and installation of the Information System.

d) **Automobile Liability Insurance**

In accordance with the statutory requirements prevailing in Kenya, covering use of all vehicles used by the Supplier or its Subcontractors (whether or not owned by them) in connection with the execution of the Contract.

e) **Other Insurance (if any), as specified in the SCC.**

37.2 The Procuring Entity shall be named as co-insured under all insurance policies taken out by the Supplier pursuant to GCC Clause 37.1, except for the Third-Party Liability, and the Supplier's Subcontractors shall be named as co-insured under all insurance policies taken out by the Supplier pursuant to GCC Clause 37.1 except for Cargo Insurance During Transport. All insurer's rights of subrogation against such co-insured for losses or claims arising out of the performance of the Contract shall be waived under such policies.

37.3 The Supplier shall deliver to the Procuring Entity certificates of insurance (or copies of the insurance policies) as evidence that the required policies are in full force and effect.

- 37.4 The Supplier shall ensure that, where applicable, its Subcontractor(s) shall take out and maintain in effect adequate insurance policies for their personnel and vehicles and for work executed by them under the Contract, unless such Subcontractors are covered by the policies taken out by the Supplier.
- 37.5 If the Supplier fails to take out and/or maintain in effect the insurance referred to in GCC Clause 37.1, the Procuring Entity may take out and maintain in effect any such insurance and may from time to time deduct from any amount due to the Supplier under the Contract any premium that the Procuring Entity shall have paid to the insurer or may otherwise recover such amount as a debt due from the Supplier.
- 37.6 Unless otherwise provided in the Contract, the Supplier shall prepare and conduct all and any claims made under the policies affected by it pursuant to this GCC Clause 37, and all monies payable by any insurers shall be paid to the Supplier. The Procuring Entity shall give to the Supplier all such reasonable assistance as may be required by the Supplier in connection with any claim under the relevant insurance policies. With respect to insurance claims in which the Procuring Entity's interest is involved, the Supplier shall not give any release or make any compromise with the insurer without the prior written consent of the Procuring Entity. With respect to insurance claims in which the Supplier's interest is involved, the Procuring Entity shall not give any release or make any compromise with the insurer without the prior written consent of the Supplier.
- 38 Force Majeure**
- 38.1 "Force Majeure" shall mean any event beyond the reasonable control of the Procuring Entity or of the Supplier, as the case may be, and which is unavoidable notwithstanding the reasonable care of the party affected and shall include, without limitation, the following:
- a) war, hostilities, or war like operations (whether a state of war be declared or not), invasion, act of foreign enemy, and civil war;
 - b) rebellion, revolution, insurrection, mutiny, usurpation of civil or military government, conspiracy, riot, civil commotion, and terrorist acts;
 - c) confiscation, nationalization, mobilization, commandeering or requisition by or under the order of any government or de jure or de facto authority or ruler, or any other act or failure to act of any local state or national government authority;
 - d) strike, sabotage, lockout, embargo, import restriction, port congestion, lack of usual means of public transportation and communication, industrial dispute, shipwreck, shortage or restriction of power supply, epidemics, quarantine, and plague;
 - e) earthquake, landslide, volcanic activity, fire, flood or inundation, tidal wave, typhoon or cyclone, hurricane, storm, lightning, or other inclement weather condition, nuclear and pressure waves, or other natural or physical disaster;
 - f) failure, by the Supplier, to obtain the necessary export permit (s) from the governments of the Country(s) of Origin of the Information Technologies or other Goods, or Supplier's Equipment provided that the Supplier has made all reasonable efforts to obtain the required export permit(s), including the exercise of due diligence in determining the eligibility of the System and all of its components for receipt of the necessary export permits.
- 38.2 If either party is prevented, hindered, or delayed from or in performing any of its obligations under the Contract by an event of Force Majeure, then it shall notify the other in writing of the occurrence of such event and the circumstances of the event of Force Majeure within fourteen (14) days after the occurrence of such event.
- 38.3 The party who has given such notice shall be excused from the performance or punctual performance of its obligations under the Contract for so long as the relevant event of Force Majeure continues and to the extent that such party's performance is prevented, hindered, or delayed. The Time for Achieving Operational Acceptance shall be extended in accordance with GCC Clause 40 (Extension of Time for Achieving Operational Acceptance).

- 38.4 The party or parties affected by the event of Force Majeure shall use reasonable efforts to mitigate the effect of the event of Force Majeure upon its or their performance of the Contract and to fulfill its or their obligations under the Contract, but without prejudice to either party's right to terminate the Contract under GCC Clause 38.6.
- 38.5 No delay or nonperformance by either party to this Contract caused by the occurrence of any event of Force Majeure shall:
- a) Constitute a default or breach of the Contract;
 - b) (subject to GCC Clauses 35.2, 38.3, and 38.4) give rise to any claim for damages or additional cost or expense occasioned by the delay or nonperformance, if, and to the extent that, such delay or non-performance is caused by the occurrence of an event of Force Majeure.
- 38.6 If the performance of the Contract is substantially prevented, hindered, or delayed for a single period of more than sixty (60) days or an aggregate period of more than one hundred and twenty (120) days on account of one or more events of Force Majeure during the time period covered by the Contract, the parties will attempt to develop a mutually satisfactory solution, failing which, either party may terminate the Contract by giving a notice to the other.
- 38.7 In the event of termination pursuant to GCC Clause 38.6, the rights and obligations of the Procuring Entity and the Supplier shall be as specified in GCC Clauses 41.1.2 and 41.1.3.
- 38.8 Notwithstanding GCC Clause 38.5, Force Majeure shall not apply to any obligation of the Procuring Entity to make payments to the Supplier under this Contract.

H. Change in Contract Elements

39 Changes to the System

39.1 Introducing a Change

- 39.1.1 Subject to GCC Clauses 39.2.5 and 39.2.7, the Procuring Entity shall have the right to propose, and subsequently require, the Project Manager to order the Supplier from time to time during the performance of the Contract to make any change, modification, addition, or deletion to, in, or from the System (interchangeably called "Change"), provided that such Change falls within the general scope of the System, does not constitute unrelated work, and is technically practicable, taking into account both the state of advancement of the System and the technical compatibility of the Change envisaged with the nature of the System as originally specified in the Contract.
- 29.1.2 A Change may involve, but is not restricted to, the substitution of updated Information Technologies and related Services in accordance with GCC Clause 23 (Product Upgrades).
- 39.1.3 The Supplier may from time to time during its performance of the Contract propose to the Procuring Entity (with a copy to the Project Manager) any Change that the Supplier considers necessary or desirable to improve the quality or efficiency of the System. The Procuring Entity may at its discretion approve or reject any Change proposed by the Supplier.
- 39.1.4 Notwithstanding GCC Clauses 39.1.1 and 39.1.2, no change made necessary because of any default of the Supplier in the performance of its obligations under the Contract shall be deemed to be a Change, and such change shall not result in any adjustment of the Contract Price or the Time for Achieving Operational Acceptance.
- 39.1.5 The procedure on how to proceed with and execute Changes is specified in GCC Clauses 39.2 and 39.3, and further details and sample forms are provided in the Sample Contractual Forms Section in the tendering documents.
- 39.1.6 Moreover, the Procuring Entity and Supplier will agree, during development of the Project Plan, to a date prior to the scheduled date for Operational Acceptance, after which the Technical Requirements for the System shall be "frozen." Any Change initiated after this time will be dealt with after Operational Acceptance.

39.2 Changes Originating from Procuring Entity

39.2.4 If the Procuring Entity proposes a Change pursuant to GCC Clauses 39.1.1, it shall send to the Supplier a "Request for Change Proposal," requiring the Supplier to prepare and furnish to the Project Manager as soon as reasonably practicable a "Change Proposal," which shall include the following:

- a Brief description of the Change;
- b Impact on the Time for Achieving Operational Acceptance;
- c Detailed estimated cost of the Change;
- d Effect on Functional Guarantees (if any);
- e Effect on any other provisions of the Contract.

39.2.5 Prior to preparing and submitting the "Change Proposal," the Supplier shall submit to the Project Manager a "Change Estimate Proposal," which shall be an estimate of the cost of preparing the Change Proposal, plus a first approximation of the suggested approach and cost for implementing the changes. Upon receipt of the Supplier's Change Estimate Proposal, the Procuring Entity shall do one of the following:

- a accept the Supplier's estimate with instructions to the Supplier to proceed with the preparation of the Change Proposal;
- b advise the Supplier of any part of its Change Estimate Proposal that is unacceptable and request the Supplier to review its estimate;
- c advise the Supplier that the Procuring Entity does not intend to proceed with the Change.

39.2.6 Upon receipt of the Procuring Entity's instruction to proceed under GCC Clause 39.2.2 (a), the Supplier shall, with proper expedition, proceed with the preparation of the Change Proposal, in accordance with GCC Clause 39.2.1. The Supplier, at its discretion, may specify a validity period for the Change Proposal, after which if the Procuring Entity and Supplier has not reached agreement in accordance with GCC Clause 39.2.6, then GCC Clause 39.2.7 shall apply.

39.2.7 The pricing of any Change shall, as far as practicable, be calculated in accordance with the rates and prices included in the Contract. If the nature of the Change is such that the Contract rates and prices are inequitable, the parties to the Contract shall agree on other specific rates to be used for valuing the Change.

39.2.8 If before or during the preparation of the Change Proposal it becomes apparent that the aggregate impact of compliance with the Request for Change Proposal and with all other Change Orders that have already become binding upon the Supplier under this GCC Clause 39 would be to increase or decrease the Contract Price as originally set forth in Article 2 (Contract Price) of the Contract Agreement by more than fifteen (15) percent, the Supplier may give a written notice of objection to this Request for Change Proposal prior to furnishing the Change Proposal. If the Procuring Entity accepts the Supplier's objection, the Procuring Entity shall withdraw the proposed Change and shall notify the Supplier in writing of its acceptance.

The Supplier's failure to so object to a Request for Change Proposal shall neither affect its right to object to any subsequent requested Changes or Change Orders, nor affect its right to take into account, when making such subsequent objection, the percentage increase or decrease in the Contract Price that any Change not objected to by the Supplier represents.

39.2.9 Upon receipt of the Change Proposal, the Procuring Entity and the Supplier shall mutually agree upon all matters contained in the Change Proposal. Within fourteen (14) days after such agreement, the Procuring Entity shall, if it intends to proceed with the Change, issue the Supplier a Change Order. If the Procuring Entity is unable to reach a decision within fourteen (14) days, it shall notify the Supplier with details of when the Supplier can expect a decision. If the Procuring Entity decides not to proceed with the Change for whatever reason, it shall, within the said period of fourteen (14) days, notify the Supplier accordingly. Under such circumstances, the Supplier shall be entitled to reimbursement of all costs reasonably incurred by it in the preparation of the Change Proposal, provided that these do not exceed the amount given by the Supplier in its Change Estimate Proposal submitted in accordance with GCC Clause 39.2.2.

39.2.10 If the Procuring Entity and the Supplier cannot reach agreement on the price for the Change, an equitable adjustment to the Time for Achieving Operational Acceptance, or any other matters identified in the Change Proposal, the Change will not be implemented. However, this provision does not limit the rights of either party under GCC Clause 6 (Settlement of Disputes).

39.3 Changes Originating from Supplier

If the Supplier proposes a Change pursuant to GCC Clause 39.1.2, the Supplier shall submit to the Project Manager a written “Application for Change Proposal,” giving reasons for the proposed Change and including the information specified in GCC Clause 39.2.1. Upon receipt of the Application for Change Proposal, the parties shall follow the procedures outlined in GCC Clauses 39.2.6 and 39.2.7. However, should the Procuring Entity choose not to proceed or the Procuring Entity and the Supplier cannot come to agreement on the change during any validity period that the Supplier may specify in its Application for Change Proposal, the Supplier shall not be entitled to recover the costs of preparing the Application for Change Proposal, unless subject to an agreement between the Procuring Entity and the Supplier to the contrary.

39.4 Value engineering. The Supplier may prepare, at its own cost, a value engineering proposal at any time during the performance of the Contract. The value engineering proposal shall, at a minimum, include the following;

- (a) The proposed change (s), and a description of the difference to the existing Contract requirements;
- (b) a full cost/benefit analysis of the proposed change(s) including a description and estimate of costs (including life cycle costs) the Procuring Entity may incur in implementing the value engineering proposal; and
- (c) a description of any effect(s) of the change on performance/ functionality.

The Procuring Entity may accept the value engineering proposal if the proposal demonstrates benefits that:

- a) accelerates the delivery period; or
- b) reduces the Contract Price or the life cycle costs to the Procuring Entity; or
- c) improves the quality, efficiency, safety or sustainability of the systems; or
- d) yields any other benefits to the Procuring Entity, without compromising the necessary functions of the systems.

If the value engineering proposal is approved by the Procuring Entity and results in:

- a) a reduction of the Contract Price; the amount to be paid to the Supplier shall be the percentage specified in the SCC of the reduction in the Contract Price; or
- b) an increase in the Contract Price; but results in a reduction in life cycle costs due to any benefit described in
 - (a) to (d) above, the amount to be paid to the Supplier shall be the full increase in the Contract Price.

40 Extension of Time for Achieving Operational Acceptance

40.1 The time(s) for achieving Operational Acceptance specified in the Schedule of Implementation shall be extended if the Supplier is delayed or impeded in the performance of any of its obligations under the Contract by reason of any of the following:

- a) Any Change in the System as provided in GCC Clause 39 (Change in the Information System);
- b) Any occurrence of Force Majeure as provided in GCC Clause 38 (Force Majeure);
- c) Default of the Procuring Entity; or
- d) Any other matter specifically mentioned in the Contract; by such period as shall be fair and reasonable in all the circumstances and as shall fairly reflect the delay or impediment sustained by the Supplier.

40.2 Except where otherwise specifically provided in the Contract, the Supplier shall submit to the Project Manager a notice of a claim for an extension of the time for achieving Operational Acceptance, together with particulars of the event or circumstance justifying such extension as soon as reasonably practicable after the commencement of such event or circumstance. As soon as reasonably practicable after receipt of such notice and supporting particulars of the claim, the Procuring Entity and the Supplier shall agree upon the period of such extension. In the event that the Supplier does not accept the Procuring Entity's estimate of a fair and reasonable time extension, the Supplier shall be entitled to refer the matter to the provisions for the Settlement of Disputes pursuant to GCC Clause 43.

40.3 The Supplier shall at all times use its reasonable efforts to minimize any delay in the performance of its obligations under the Contract.

41 Termination

41.1 Termination for Procuring Entity's Convenience

41.1.1 The Procuring Entity may at any time terminate the Contract for any reason by giving the Supplier a notice of termination that refers to this GCC Clause 41.1.

41.1.2 Upon receipt of the notice of termination under GCC Clause 41.1.1, the Supplier shall either as soon as reasonably practical or upon the date specified in the notice of termination

- a) cease all further work, except for such work as the Procuring Entity may specify in the notice of termination for the sole purpose of protecting that part of the System already executed, or any work required to leave the site in a clean and safe condition;
- b) terminate all subcontracts, except those to be assigned to the Procuring Entity pursuant to GCC Clause (d) (ii) below;
- c) Remove all Supplier's Equipment from the site, repatriate the Supplier's and its Sub contractors' personnel from the site, remove from the site any wreckage, rubbish, and debris of any kind;
- d) In addition, the Supplier, subject to the payment specified in GCC Clause 41.1.3, shall
 - i) deliver to the Procuring Entity the parts of the System executed by the Supplier up to the date of termination;
 - ii) to the extent legally possible, assign to the Procuring Entity all right, title, and benefit of the Supplier to the System, or Subsystem, as at the date of termination, and, as may be required by the Procuring Entity, in any subcontracts concluded between the Supplier and its Subcontractors;
 - iii) deliver to the Procuring Entity all nonproprietary drawings, specifications, and other documents prepared by the Supplier or its Subcontractors as of the date of termination in connection with the System.

41.1.3 In the event of termination of the Contract under GCC Clause 41.1.1, the Procuring Entity shall pay to the Supplier the following amounts:

- a) The Contract Price, properly attributable to the parts of the System executed by the Supplier as of the date of termination;
- b) The costs reasonably incurred by the Supplier in the removal of the Supplier's Equipment from the site and in the repatriation of the Supplier's and its Subcontractors' personnel;
- c) any amount to be paid by the Supplier to its Subcontractors in connection with the termination of any subcontracts, including any cancellation charges;
- d) costs incurred by the Supplier in protecting the System and leaving the site in a clean and safe condition pursuant to GCC Clause 41.1.2(a); and
- e) the cost of satisfying all other obligations, commitments, and claims that the Supplier may in good faith have undertaken with third parties in connection with the Contract and that are not covered by GCC Clauses 41.1.3 (a) through (d) above.

41.2 Termination for Supplier's Default

41.2.1 The Procuring Entity, without prejudice to any other rights or remedies it may possess, may terminate the Contract forth within the following circumstances by giving a notice of termination and its reasons there for to the Supplier, referring to this GCC Clause 41.2:

- a) If the Supplier becomes bankrupt or in solvent, has a receiving order issued against it, compounds with its creditors, or, if the Supplier is a corporation, a resolution is passed or order is made for its winding up (other than a voluntary liquidation for the purposes of amalgamation or reconstruction), a receiver is appointed over any part of its under taking or assets, or if the Supplier takes or suffers any other analogous action in consequence of debt;
- b) If the Supplier assigns or transfers the Contractor any right or interest, there in in violation of the provision of GCC Clause 42 (Assignment); or
- c) If the Supplier, in the judgment of the Procuring Entity has engaged in Fraud and Corruption, as defined in paragraph 2.2a. of the Appendix to the GCC, in competing for or in executing the Contract, including but

Not limited to willful misrepresentation of facts concerning ownership of Intellectual Property Rights in, or proper authorization and/or licenses from the owner to offer, the hardware, software, or materials provided under this Contract.

41.2.2 If the Supplier:

- d) Has abandoned or repudiated the Contract;
- e) Has without valid reason failed to commence work on the System promptly;
- f) Persistently fails to execute the Contract in accordance with the Contract or persistently neglects to carry out its obligations under the Contract without just cause;
- g) Refuses or is unable to provide sufficient Materials, Services, or labor to execute and complete the System in the manner specified in the Agreed Project Plan furnished under GCC Clause 19 at rates of progress that give reasonable assurance to the Procuring Entity that the Supplier can attain Operational Acceptance of the System by the Time for Achieving Operational Acceptance as extended; then the Procuring Entity may, without prejudice to any other rights it may possess under the Contract, give a notice to the Supplier stating the nature of the default and requiring the Supplier to remedy the same. If the Supplier fails to remedy or to take steps to remedy the same within fourteen (14) days of its receipt of such notice, then the Procuring Entity may terminate the Contract forthwith by giving a notice of termination to the Supplier that refers to this GCC Clause 41.2.

41.2.3 Upon receipt of the notice of termination under GCC Clauses 41.2.1 or 41.2.2, the Supplier shall, either immediately or upon such date as is specified in the notice of termination:

- h) cease all further work, except for such work as the Procuring Entity may specify in the notice of termination for the sole purpose of protecting that part of the System already executed or any work required to leave the site in a clean and safe condition;
- i) terminate all subcontracts, except those to be assigned to the Procuring Entity pursuant to GCC Clause (d) below;
- j) deliver to the Procuring Entity the parts of the System executed by the Supplier up to the date of termination;
- k) to the extent legally possible, assign to the Procuring Entity all right, title and benefit of the Supplier to the System or Subsystems as at the date of termination, and, as may be required by the Procuring Entity, in any subcontracts concluded between the Supplier and its Subcontractors;
- l) deliver to the Procuring Entity all drawings, specifications, and other documents prepared by the Supplier or its Subcontractors as at the date of termination in connection with the System.

41.2.4 The Procuring Entity may enter upon the site, expel the Supplier, and complete the System itself or by employing any third party. Upon completion of the System or at such earlier date as the Procuring Entity thinks appropriate, the Procuring Entity shall give notice to the Supplier that such Supplier's Equipment will be returned to the Supplier at or near the site and shall return such Supplier's Equipment to the Supplier in accordance with such notice. The Supplier shall thereafter without delay and at its cost remove or arrange removal of the same from the site.

41.2.5 Subject to GCC Clause 41.2.6, the Supplier shall be entitled to be paid the Contract Price attributable to the portion of the System executed as at the date of termination and the costs, if any, incurred in protecting the System and in leaving the site in a clean and safe condition pursuant to GCC Clause 41.2.3 (a). Any sums due the Procuring Entity from the Supplier accruing prior to the date of termination shall be deducted from the amount to be paid to the Supplier under this Contract.

41.2.6 If the Procuring Entity completes the System, the cost of completing the System by the Procuring Entity shall be determined. If the sum that the Supplier is entitled to be paid, pursuant to GCC Clause 41.2.5, plus the reasonable costs incurred by the Procuring Entity in completing the System, exceeds the Contract Price, the Supplier shall be liable for such excess. If such excess is greater than the sums due the Supplier under GCC Clause 41.2.5, the Supplier shall pay the balance to the Procuring Entity, and if such excess is less than the sums due the Supplier under GCC Clause 41.2.5, the Procuring Entity shall pay the balance to the Supplier. The Procuring Entity and the Supplier shall agree, in writing, on the computation described above and the manner in which any sums shall be paid.

41.3 Termination by Supplier

41.3.1 If:

- a) the Procuring Entity has failed to pay the Supplier any sum due under the Contract within the specified period, has failed to approve any invoice or supporting documents without just cause **pursuant to the SCC**, or commits a substantial breach of the Contract, the Supplier may give a notice to the Procuring Entity that requires payment of such sum, with interest on this sum as stipulated in GCC Clause 12.3, requires approval of such invoice or supporting documents, or specifies the breach and requires the Procuring Entity to remedy the same, as the case may be. If the Procuring Entity fails to pay such sum together with such interest, fails to approve such invoice or supporting documents or give its reasons for withholding such approval, fails to remedy the breach or take steps to remedy the breach within fourteen (14) days after receipt of the Supplier's notice; or
- b) the Supplier is unable to carry out any of its obligations under the Contract for any reason attributable to the Procuring Entity, including but not limited to the Procuring Entity's failure to provide possession of or access to the site or other areas or failure to obtain any governmental permit necessary for the execution and/or completion of the System; then the Supplier may give a notice to the Procuring Entity of such events, and if the Procuring Entity has failed to pay the outstanding sum, to approve the invoice or supporting documents, to give its reasons for withholding such approval, or to remedy the breach within twenty-eight (28) days of such notice, or if the Supplier is still unable to carry out any of its obligations under the Contract for any reason attributable to the Procuring Entity within twenty-eight (28) days of the said notice, the Supplier may by a further notice to the Procuring Entity referring to this GCC Clause 41.3.1, forth with terminate the Contract.

41.3.2 The Supplier may terminate the Contract immediately by giving a notice to the Procuring Entity to that effect, referring to this GCC Clause 41.3.2, if the Procuring Entity becomes bankrupt or insolvent, has a receiving order issued against it, compounds with its creditors, or, being a corporation, if a resolution is passed or order is made for its winding up (other than a voluntary liquidation for the purposes of amalgamation or reconstruction), a receiver is appointed over any part of its undertaking or assets, or if the Procuring Entity takes or suffers any other analogous action in consequence of debt.

41.3.3 If the Contract is terminated under GCC Clauses 41.3.1 or 41.3.2, then the Supplier shall immediately:

- c) Cease all further work, except for such work as may be necessary for the purpose of protecting that part of the System already executed, or any work required to leave the site in a clean and safe condition;
- d) Terminate all subcontracts, except those to be assigned to the Procuring Entity pursuant to Clause 41.3.3 (d) (ii);
- e) remove all Supplier's Equipment from the site and repatriate the Supplier's and its Subcontractor's personnel from the site.
- f) In addition, the Supplier, subject to the payment specified in GCC Clause 41.3.4, shall:
 - i) deliver to the Procuring Entity the parts of the System executed by the Supplier up to the date of termination;
 - ii) to the extent legally possible, assign to the Procuring Entity all right, title, and benefit of the Supplier to the System, or Subsystems, as of the date of termination, and, as may be required by the Procuring Entity, in any subcontracts concluded between the Supplier and its Subcontractors;
 - iii) to the extent legally possible, deliver to the Procuring Entity all drawings, specifications, and other documents prepared by the Supplier or its Subcontractors as of the date of termination in connection with the System.

41.3.4 If the Contract is terminated under GCC Clauses 41.3.1 or 41.3.2, the Procuring Entity shall pay to the Supplier all payments specified in GCC Clause 41.1.3 and reasonable compensation for all loss, except for loss of profit, or damage sustained by the Supplier arising out of, in connection with, or in consequence of such termination.

41.3.5 Termination by the Supplier pursuant to this GCC Clause 41.3 is without prejudice to any other rights or remedies of the Supplier that may be exercised in lieu of or in addition to rights conferred by GCC Clause 41.3.

41.4 In this GCC Clause 41, the expression "portion of the System executed" shall include all work executed, Services provided, and all Information Technologies, or other Goods acquired (or subject to a

legally binding

Obligation to purchase) by the Supplier and used or intended to be used for the purpose of the System, up to and including the date of termination.

- 41.5** In this GCC Clause 41, in calculating any monies due from the Procuring Entity to the Supplier, account shall be taken of any sum previously paid by the Procuring Entity to the Supplier under the Contract, including any advance payment paid **pursuant to the SCC**.

42 Assignment

- 42.1 Neither the Procuring Entity nor the Supplier shall, without the express prior written consent of the other, assign to any third party the Contractor any part thereof, or any right, benefit, obligation, or interest there in or there under, except that the Supplier shall be entitled to assign either absolutely or by way of charge any monies due and payable to it or that may become due and payable to it under the Contract.

I. Settlement of Disputes

43 Settlement of Disputes

43.1 Adjudication

- 43.1.1 If any dispute of any kind what so ever shall arise between the Procuring Entity and the Supplier in connection with or arising out of the Contract, including without prejudice to the generality of the foregoing, any question regarding its existence, validity, or termination, or the operation of the System (whether during the progress of implementation or after its achieving Operational Acceptance and whether before or after the termination, abandonment, or breach of the Contract), the parties shall seek to resolve any such dispute **by mutual consultation**. If the parties fail to resolve such a dispute by mutual consultation within fourteen (14) days after one party has notified the other in writing of the dispute, then, if the Contract Agreement in Appendix2 includes and names an Adjudicator, the dispute shall, within another fourteen (14) days, be referred in writing by either party to the Adjudicator, with a copy to the other party. If there is no Adjudicator specified in the Contract Agreement, the mutual consultation period stated above shall last twenty-eight (28) days (instead of fourteen), upon expiry of which either party may move to the notification of arbitration pursuant to GCC Clause43.2.1.

- 43.1.2 The Adjudicator shall give his or her decision in writing to both parties within twenty-eight (28) days of the dispute being referred to the Adjudicator. If the Adjudicator has done so, and no notice of intention to commence arbitration has been given by either the Procuring Entity or the Supplier within fifty-six (56) days of such reference, the decision shall become final and binding upon the Procuring Entity and the Supplier. Any decision that has become final and binding shall be implemented by the parties forth with.

- 43.1.3 The Adjudicator shall be paid an hourly fee at the rate specified in the Contract Agreement plus reasonable expenditures incurred in the execution of duties as Adjudicator, and these costs shall be divided equally between the Procuring Entity and the Supplier.

- 43.1.4 Should the Adjudicator resign or die, or should the Procuring Entity and the Supplier agree that the Adjudicator is not fulfilling his or her functions in accordance with the provisions of the Contract, a new Adjudicator shall be jointly appointed by the Procuring Entity and the Supplier. Failing agreement between the two within twenty-eight (28) days, the new Adjudicator shall be appointed at the request of either party by the Appointing Authority **specified in the SCC**, or, if no Appointing Authority is **specified in SCC**, the Contract shall, from this point onward and until the parties may otherwise agree on an Adjudicator or an Appointing Authority, be implemented as if there is no Adjudicator.

43.2 Arbitration

- 43.2.1 If
- a) the Procuring Entity or the Supplier is dissatisfied with the Adjudicator's decision and acts before this decision has become final and binding pursuant to GCC Clause 43.1.2, or
 - b) the Adjudicator fails to give a decision within the allotted time from referral of the dispute pursuant to GCC Clause 43.1.2, and the Procuring Entity or the Supplier acts within the following fourteen (14) days, or
 - c) in the absence of an Adjudicator from the Contract Agreement, the mutual consultation pursuant to GCC Clause 43.1.1 expires without resolution of the dispute and the Procuring Entity or the Supplier acts within the following fourteen (14) days, then either the Procuring Entity or the Supplier may act to

give notice to the other party, with a copy for information to the Adjudicator incase an Adjudicator had been involved, of its intention to commence arbitration, as provided below, as to the matter in dispute, and no arbitration in respect of this matter may be commenced unless such notice is given.

43.2.2 Any dispute in respect of which a notice of intention to commence arbitration has been given, in accordance with GCC Clause 43.2.1, shall be finally settled by arbitration. Arbitration may be commenced prior to or after Installation of the Information System.

43.2.3 Arbitration proceedings shall be conducted in accordance with the rules of procedure **specified in the SCC.**

43.3 Notwithstanding any reference to the Adjudicator or arbitration in this clause,

- a) The parties shall continue to perform their respective obligations under the Contract unless they otherwise agree;
- b) The Procuring Entity shall pay the Supplier any monies due the Supplier.

SECTION VII - SPECIAL CONDITIONS OF CONTRACT

Special Conditions of Contract

The following Special Conditions of Contract (SCC) shall supplement or amend the General Conditions of Contract (GCC). Whenever there is a conflict, the provisions of the SCC shall prevail over those in the General Conditions of Contract. For the purposes of clarity, any referenced GCC clause numbers are indicated in the left column of the SCC.

A. Contract and Interpretation

1. Definitions (GCC Clause1)

A. Contract and Interpretation	
1. Definitions (GCC Clause1)	
GCC 1.1 (b) (i)	The Procuring Entity is: ICT AUTHORITY
GCC 1.1 (b) (ii)	The Project Manager is: Contract Implementation Team (CIT)
GCC 1.1 (e) (x).	There are no Special Conditions associated with GCC 1.1 (e) (x)
GCC 1.1 (e) (xii)	The Post-Warranty Services Period ismonths starting with the completion of the Warranty Period
1. Notice (GCC Clause 4)	
GCC 4.3	ICT AUTHORITY Telposta Towers.12th Floor, Kenyatta Avenue P.O Box 27150-00100 Nairobi, Kenya. Website: www.icta.go.ke Email : procurement@ict.go.ke
B. Subject Matter of Contract	
2. Scope of the system (GCC Clause 7)	
GCC 7.1	<p>The Supplier's obligations under the Contract will include the following recurrent cost items, as identified in the Recurrent Cost tables in the Supplier's Tender: as per the terms of reference</p> <p><i>[Specify: the recurrent cost items/services that are included in the Contract; also provide cross reference to the place in the Technical Requirements where each item/service is specified in detail.]</i></p> <p><i>[Note: the requirements in terms of recurrent cost items should be defined here, reflected in the Recurrent Cost Table for the Warranty period, and elaborated in the Technical Requirements. See also notes to SCC Clause 29.4 regarding services that are not typically included in commercial warranties.</i></p>
7. Terms of Payment GCC Clause 12)	
12.1	<p>Subject to the provisions of GCC Clause 12 (Terms of Payment). The Procuring Entity shall pay the Contract Price to the Supplier according to the categories and in the manner specified below. Only the categories Advance Payment and Complete System Integration relate to the entire Contract Price. In other payment categories, the tem "total Contract Price" means the total cost of goods or services under the specific payment category, Within each such category, the Contract Implementation</p> <p>Schedule may trigger pro-rata payments for the portion of the total Contract Price for the category corresponding to the goods or services actually Delivered, Installed, or Operationally Accepted, at unit prices and in the currencies specified in the Price Schedules of the Contract Agreement.</p>

SECTION VIII - CONTRACT FORMS

Notes to the Procuring Entity on preparing the Contract Forms.

Performance Security: Pursuant to GCC Clause 13.3, the successful Tenderer is required to provide the Performance Security within twenty-eight (28) days of notification of Contract award.

Advance Payment Security: Pursuant to Clause 13.2, the successful Tenderer is required to provide a bank guarantee securing the Advance Payment, if the SCC related to GCC Clause 12.1 provides for an Advance Payment.

Installation and Operational Acceptance Certificates: Recommended formats for these certificates are included in this SPD. Unless the Procuring Entity has good reason to require procedures that differ from those recommended, or to require different wording in the certificates, the procedures and forms shall be included unchanged. If the Procuring Entity wishes to amend the recommended procedures and/ or certificates, it may do so before release of the tendering document to potential Tenderers.

Change Order Procedures and Forms: Similar to the Installation and Operational Acceptance Certificates, the Change Estimate Proposal, Estimate Acceptance, Change Proposal, Change Order, and related Forms should be included in the tendering document unaltered. If the Procuring Entity wishes to amend the recommended procedures and/ or certificates, it may do so before release of the tendering document.

Notes to Tenderers on working with the Sample Contractual Forms

The following forms are to be completed and submitted by the successful Tenderer following notification of award:

(i) Contract Agreement, with all Appendices; (ii) Performance Security; and (iii) Advance Payment Security.

Contract Agreement: In addition to specifying the parties and the Contract Price, the Contract Agreement is where the:

(i) Supplier Representative; (ii) if applicable, agreed Adjudicator and his/her compensation; and (iii) the List of Approved Subcontractors are specified. In addition, modifications to the successful Tenderer's Tender Price Schedules are attached to the Agreement. These contain corrections and adjustments to the Supplier's tender prices to correct errors, adjust the Contract Price to reflect - if applicable - any extensions to tender validity beyond the last day of original tender validity plus 56 days, etc.

Performance Security: Pursuant to GCC Clause 13.3, the successful Tenderer is required to provide the Performance Security in the form contained in this section of these tendering documents and in the amount specified in accordance with the SCC.

Advance Payment Security: Pursuant to GCC Clause 13.2, the successful Tenderer is required to provide a bank guarantee for the full amount of the Advance Payment - if an Advance Payment is specified in the SCC for GCC Clause 12.1 - in the form contained in this section of these tendering documents or another form acceptable to the Procuring Entity. If a Tenderer wishes to propose a different Advance Payment Security form, it should submit a copy to the Procuring Entity promptly for review and confirmation of acceptability before the tender submission deadline.

The Procuring Entity and Supplier will use the following additional forms during Contract implementation to formalize or certify important Contract events: (i) the Installation and Operational Acceptance Certificates; and (ii) the various Change Order forms. These and the procedures for their use during performance of the Contract are included in the tendering documents for the information of Tenderers.

1. Notification of Intention to Award

[This Notification of Intention to Award shall be sent to each Tenderer that submitted a Tender.]

[Send this Notification to the Tenderer's Authorized Representative named in the Tenderer Information Form]

For the attention of Tenderer's Authorized Representative Name: *[insert Authorized Representative's name]*

Address: *[insert Authorized Representative's Address]*

Telephone/Fax numbers: *[insert Authorized Representative's telephone/fax numbers]*

Email Address: *[insert Authorized Representative's email address]*

[IMPORTANT: insert the date that this Notification is transmitted to all participating Tenderers. The Notification must be sent to all Tenderers simultaneously. This means on the same date and as close to the same time as possible.]

DATE OF TRANSMISSION: This Notification is sent by: *[email/fax]* on *[date]* (local time)

Notification of Intention to Award

[Procuring Entity] *[insert the name of the Procuring Entity]*

Project *[insert name of project]*

Contract title *[insert the name of the contract]*

Country: *[insert country where ITT is issued]*

ITT No: *[insert ITT reference number from Procurement Plan]*

This Notification of Intention to Award (Notification) notifies you of our decision to award the above contract. The transmission of this Notification begins the Standstill Period. During the Standstill Period you may:

- a) Request a debriefing in relation to the evaluation of your Tender, and/ or
- b) Submit a Procurement-related Complaint in relation to the decision to award the contract.
- i) **The successful Tenderer**

Name:	<i>[insert name of successful Tenderer]</i>
Address:	<i>[insert address of the successful Tenderer]</i>
Contract Price:	<i>[insert contract price of the successful tenderer]</i>
Total Combined Score:	<i>[insert the total combined score of the successful Tenderer]</i>

1. Other Tenderers *[INSTRUCTIONS: insert names of all Tenderers that submitted a Tender. If the Tender's price was evaluated include the evaluated price as well as the Tender price as read out.]*

Name of Tenderer	Technical Score (If applicable)	Tender price	Evaluated tender Cost	Combined Score (if applicable)
<i>[insert name]</i>	<i>[insert Technical Score]</i>	<i>[insert tender price]</i>	<i>[insert evaluated Cost]</i>	<i>[insert combined score]</i>
<i>[insert name]</i>	<i>[insert Technical Score]</i>	<i>[insert tender price]</i>	<i>[insert evaluated Cost]</i>	<i>[insert combined score]</i>
<i>[insert name]</i>	<i>[insert Technical Score]</i>	<i>[insert tender price]</i>	<i>[insert evaluated Cost]</i>	<i>[insert combined score]</i>
<i>[insert name]</i>	<i>[insert Technical Score]</i>	<i>[insert tender price]</i>	<i>[insert evaluated Cost]</i>	<i>[insert combined score]</i>
<i>[insert name]</i>	<i>[insert Technical Score]</i>	<i>[insert tender price]</i>	<i>[insert evaluated Cost]</i>	<i>[insert combined score]</i>

1. Reason/s why your Tender was unsuccessful [Delete if the combined score already reveals the reason]

[INSTRUCTIONS; State the reason/s why this Tenderer's Tender was unsuccessful. Do NOT include: (a) a point by point comparison with another Tenderer's Tender or (b) information that is marked confidential by the Tenderer in its Tender.]

3. How to request a debriefing

DEADLINE: The deadline to request a debriefing expires at midnight on [insert date] (local time).

You may request a debriefing in relation to the results of the evaluation of your Tender. If you decide to request a debriefing your written request must be made within three (3) Business Days of receipt of this Notification of Intention to Award.

Provide the contract name, reference number, name of the Tenderer, contact details; and address the request for debriefing as follows:

Attention: [insert full name of person, if applicable] **Title/position:** _____[insert title/position]

Agency: [insert name of Procuring Entity] **Email address:** _____[insert email address] **Fax number:** _____[insert fax number] **delete if not used**

If your request for a debriefing is received within the 3 Business Days deadline, we will provide the debriefing within five (5) Business Days of receipt of your request. If we are unable to provide the debriefing within this period, the Standstill Period shall be extended by five (5) Business Days after the date that the debriefing is provided. If this happens, we will notify you and confirm the date that the extended Standstill Period will end.

The debriefing may be in writing, by phone, video conference call or in person. We shall promptly advise you in writing how the debriefing will take place and confirm the date and time.

If the deadline to request a debriefing has expired, you may still request a debriefing. In this case, we will provide the debriefing as soon as practicable, and normally no later than fifteen (15) Business Days from the date of publication of the Contract Award Notice.

4. How to make a complaint

DEADLINE: The deadline for submitting a Procurement-related Complaint challenging the decision to award the contract expires on midnight, [insert date] (local time).

Provide the contract name, reference number, name of the Tenderer, contact details; and address the Procurement-related Complaint as follows:

Attention: [insert full name of person, if applicable] **Title/position:** _____[insert title/position]

Agency: [insert name of Procuring Entity] **Email address:** _____[insert email address]

At this point in the procurement process, you may submit a Procurement-related Complaint challenging the decision to award the contract. You do not need to have requested, or received, a debriefing before making this complaint. Your complaint must be submitted within the Standstill Period and received by us before the Standstill Period ends. Further information:

For more information refer to the Public Procurement and Disposals Act 2015 and its Regulations available from the Website info@ppra.go.ke or complaints@ppra.go.ke.

In summary, there are four essential requirements:

1. You must be an 'interested party'. In this case, that means a Tenderer who submitted a Tender in this procurement, and is the recipient of a Notification of Intention to Award.
2. The complaint can only challenge the decision to award the contract.
3. You must submit the complaint within the deadline stated above.
4. You must include, in your complaint, all of the information required by the Procurement Regulations (as described in Annex III).

5. Standstill Period

DEADLINE: The Standstill Period is due to end at midnight on *[insert date]* (local time).

The Standstill Period lasts ten (10) Business Days after the date of transmission of this Notification of Intention to Award.

The Standstill Period may be extended. This may happen where we are unable to provide a debriefing within the five (5) Business Day deadline. If this happens we will notify you of the extension.

If you have any questions regarding this Notification please do not hesitate to contact us. On behalf of the Procuring Entity:

Attachment: Contract Agreement

3 **Contract Agreement**

THIS CONTRACT AGREEMENT is made on the*[insert: ordinal]* day of *[insert: month]*, *[insert: year]*. BETWEEN (1).....*[insert: Name of Procuring Entity]*, a *[insert: description of type of legal entity, for example, an agency of the Department of.....]* of the Government of Kenya, or corporation incorporated under the laws of Kenya and having its principal place of business at *[insert: address of Procuring Entity]* (here in after called “the Procuring Entity”), and (2).....*[insert: name of Supplier]*, a corporation incorporated under the laws of *[insert: country of Supplier]* and having its principal place of business at *[insert: address of Supplier]* (here in after called “the Supplier”).

WHEREAS the Procuring Entity desires to engage the Supplier to supply, install, achieve Operational Acceptance of, and support the following Information System *[insert: brief description of the Information System]* (“the System”), and the Supplier has agreed to such engagement upon and subject to the terms and conditions appearing below in this Contract Agreement.

NOW IT IS HERE BY AGREED as follows:

Article 1. Contract Documents

4 Contract Documents (Reference GCC Clause 1.1(a) (ii))

The following documents shall constitute the Contract between the Procuring Entity and the Supplier, and each shall be read and construed as an integral part of the Contract:

- a) This Contract Agreement and the Appendices attached to the Contract Agreement
- b) Special Conditions of Contract
- c) General Conditions of Contract
- d) Technical Requirements (including Implementation Schedule)
- e) The Supplier's tender and original Price Schedules
- f) *[Add here: any other documents]*

1.2 Order of Precedence (Reference GCC Clause 2)

In the event of any ambiguity or conflict between the Contract Documents listed above, the order of precedence shall be the order in which the Contract Documents are listed in Article 1.1 (Contract Documents) above, provided that Appendix 7 shall prevail over all provisions of the Contract Agreement and the other Appendices attached to the Contract Agreement and all the other Contract Documents listed in Article 1.1 above.

1.3 Definitions (Reference GCC Clause 1)

Capitalized words and phrases used in this Contract Agreement shall have the same meanings as prescribed to them in the General Conditions of Contract.

Article 2.

Contract Price and Terms of Payment

- 2.1 Contract Price (Reference GCC Clause 1.1(a)(viii) and GCC Clause 11) The Procuring Entity here by agrees to pay to the Supplier the Contract Price in consideration of the performance by the Supplier of its obligations under the Contract. The Contract Price shall be the aggregate of: *[insert: amount of foreign currency A in words], [insert: amount in figures], plus [insert: amount of foreign currency B in words], [insert: amount in figures], plus [insert: amount of foreign currency C in words], [insert: amount in figures], [insert: amount of local currency in words], [insert: amount in figures]*, as specified in the Grand Summary Price Schedule.

The Contract Price shall be understood to reflect the terms and conditions used in the specification of prices in the detailed price schedules, including the terms and conditions of the associated incoterms, and the taxes, duties and related levies if and as identified.

Article 3.

Effective Date for Determining Time for Operational Acceptance

- 3.1 Effective Date (Reference GCC Clause 1.1(e) (ix))

The time allowed for supply, installation, and achieving Operational Acceptance of the System shall be determined from the date when all of the following conditions have been fulfilled:

- a) This Contract Agreement has been duly executed for and on behalf of the Procuring Entity and the Supplier;
- b) The Supplier has submitted to the Procuring Entity the performance security and the advance payment security, in accordance with GCC Clause 13.2 and GCC Clause 13.3;

- c) The Procuring Entity has paid the Supplier the advance payment, in accordance with GCC Clause 12; Each party shall use its best efforts to fulfill the above conditions for which it is responsible as soon as practicable.

3.2 If the conditions listed under 3.1 are not fulfilled within two (2) months from the date of this Contract Agreement because of reasons not attributable to the Supplier, the parties shall discuss and agree on an equitable adjustment to the Contract Price and the Time for Achieving Operational Acceptance and/or other relevant conditions of the Contract.

Article 4.

Appendixes

4.1 The Appendixes listed below shall be deemed to form an integral part of this Contract Agreement.

4.2 Reference in the Contract to any Appendix shall mean the Appendixes listed below and attached to this Contract Agreement, and the Contract shall be read and construed accordingly.

APPENDIXES

Appendix 1. Supplier's Representative

Appendix 2. Adjudicator *[If there is no Adjudicator, state "not applicable"]*

Appendix 3. List of Approved Subcontractors

Appendix 4. Categories of Software

Appendix 5. Custom Materials

Appendix 6. Revised Price Schedules (if any)

Appendix 7. Minutes of Contract Finalization Discussions and Agreed-to Contract Amendments

IN WITNESS WHEREOF the Procuring Entity and the Supplier have caused this Agreement to be duly executed by their duly authorized representatives the day and year first above written.

i) **For and on behalf of the Procuring Entity**

Signed:

in the capacity of *[insert: title or other appropriate designation]*

in the presence of _____

ii) **For and on behalf of the Supplier**

Signed:

in the capacity of *[insert: title or other appropriate designation]*

in the presence of _____

4 Appendices

a) Appendix 1. Supplier's Representative

In accordance with GCC Clause 1.1 (b) (iv), the Supplier's Representative is:

Name:..... [*insert: name and provide title and address further below, or state “to be nominated within fourteen (14) days of the Effective Date”*]

Title:..... [*if appropriate, insert: title*]

In accordance with GCC Clause 4.3, the Supplier's addresses for notices under the Contract are:

Address of the Supplier's Representative:..... [*as appropriate, insert: personal delivery, postal, cable, facsimile, electronic mail, and/or EDI addresses.*]

Fallback address of the Supplier: [*as appropriate, insert: personal delivery, postal, cable, facsimile, electronic mail, and/or EDI addresses.*]

b) Appendix

2. Adjudicator in accordance with GCC Clause 1.1 (b) (vi), the agreed-upon Adjudicator is: Name:

..... *[insert: name]* Title:

[insert: title] Address:*[insert: postal address]* Telephone:

..... *[insert: telephone]* in accordance with GCC Clause 43.1.3, the

agreed-upon fees and reimbursable expenses are: Hourly Fees:

[insert: hourly fees] Reimbursable Expenses:*[list: reimbursables]*

Pursuant to GCC Clause 43.1.4, if at the time of Contract signing, agreement has not been reached between the Procuring Entity and the Supplier, an Adjudicator will be appointed by the Appointing Authority named in the SCC.

c) Appendix 3. List of Approved Subcontractors

The Procuring Entity has approved use of the following Subcontractors nominated by the Supplier for carrying out the item or component of the System indicated. Where more than one Subcontractor is listed, the Supplier is free to choose between them, but it must notify the Procuring Entity of its choice sufficiently in advance of the time when the subcontracted work needs to commence to give the Procuring Entity reasonable time for review. In accordance with GCC Clause 20.1, the Supplier is free to submit proposals for Subcontractors for additional items from time to time. No subcontracts shall be placed with any such Subcontractors for additional items until the Subcontractors have been approved in writing by the Procuring Entity and their names have been added to this list of Approved Subcontractors, subject to GCC Clause 20.3.

[specify: item, approved Subcontractors, and their place of registration that the Supplier proposed in the corresponding attachment to its tender and that the Procuring Entity approves that the Supplier engage during the performance of the Contract. Add additional pages as necessary.]

[illegible]

d) Appendix 4. Categories of Software

The following table assigns each item of Software supplied and installed under the Contract to one of the three categories: (i) System Software, (ii) General-Purpose Software, or (iii) Application Software; and to one of the two categories: (i) Standard Software or (ii) Custom Software.

[illegible]

e) **Appendix 5. Custom Materials**

The follow table specifies the Custom Materials the Supplier will provide under the Contract.

[illegible]

f) Appendix 6. Revised Price Schedules

The attached Revised Price Schedules (if any) shall form part of this Contract Agreement and, where differences exist, shall supersede the Price Schedules contained in the Supplier's Tender. These Revised Price Schedules reflect any corrections or adjustments to the Supplier's tender price, pursuant to the ITT Clauses 30.3 and 38.2.

g) Appendix 7. Minutes of Contract Finalization Discussions and Agreed-to Contract Amendments

The attached Contract amendments (if any) shall form part of this Contract Agreement and, where differences exist, shall supersede the relevant clauses in the GCC, SCC, Technical Requirements, or other parts of this Contract as defined in GCC Clause 1.1 (a) (ii).

5 Performance and Advance Payment Security Forms

5.1 Performance Security Form (Demand Bank Guarantee)

[The bank, as requested by the successful Tenderer, shall fill in this form in accordance with the instructions indicated]

[Guarantor Form head or SWIFT identifier code]

*[insert: **Bank's Name, and Address of Issuing Branch or Office**]*

Beneficiary:..... *[insert: **Name and Address of Procuring Entity**]*

Date:..... *[insert: **date**]*

PERFORMANCE GUARANTEE No.: *[insert: **Performance Guarantee Number**]* **Guarantor:**
..... *[Insert name and address of place of issue, unless indicated in the Form head.]*

We have been informed that on *[insert: **date of award**]* you awarded Contract No. *[insert: **Contract number**]* for *[insert: **title and/or brief description of the Contract**]* (hereinafter called "the Contract") to *[insert: **complete name of Supplier which in the case of a joint venture shall be in the name of the joint venture**]* (hereinafter called "the Applicant"). Furthermore, we understand that, according to the conditions of the Contract, a performance guarantee is required.

At the request of the Applicant, we as Guarantor here by irrevocably undertake to pay you any sum(s) not exceeding *[insert: **amount(s)**¹ in figures and words]* such sum being payable in the types and proportions of currencies which the Contract Price is payable upon receipt by us of the Beneficiary's statement, whether in the demand itself or in a separate signed document accompanying or identifying the demand, stating that the Applicant is in breach of its obligation(s) under the contract without the Beneficiary needing to prove or to show grounds or reasons for their demand or the sum specified there in.

On the date of your issuing, to the Supplier, the Operational Acceptance Certificate for the System, the value of this guarantee will be reduced to any sum(s) not exceeding *[insert: **amount(s) 4 in figures and words**]*. This remaining guarantee shall expire no later than *[insert: **number** and select: **of months/of years** (of the Warranty Period that needs to be covered by the remaining guarantee)]* from the date of the Operational Acceptance Certificate for the System², and any demand for payment under it must be received by us at this office on or before that date.

This guarantee is subject to the Uniform Rules for Demand Guarantees, (URDG) 2010 Revision, ICC Publication No. 758, except that the supporting statement under 15 (a) is hereby excluded.

[Signature(s)]

Note: All italicized text (including footnotes) is for use in preparing this form and shall be deleted from the final product.

¹The bank shall insert the amount(s) specified and denominated in the SCC for GCC Clauses 13.3.1 and 13.3.4 respectively, either in the currency(ies) of the Contract or a freely convertible currency acceptable to the Procuring Entity.

²In this sample form, the formulation of this paragraph reflects the usual SCC provisions for GCC Clause 13.3. However, if the SCC for GCC Clauses 13.3.1 and 13.3.4 varies from the usual provisions, the paragraph, and possibly the previous paragraph, need to be adjusted to precisely reflect the provisions specified in the SCC.

5.2 Advance Payment Security

Demand Bank Guarantee

[Guarantor Form head or SWIFT identifier code]

Beneficiary:..... *[insert: Name and Address of Procuring Entity]*

Date: *[insert date of issue]*

ADVANCE PAYMENT GUARANTEE No.:..... *[insert: Advance Payment Guarantee Number]*

Guarantor *[Insert name and address of place of issue, unless indicated in the Form head]*

We have been informed that on..... *[insert: date of award]* you awarded Contract No. *[insert: Contract number]* for *[insert: title and/or brief description of the Contract]* (here in after called "the Contract") to *[insert: complete name of Supplier, which in the case of a joint venture shall be the name of the joint venture]* (here in after called" the Applicant").

Furthermore, we understand that, according to the conditions of the Contract, an advance payment in the sum of *[insert: amount in numbers and words, for each currency of the advance payment]* is to be made to the Supplier against an advance payment guarantee.

At the request of the Applicant, we as Guarantor, here by irrevocably undertake to pay the Beneficiary any sum or sums not exceeding in total an amount of..... *[insert amount in figures]* () *[insert amount in words]*¹ upon receipt by us of the Beneficiary's complying demand supported by the Beneficiary's statement, whether in the demand itself or in a separate signed document accompanying or identifying the demand, stating either that the Applicant:

- (a) Has used the advance payment for purposes other than toward delivery of Goods; or
- (b) has failed to repay the advance payment in accordance with the Contract conditions, specifying the amount which the Applicant has failed to repay.

A demand under this guarantee may be presented as from the presentation to the Guarantor of a certificate from the Beneficiary's bank stating that the advance payment referred to above has been credited to the Applicant on its account number..... *[insert number]* at..... *[insert name and address of Applicant's bank]*.

The maximum amount of this guarantee shall be progressively reduced by the amount of the advance payment repaid by the Applicant as specified in copies of interim statements or payment certificates which shall be presented to us. This guarantee shall expire, at the latest, upon our receipt of a copy of the interim payment certificate indicating that ninety

(90) percent of the Accepted Contract Amount, has been certified for payment, or on the *[insert day]* day of..... *[insert month]*, 2 *[insert year]*, whichever is earlier. Consequently, any demand for payment under this guarantee must be received by us at this office on or before that date.

This guarantee is subject to the Uniform Rules for Demand Guarantees (URDG) 2010 Revision, ICC Publication No.758, except that the supporting statement under Article 15(a) is hereby excluded.

Contract:[*insert: name or System or Subsystem and number of Contract*]

General

This section provides samples of procedures and forms for carrying out changes to the System during the performance of the Contract in accordance with GCC Clause 39 (Changes to the System) of the Contract.

Change Order Log

The Supplier shall keep an up-to-date Change Order Log to show the current status of Requests for Change and Change Orders authorized or pending. Changes shall be entered regularly in the Change Order Log to ensure that the log is kept up-to-date. The Supplier shall attach a copy of the current Change Order Log in the monthly progress report to be submitted to the Procuring Entity.

References to Changes

- 1) Request for Change Proposals (including Application for Change Proposals) shall be serially numbered CR-nnn.
- 2) Change Estimate Proposals shall be numbered CN-nnn.
- 3) Estimate Acceptances shall be numbered CA-nnn.
- 4) Change Proposals shall be numbered CP-nnn.
- 5) Change Orders shall be numbered CO-nnn. On all forms, the numbering shall be determined by the original CR-nnn.

Annexes

- 7.1 Request for Change Proposal Form
- 7.2 Change Estimate Proposal Form
- 7.3 Estimate Acceptance Form
- 7.4 Change Proposal Form
- 7.5 Change Order Form
- 7.6 Application for Change Proposal Form

7.1 Request for Change Proposal Form

(Procuring Entity's Form head)

Date: *[insert: date]*

ITT: *[insert: title and number of ITT]*

Contract: *[insert: name of System or Subsystem or number of Contract]*

To: *[insert: name of Supplier and address]*

Attention: *[insert: name and title]*

Dear Sir or Madam:

With reference to the above-referenced Contract, you are requested to prepare and submit a Change Proposal for the Change noted below in accordance with the following instructions within *[insert: number]* days of the date of this Form.

1. Title of Change: *[insert: title]*
2. Request for Change No./Rev.: *[insert: number]*
3. Originator of Change: *[select Procuring Entity / Supplier (by Application for Change Proposal), and add: name of originator]*
4. Brief Description of Change: *[insert: description]*
5. System (or Subsystem or major component affected by requested Change): *[insert: description]*
6. Technical documents and/ or drawings for the request of
Change: Document or Drawing No. Description
7. Detailed conditions or special requirements of the requested Change: *[insert: description]*
8. Procedures to be followed:
 - a) Your Change Proposal will have to show what effect the requested Change will have on the Contract Price.
 - b) Your Change Proposal shall explain the time it will take to complete the requested Change and the impact, if any, it will have on the date when Operational Acceptance of the entire System agreed in the Contract.
 - c) If you believe implementation of the requested Change will have a negative impact on the quality, operability, or integrity of the System, please provide a detailed explanation, including other approaches that might achieve the same impact as the requested Change.
 - d) You should also indicate what impact the Change will have on the number and mix of staff needed by the Supplier to perform the Contract.
 - e) You shall not proceed with the execution of work related to the requested Change until we have accepted and confirmed the impact it will have on the Contract Price and the Implementation Schedule in writing.
9. As next step, please respond using the Change Estimate Proposal form, indicating how much it will cost you to prepare a concrete Change Proposal that will describe the proposed approach for implementing the Change, all its elements, and will also address the points in paragraph 8 above pursuant to GCC Clause 39.2.1. Your Change Estimate Proposal should contain a first approximation of the proposed approach, and implications for schedule and cost, of the Change.

BENEFICIAL OWNERSHIP DISCLOSURE FORM

INSTRUCTIONS TO TENDERERS: DELETE THIS BOX ONCE YOU HAVE COMPLETED THE FORM

This Beneficial Ownership Disclosure Form ("Form") is to be completed by the successful tenderer. In case of joint venture, the tenderer must submit a separate Form for each member. The beneficial ownership information to be submitted in this Form shall be current as of the date of its submission.

For the purposes of this Form, a Beneficial Owner of a Tenderer is any natural person who ultimately owns or controls the Tenderer by meeting one or more of the following conditions:

- Directly or indirectly holding 25% or more of the shares.*
- Directly or in directly holding 25% or more of the voting rights.*
- Directly or indirectly having the right to appoint a majority of the board of directors or equivalent governing body of the Tenderer.*

Tender Reference No.: _____ [insert identification

no] Name of the Assignment: _____ [insert name of the assignment]

to: _____ [insert complete name of Procuring Entity]

In response to your notification of award dated _____ [insert date of notification of award] to furnish additional information on beneficial ownership: _____ [select one option as applicable and delete the options that are not applicable]

I) We here by provide the following beneficial ownership information.

Details of beneficial ownership

Identity of Beneficial Owner	Directly or indirectly holding 25% or more of the shares (Yes / No)	Directly or indirectly holding 25 % or more of the Voting Rights (Yes / No)	Directly or indirectly having the right to appoint a majority of the board of the directors or an equivalent governing body of the Tenderer (Yes / No)
